There was a dilemma with writing this book In order to understand the tip of the iceberg it's necessary to understand the iceberg Unfortunately if you don't believe the tip of the iceberg you're certainly not going to believe the iceberg Jesus said If I tell you earthly things and you don't believe me how can I tell you heavenly things It took me about ten years but I finally made the iceberg believable and understandable to most people The book involves government conspiracy which is the very tip of the iceberg The book explains the iceberg first and works its way up to conspiracy To understand the iceberg it was necessary to push the envelope of the conventional realm of perceived reality and go into metaphysics galactic allies and galactic enemies The book explains how humanity is going to go through a transitional period and into a new paradigm of experience Although this book often quotes from God what we call God and Jesus it's unquestionably not a religious book
