Retrospective Prophecy and Medieval English

Authorship Kimberly Fonzo, 2022-01-27 The prescience of medieval English authors has long been a source of fascination to readers. Retrospective Prophecy and Medieval English Authorship draws attention to the ways that misinterpreted prophetically added or dubiously attributed prognostications influenced the reputations of famed Middle English authors. It illuminates the creative ways in which William Langland, John Gower, and Geoffrey Chaucer engaged with prophecy to cultivate their own identities and to speak to the problems of their age. Retrospective Prophecy and Medieval English Authorship examines the prophetic reputations of these well-known medieval authors whose fame made them especially subject to nationalist appropriation. Kimberly Fonzo explains that retrospectively co-opting the prophetic voices of canonical authors aids those looking to excuse or endorse key events of national history by implying that they were destined to happen. She challenges the reputations of Langland, Gower, and Chaucer as prophets of the Protestant Reformation, Richard II's deposition, and secular Humanism, respectively. This intellectual and critical assessment of medieval authors and their works successfully makes the case that prophecy emerged and recurred as an important theme in medieval authorial self-representations.

The Longman Anthology of British Literature David Damrosch, A major work of scholarship, *The Longman Anthology of British Literature* brings together an extraordinary collection of writings spanning some 1300 years of literary history. Now available in a Compact Edition, this classic is more accessible than ever.

Against All England Robert W. Barrett, 2009 This book examines poems, plays, and chronicles produced in Cheshire from the 1190s to the 1650s that collectively argue for the localization of British literary history.
