**Hans A. Pohlsander**

## **Long Nineteenth Century A History Of Germany 1780 1918:**

The Long Nineteenth Century David Blackbourn, 1998 In the late eighteenth century German speaking Europe was a patchwork of principalities and lordships Most people lived in the countryside and just half survived until their late twenties By the beginning of our own century unified Germany was the most powerful state in Europe No longer a provincial land of poets and thinkers the country had been transformed into an industrial and military giant with an advanced welfare system The Long Nineteenth Century A History of Germany 1780 1918 is a masterful account of this transformation Spanning 150 years from the eve of the French Revolution to the end of World War I it introduces students to crucial areas of German social and cultural history demography and social structure work and leisure education and religion while providing a comprehensive account of political events The text explains how Germany came to be unified and the consequences of that unification It describes the growing role of the state and new ways in which rulers asserted their authority but questions clichés about German obedience It also looks at the ways in which the factory the railway and the movement into towns created new social relations and altered perceptions of time and place Drawing on a generation of work devoted to migration housing crime medicine and popular culture Blackbourn offers a powerful and original account of a changing society trying to do justice to the experiences of contemporary Germans both women and men Informed by the latest scholarship The Long Nineteenth Century A History of Germany 1780 1918 provides a complete and up to date alternative to conventional political histories of this period and is essential reading for undergraduates in German history and political science courses

*History of Germany 1780-1918* David Blackbourn, 2002-10-11 This history offers a powerful and original account of Germany from the eve of the French Revolution to the end of World War One Written by a leading German historian who has transformed the historiography of modern Germany over the past two decades Covers the whole of the long nineteenth century and emphasizes continuities through this period Brings together political social and cultural history Combines a comprehensive account with a feel for the human dimension and the history of everyday life Accessible to non specialists thought provoking and entertaining The updated second edition includes a revised bibliography *The Long Nineteenth Century* David Blackbourn, 2011-07-01 **Fontana History of Germany, 1780-1918** David Blackbourn, 1997 In 1815 90 per cent of the German population were involved in agriculture and craft production were stubbornly loyal to their village home town or city and lived in what was then a massively decentralized state By 1871 Bismarck and the Prussian army had united the country transforming Germany from a land of poets and thinkers to one which arguably outdid Britain in its enthusiasm for the new media of the railway and the telegraph Yet by 1914 German politics had become febrile and unstable Mixing social political and economic history David Blackbourn analyzes the degree of German responsibility for the outbreak of World War I and traces the further dramatic changes in peoples incomes and status as the social economic and cultural tensions that had been submerged in the previous decades suddenly came to a head **The German Roots of**

**Nineteenth-Century American Theology** Annette G. Aubert, 2013-10-03 This book explores the influences of German theology on Emanuel Gerhart and Charles Hodge two Reformed theologians who addressed questions concerning method and atonement theology in light of modernism and new scientific theories      *A History of Modern Germany* Martin Kitchen, 2011-05-02 Featuring revised and extended coverage the second edition of *A History of Modern Germany* offers an accessible and engagingly written account of German history from 1800 to the present Provides readers with a long view of modern German history revealing its continuities and changes Features updated and extended coverage of German social change and modernization class religion and gender Includes more in depth coverage of the German Democratic Republic Examines Germany's social political and economic history Covers the unification of Germany the German Empire the Weimar Republic the Third Reich post war division the collapse of Communism and developments since reunification Addresses regional history rather than focusing on the dominant role of Prussia      ***A History of Migration from Germany to Canada, 1850-1939*** Jonathan Wagner, 2006 Human migration figures prominently in modern world history and has played a pivotal role in shaping the Canadian national state Yet while much has been written about Canada's multicultural heritage little attention has been paid to German migrants although they compose Canada's third largest European ethnic minority *A History of Migration from Germany to Canada 1850 1939* addresses that gap in the record Jonathan Wagner considers why Germans left their home country why they chose to settle in Canada who assisted their passage and how they crossed the ocean to their new home as well as how the Canadian government perceived and solicited them as immigrants He examines the German context as closely as developments in Canada offering a new more complete approach to German Canadian immigration This book will appeal to students of German Canadiana as well as to those interested in Canadian ethnic history and European and modern international migration      *A Concise History of Germany* Mary Fulbrook, 2004-02-19 This book provides a clear and informative guide to the twists and turns of German history from the early middle ages to the present day The multi faceted problematic history of the German lands has provided a wide range of debates and differences of interpretation Mary Fulbrook provides a crisp synthesis of a vast array of historical material and explores the interrelationships between social political and cultural factors in the light of scholarly controversies First published in 1990 *A Concise History of Germany* now appears in an updated second edition      *Franz Liszt* Erika Quinn, 2014-08-07 This biography of the musician Franz Liszt contributes to our understanding of national identity formation and its interaction with cosmopolitanism Liszt exemplified the nineteenth century quest for subjective definition and fulfillment Seeking to gain agency authority and community Liszt experimented with various subject positions from which to forward his goals The stances he selected anchored in ideas about nation religion and art allowed him to retain his cosmopolitan sensibility while making specific aesthetic and creative claims Quinn's analysis of Liszt's correspondence and musical criticism as well as of contemporary reviews of his performances compositions and essays demonstrates the lack of a nationalist exclusivity in Liszt

