Martin Vitangcol,2022-11-04 There are many stories in the bible that are exceedingly unbelievable you would think they were just made up by their authors For example we have known from the Law of Nature that man cannot walk on water but Jesus walked on water We have known too from nature that an inanimate object like a long wooden stick cannot turn into something animate like snake but Moses was able to turn his staff into a snake The list of mind boggling stories in the bible is long of which we have no way of disproving any of them to be untrue since we were not there when they happened Behold herein the FIVE GREATEST STORIES IN THE BIBLE that are being believed by the whole world to be true up to now which I can prove to be totally untrue Happy reading

The Press and the Suburbs David B. Sachsman,2017-07-05 The changing economic and demographic patterns of the United States have many measurements few of them however are more comprehensive than the new circulation realities of the press This volume tells the story of the twenty six daily newspapers of New Jersey from the 1960s to the 1980s and in so doing tells the story of the rise of suburbia and the golden age of suburban journalism In an intense effort to keep pace with the changing location of their readers and most particularly with the upscale consumers the shift to the suburbs was marked by changes in news coverage advertising and promotion Though people have predicted the decline of newspaper business for more than fifty years they were proven wrong by the rise of the suburban press and by the survival of most newspapers urban and suburban alike through the 1980s and 1990s But in the twenty first century the news and information industry has changed and the national and international economy has faltered In his new preface David Sachsman takes the reader on a tour of what happened to each of the New Jersey daily newspapers since the publication of the original The twenty six newspapers studied have dwindled to sixteen and huge losses in circulation have caused drastic cutbacks and mergers The decline in New Jersey newspaper readership is part of a national trend This is an essential book for all American historians journalists and communication specialists
