Virgil's Cinematic Art Kirk Freudenburg, 2022-12-27 Through a series of close readings centered primarily on Virgil's Aeneid Kirk Freudenburg shows that the experiential effects that Virgil puts into play do serious narrative work of their own by structuring lines of sight both visual and emotive and shifting them about in ways that move readers interpellated as viewers into and out of the visual and emotional worlds of the story's characters

**Shooting the Messenger** Paul L. Moorcraft, Philip M. Taylor, 2008 As the literature on military media relations grows it is informed by antagonism either from journalists who report on wars or from ex soldiers in their memoirs Academics who attempt more judicious accounts rarely have any professional military or media experience A working knowledge of the operational constraints of both professions underscores Shooting the Messenger A veteran war correspondent and think tank director Paul L Moorcraft has served in the British Ministry of Defence while historian by training Philip M Taylor is a professor of international communications who has lectured widely to the U S military and at NATO institutions Some of the topics they examine in this wide ranging history of military media relations are the interface between soldiers and civilian reporters covering conflicts the sometimes grey

area between reporters right or need to know and the operational security constraints imposed by the military the military's manipulation of journalists who accept it as a trade off for safer battlefield access the resultant gap between images of war and their reality the evolving nature of media technology and the difficulties and opportunities this poses to the military journalistic performance in reporting conflict as an observer or a participant Moorcraft and Taylor provide a bridge over which each side can pass and a path to mutual understanding

**Shooting the Messenger** Paul Moorcraft, 2011-10-31 Wars have dominated politics since history began In the modern era most of what the media reports on foreign conflicts comes from a small band of war correspondents As the furore over the Iraq Afghan and now the Libyan wars demonstrates Western governments and militaries often collude to keep their voters in the dark about the causes and the conduct of wars waged in their name In this entertaining and unspun account of modern war reporting the authors ask whether the media itself drives democracies to war Or does it serve to constrain evil ignorant and messianic leaders Are the heirs of William Howard Russell the first modern war reporter watchdogs or lapdogs In the age of Wikileaks and corrupt media empires what is the political impact of war correspondents Are they the heroes or harlots of their profession

**A Grammar of Cinemopoiesis** Silvia Carlorosi, 2015-09-17 Cinemopoiesis or cinema of poetry strikes us as a strange combination a phrase we initially read as an oxymoron Poetry is often associated with the abstract and the evocative while cinema suggests the concrete and the visible Yet various visual media

use strong and often contradictory images whose symbolic force and visual impact stimulate the public's attention. Abstract and emblematic images surround us and the poetic nature of these images lies in the way they speak beyond their apparent limits and stimulate connections on a subjective level. A prosaic world like the contemporary one though no longer seems to hold a place for poetry. We are inundated by the need to tell and to be told the need to build our lives through narratives. But it is precisely here in this contemporary landscape that the cinema of poetry attempts to establish a space for itself exchanging the productive and industrial apparatus for the poetic stimulus of a sensory experience. *A Grammar of Cinepoiesis* is a theoretical and practical guide to the cinema of poetry to its tools and forms. It examines how the language of a cinema of poetry works both in its theoretical foundations and in its modes of representation and how it takes shape in the exemplary practice of Italian authors such as Pier Paolo Pasolini, Michelangelo Antonioni, Federico Fellini and the more recent Franco Piavoli and Matteo Garrone. *New Vocabularies in Film Semiotics* Robert Stam, 2005-07-08 First published in 1992

Routledge is an imprint of Taylor Francis, an informal company. **Poetry as Spiritual Practice** Robert McDowell, 2008-07-15 When we read and write poetry it is as if a long settled cloud in our mind suddenly dissipates and we are divine once again from the Introduction. Poetry is the language of devotion in prayer, chant and song. Reading and writing poetry creates clarity, deepens and expands spiritual inquiry and cultivates wisdom, compassion, self-confidence, patience and love. In author Robert McDowell's words poetry makes you into a tuning fork of the Divine. But poetry has disappeared over the centuries from religious ceremonies, academic curricula and public discourse. In *Poetry as Spiritual Practice* the first inspirational and instructional guide to combine poetry and spirituality, McDowell restores poetry as the natural language of spiritual practice and invites you to recognize poetry as the pure sound and shape of your spirit. Vividly illustrated with a wide range of poems from all historical eras and poetic traditions, numerous religions and faiths and McDowell's own and his students' work, *Poetry as Spiritual Practice* will reintroduce you to the unique pleasure of verse. And meditations throughout will allow you to integrate reading and writing poetry into your spiritual journeys and daily life. Since many of us have long forgotten or never learned the mechanics and terminology of poetry, trochaic feet and tropes trip us up, we can't tell a villanelle from its shorter cousin, rondeau, and a terza rima may as well be a tanka. This is also an instructional handbook on reading and writing poetry. An engaging guide through the landscape of world poetry, McDowell argues along the way for the many practical benefits of poetic literacy. Making poetry an essential part of daily rituals, aspirations and intentions will put you on the path to greater meaning, growth and peace in your life. At once an engaging technical primer, a profound meditation on the relationship between poetry and the Divine and an inspirational guide for integrating poetry into spiritual practice, *Poetry as Spiritual Practice* will become a cherished companion. **Poets & Writers**, 1998 **Shooting and Fishing**, 1901 **A Blue Hand** Deb Baker, 2008-04-10 In this engrossing new piece of Beat history, Pulitzer Prize finalist Deborah Baker takes us back to the moment when America's edgiest writers looked to India for answers as India looked to

the West It was 1961 when Allen Ginsberg left New York by boat for Bombay where he hoped to meet poets Gary Snyder and Joanne Kyger Baker follows Ginsberg and his companions as they travel from ashram to opium den Exposing an overlooked chapter of the literary past A Blue Hand will delight all those who continue to cherish the frenzied creativity of the Beats

**Long Shot Odyssey** Walter Bruno, 2014-11-26 A lyrical meander through an extinguished love affair Candid while oblique this suite of cantos leads to startling visions and conclusions Anchored by its cinematic metaphor this is the record of an onlooker who is himself nothing but memory

**Inflamed Invisible** David Toop, 2019-12-17 A rich collection of essays tracing the relationship between art and sound In the 1970s David Toop became preoccupied with the possibility that music was no longer bounded by formalities of audience the clapping the booing the short attention span the demand for instant gratification Considering sound and listening as foundational practices in themselves leads music into a thrilling new territory stretched time wilderness video monitors singing sculptures weather meditations vibration and the interior resonance of objects interspecies communications instructional texts silent actions and performance art Toop sought to document the originality and unfamiliarity of this work from his perspective as a practitioner and writer The challenge was to do so without being drawn back into the domain of music while still acknowledging the vitality and hybridity of twentieth century musics as they moved toward art galleries museums and site specificity Toop focused on practitioners whose stories are as compelling as the theoretical and abstract implications of their works Inflamed Invisible collects more than four decades of David Toop's essays reviews interviews and experimental texts drawing us into the company of artists and their concerns not forgetting the quieter unsung voices The volume is an offering an exploration of strata of sound that are the crossing points of sensory intellectual and philosophical preoccupations layers through which objects thoughts and air itself come alive as the inflamed invisible