s life was a historical phenomenon rather than a personal quirk as previous scholarship has often claimed **The Statesman's Yearbook 2001** B. Turner, 2016-12-29 For the last 137 years The Statesman's Yearbook has been relied upon to provide accurate and comprehensive information on the current political economic and social status of every country in the world The appointment of the new editor only the seventh in 137 years brought enhancements to the 1998 99 edition and these have been continued since then Internet usage figures are included Specially commissioned essays from major political and academic figures supplement country entries in areas of major upheaval and change A fold out colour section provides a political world map and flags for the 191 countries of the world The task of monitoring the pattern or flow of world change is never ending However the annual publication of The Statesman's Yearbook gives all the information needed in one easily digestible single volume It will save hours of research and cross referencing between different sources A prestigious and popular book The Statesman's Yearbook is updated every 12 months In a world of continual change The Statesman's Yearbook is a necessary annual purchase **An Economic History of Nineteenth-Century Europe** Ivan Berend, 2013 A transnational survey of the economic development of Europe exploring why some regions advanced and some stayed behind The War Against Catholicism Michael B. Gross, 2004 This is an innovative and important study of the relationship between Catholicism and liberalism the two most significant and irreconcilable movements in nineteenth century Germany *Enduring Controversies in Military History* Spencer C. Tucker, 2017-09-21 This provocative examination of major controversies in military history enables readers to learn how scholars approach controversial topics and provides a model for students in the study and discussion of other historical events Why did Alexander the Great's empire fall apart so soon after his death How did France win the Hundred Years War despite England winning its major battles Was slavery the primary cause of the American Civil War Would it have benefited the Allies militarily to have gone to war against Germany in 1938 rather than in 1939 Should women be allowed to serve in combat positions in the U S military All of these questions and many other historical controversies are addressed in this thought provoking reference book By exploring every angle of some of the most contentious debates involving military history this book builds students critical thinking skills by supplying a complete background of the controversial topic to provide context and also by providing multiple perspective essays written by top scholars in the field The perspective essays present arguments for different positions on the controversy Readers will consider the cases for and against whether Hannibal should have marched on Rome after his momentous victory at Cannae whether the United States was justified in using the atomic bomb in Japan whether Adolf Hitler was primarily responsible for the Holocaust and whether torturing prisoners during the War on Terror is warranted among many other historical military debates **Histories of Nationalism in Ireland and Germany** Shane Nagle, 2016-12-15 Focusing on the era in which the modern idea of nationalism emerged as a way of establishing the preferred political cultural and social order for society this book demonstrates that across different European societies the most important constituent of nationalism has been a specific

understanding of the nation's historical past Analysing Ireland and Germany two largely unconnected societies in which the past was peculiarly contemporary in politics and where the meaning of the nation was highly contested this volume examines how narratives of origins religion territory and race produced by historians who were central figures in the cultural and intellectual histories of both countries interacted it also explores the similarities and differences between the interactions in these societies Histories of Nationalism in Ireland and Germany investigates whether we can speak of a particular common form of nationalism in Europe The book draws attention to cultural and intellectual links between the Irish and the Germans during this period and what this meant for how people in either society understood their national identity in a pivotal time for the development of the historical discipline in Europe Contributing to a growing body of research on the transnationality of nationalism this new study of a hitherto unexplored area will be of interest to historians of modern Germany and Ireland comparative and transnational historians and students and scholars of nationalism as well as those interested in the relationship between biography and writing history

