furnishing styles In this collection of essays ten experts in turn of the century popular and material culture examine how the struggle between modernity and tradition was reflected in various facets of the household aesthetic Their findings touch on sub themes of gender generation and class to provide a fascinating commentary on what middle class Americans were prepared to discard in the name of modernity and what they stubbornly retained for the sake of ideology Through an examination of material culture and prescriptive literature from this period the essayists also demonstrate how changes in artistic expression affected the psychological social and cultural lives of everyday Americans This book joins a growing list of titles dedicated to analyzing and interpreting the cultural dimensions of past domestic life Its essays shed new light on house history by tracking the transformation of a significant element of home life its expressions of art *The Victor Data Book* Robert W.
