Working with Conservation Data Athanasios Velios, 2024-12-30. *Working with Conservation Data* provides a practical step by step guide that describes how to approach the issue of documentation in a professional conservation environment. The book explores important concepts involved in the documentation of conservation as well as research and practical questions and an analysis of implicit information embedded within conservation data and how it can be used to answer conservation questions. It also outlines best practices for producing conservation data and recommendations for structuring and sharing conservation data so that documentation records can be easily retrieved and combined with other data. *Working with Conservation Data* is an invaluable reference work suitable for conservators working on documentation projects as well as professionals working in the computing and information departments of museums, galleries, libraries and archives.

Paul Getty had a passion for the exquisitely made furniture and decorative objects of eighteenth century France which he began collecting in the 1930s. Gillian Wilson, curator of decorative arts since 1971, has broadened and strengthened the collection adding Boulle furniture, mounted oriental porcelain tapestries, clocks, ceramics and more. In the 1980s and 1990s the Museum continued to enlarge its decorative arts holdings creating a European sculpture department in 1984 and adding glass, maiolica, goldsmiths' work, pietre dure and furniture from Italy and Northern Europe. This book is a revised and expanded edition of *Decorative Arts: An Illustrated Summary Catalogue of the Collection of the J. Paul Getty Museum* 1993.