**The Statesman's Yearbook 2003** Barry Turner,2016-12-30 For nearly one hundred and forty years The Statesman's Yearbook has been relied upon to provide accurate and comprehensive information on the current political economic and social status of every country in the world The appointment of the new editor only the seventh in the book's history brought enhancements to the 1998-99 edition and these have been continued since then The 2003 edition is fully updated and contains more information than ever before including for the first time websites for national governments and international organizations A foldout colour section provides a political world map and flags for the one hundred and ninety two countries of the world In an endlessly changing world the annual publication of The Statesman's Yearbook gives all the information you need in one easily digestible single volume It will save hours of research and cross referencing between different sources and it is an essential annual purchase

**Beyond the Barricades** Anna Ross,2018-12-20 Beyond the Barricades is an original study of government after the 1848 revolutions It focuses on the state of Prussia where a number of conservative ministers sought to learn lessons from their experiences of upheaval and introduce a wave of reform in the 1850s Using extensive archival research the work explores Prussia's entry into the constitutional age charting initiatives to transform criminal justice agriculture industry communications urban life and the press Reform strengthened contact with the Prussian population making this a classic episode of state building but Beyond the Barricades seeks to go further It makes a case for taking notice of government activity at this particular juncture because the measures endorsed by conservative statesmen in the 1850s sought to remove the feudal intermediaries that had lingered long into the nineteenth century and replace them with an array of government institutions legal regimes and official practices In sum this book recasts the post revolutionary decade as a period which saw the transition from an old to a new world pivotal to the making of modern Prussia and ultimately modern Germany

*National Monuments and Nationalism in 19th Century Germany* Hans A. Pohlsander,2008 No century in modern European history has built monuments with more

enthusiasm than the 19th Of the hundreds of monuments erected those which sprang from a nation wide initiative and addressed themselves to a nation rather than part of a nation we may call national monuments Nelson s Column in London or the Arc de Triomphe in Paris are obvious examples In Germany the 19th century witnessed a veritable flood of monuments many of which rank as national monuments These reflected and contributed to a developing sense of national identity and the search for national unity they also document an unsuccessful effort to create a genuinely German style They constitute a historical record quite apart from aesthetic appeal or ideological message As this historical record is examined German national monuments of the 19th century are described and interpreted against the background of the nationalism which gave birth to them

**How Could This Happen** Dan McMillan,2014-04-08 A German historian attempts to explain how the Holocaust happened discussing how widespread acceptance of anti Semitism and scientific racism in the politically divided post World War I era lessened the value of human life 17 500 first printing

*The Kingdom of Württemberg and the Making of Germany, 1815-1871* Bodie A. Ashton,2017-01-12 CHOICE Outstanding Academic Title 2017 This book examines the 1871 unification of Germany through the prism of one of its forgotten states the Kingdom of W rttemberg It moves beyond the traditional argument for the importance of the great powers of Austria and Prussia in controlling German destiny at this time Bodie A Ashton champions the significance of W rttemberg and as a result all 38 German states in the unification process noting that each had their own institutions and traditions that proved vital to the eventual shape of German unity The Kingdom of W rttemberg and the Making of Germany 1815 1871 demonstrates that the state s government was dynamic and in full control of its own policy making throughout most of the 19th century with Ashton showing a keen appreciation for the state s domestic development during the period The book traces W rttemberg s strong involvement in the national question and how successive governments and monarchs in the state s capital of Stuttgart manoeuvred the country so as to gain the greatest advantage It successfully argues that the shape of German unification was not inevitable and was in fact driven largely by the desires of the Mittelstaaten rather than the great powers the eventual Reichsgr ndung of January 1871 was merely the final step in a long series of negotiations diplomatic manoeuvres and subterfuge with W rttemberg playing a vital regional role Making use of a wealth of primary sources including telegrams newspaper articles diary entries letters and government documents this is a vitally important study for all scholars and students of 19th century Germany

**Fighting for the Soul of Germany** Rebecca Ayako Bennette,2012-06-15 Historians have long believed that Catholics were late and ambivalent supporters of the German nation Rebecca Ayako Bennette s bold new interpretation demonstrates definitively that from the beginning in 1871 when Wilhelm I was proclaimed Kaiser of a unified Germany Catholics were actively promoting a German national identity for the new Reich
