Looking At Canada:

Let's Look at Canada Gr. 4-6 , **Canada Tourism eBook** GURMEET SINGH DANG, Canada Looks South Peter McKenna, 2012-12-06 Recent events in the western hemisphere have led to a dramatic shift in the strategic and political importance of Latin America But with relations still cool between the United States and Cuba and Venezuela becoming more distant every day there is considerable potential for Canada with its longstanding commitment to constructive engagement to forge mutually beneficial relations with these nations as well as rising industrial and economic players such as Mexico and Brazil In *Canada Looks South* experts on foreign policy in Canada and Central America provide a timely exploration of Canada's growing role in the Americas and the most pressing issues of the region Starting with the historical scope of the bilateral relationship the volume goes on to cover such subjects as trade engagement democratization and security As current and future Canadian governments embrace expanding linkages with this region this collection fills a significant gap in scholarship on Canadian Latin American relations *Canada* Donald J. Savoie, 2023-05-15 Canada's political structure runs contrary to North America's economic geography and the north-south economic pull Canada imported political and administrative institutions designed for a unitary state and its political leaders have struggled to make them work since the country was founded Because of this many Canadians their communities and their regions view themselves as victims to a greater degree than groups in other Western democracies do Our federal government has shown a greater willingness to apologize for historical wrongs than other Western countries Canada also outperforms other nations in helping victims make the transition to full participants in the country's political and economic life Donald Savoie maintains that Canada continues to thrive despite the many shortcomings in its national political institutions and the tendency of Canadians to see themselves as victims and that our history and these shortcomings have taught us the art of compromise Canada's constitution and its political institutions amplify rather than attenuate victimization however they have also enabled Canadians to manage the issue better than other countries Canadians also recognize that the alternative to Canada is worse and this more than anything else continues to strengthen national unity Drawing on his extensive experience in academe and as an advisor to governments Savoie provides new insights into how Canada works for Canadians *Substate Regionalism and the Federal System: A look to the North, Canadian regional experience* United States. Advisory Commission on Intergovernmental Relations, 1974 **From the Outside Looking In** Matthew J. Grow, 2015-10-01 This book contains fifteen essays each first presented as the annual Tanner Lecture at the conference of the Mormon History Association by a leading scholar Renowned in their own specialties but relatively new to the study of Mormon history at the time of their lectures these scholars approach Mormon history from a wide variety of perspectives including such concerns as gender identity creation and globalization Several of these essays place Mormon history within the currents of American religious history for example by placing Joseph Smith and other Latter-day Saints in conversation with Ralph Waldo Emerson Nat Turner fellow millenarians

and freethinkers Other essays explore the creation of Mormon identities demonstrating how Mormons created a unique sense of themselves as a distinct people Historians of the American West examine Mormon connections with American imperialism the Civil War and the wider cultural landscape Finally the essayists look at continuing Latter day Saint growth around the world within the context of the study of global religions Examining Mormon history from an outsider s perspective the essays presented in this volume ask intriguing questions share fresh insights and perspectives analyze familiar sources in unexpected ways and situate research on the Mormon past within broader scholarly debates

Canada and Africa in the New Millennium David R. Black,2015-03-31 Canada's engagement with post independence Africa presents a puzzle Although Canada is recognized for its activism where Africa is concerned critics have long noted the contradictions that underlie Canadian involvement Focusing on the period following 2000 and by juxtaposing Jean Chr tien's G8 activism with the Harper government's retreat from continental engagement David R Black's *Canada and Africa in the New Millennium* illustrates a history of consistent inconsistency in Canada's relationship with Africa Black combines three interpretive frames to account for this record the tradition of good international citizenship Canada's role as a benign face of Western hegemonic interests in Africa and Africa's role as the basis for a longstanding narrative concerning Canada's ethical mission in the world To examine Africa's place in Canada's foreign policy and Canada's place in Africa Black focuses on G8 diplomacy foreign aid security assistance through peace operations and training and the increasingly controversial impact of Canadian extractive companies Offering an integrated account of Canada's role in sub Saharan Africa Black provides a way of understanding the nature and resilience of recent shifts in Canadian policy He underscores how Africa though marginal to Canadian interests as traditionally conceived has served as an important marker of Canada's international role **The**
