Looking Back And Forth Reflections Of An Old Fashioned Doctor:

Looking Back (and Forth) Herbert L. Fred, 2003 **Automate This** Christopher Steiner, 2012-08-30 The rousing story of the last gasp of human agency and how today's best and brightest minds are endeavoring to put an end to it. It used to be that to diagnose an illness, interpret legal documents, analyze foreign policy or write a newspaper article, you needed a human being with specific skills and maybe an advanced degree or two. These days, high-level tasks are increasingly being handled by algorithms that can do precise work not only with speed but also with nuance. These bots started with human programming and logic but now their reach extends beyond what their creators ever expected. In this fascinating, frightening book, Christopher Steiner tells the story of how algorithms took over and shows why the bot revolution is about to spill into every aspect of our lives, often silently without our knowledge. The May 2010 Flash Crash exposed Wall Street's reliance on trading bots to the tune of a 998-point market drop and 1 trillion in vanished market value. But that was just the beginning. In *Automate This*, we meet bots that are driving cars, penning haiku and writing music mistaken for Bach's. They listen in on our customer service calls and figure out what Iran would do in the event of a nuclear standoff. There are algorithms that can pick out the most cohesive crew of astronauts for a space mission or identify the next Jeremy Lin. Some can even ingest statistics from baseball games and spit out pitch-perfect sports journalism indistinguishable from that produced by humans. The interaction of man and machine can make our lives easier. But what will the world look like when algorithms control our hospitals, our roads, our culture and our national security? What happens to businesses when we automate judgment and eliminate human instinct? And what role will be left for doctors, lawyers, writers, truck drivers and many others? Who knows, maybe there's a bot learning to do your job this minute. *American Book Publishing Record*, 2003 [Forthcoming Books](#)

Reflections in the Nile J. Suzanne Frank, 2024-09-24 Good storytelling, ancient Egypt comes alive. Diana Gabaldon, 1 New York Times bestselling author. Imagine that you, a contemporary tourist, are standing awestruck in an ancient Egyptian temple. Suddenly, a vortex in time and space sends you back thousands of years to a desert kingdom of glittering splendor. Your body has merged with that of a scheming, beautiful princess, yet your sensibilities, your intelligence, your terror remains that of a modern woman who is trying to get back home, trying in this place of strangeness and wonder to stay alive. Rich in sensuality and authenticity, imbued with a mesmerizing you-are-there quality, J. Suzanne Frank's wonderful series makes its highly acclaimed debut. Set in the decadent Egypt of the woman pharaoh Hatshepsut, this stunning novel portrays Dallas artist Chloe Kingsley on an unforgettable journey. A twist in time has plunged her into a world of deadly politics and dark secrets that culminates with the chaos and terror of the biblical Exodus and challenges a modern woman to fight for her love, her beliefs and her true destiny. An adventure you won't want to put down. Detroit Free Press. A dazzling, spectacular, gloriously sumptuous saga of timeless passion with a delicious surprise twist.
