*Mining Morality* William P. George, 2019-10-11 Employing self sharpening tools found in the work of theologian and philosopher Bernard Lonergan, Pope Francis encyclical *Laudato si* and international law, William P. George brings mining to personal and collective moral awareness by prospecting for ethics at selected sites: 1 Butte, Montana, the Richest Hill on Earth once bound to Chuquibambilla, Peru by a company that spanned two continents and nearly owned a state; 2 the tiny island nation of Nauru called Pleasant Island until it was devastated by phosphate mining and the breaking of a sacred trust by foreign powers; 3 the deep seabed governed by the United Nations Law of the Sea, a constitution for the oceans that regards much of the resource rich seabed as humankind's common heritage; 4 Africa with its uranium mines but also its conflicts over what being nuclear means in the wake of colonialism, apartheid and Hiroshima; and 5 mineral rich asteroids speeding through space where mining rights are contested even as space entrepreneurs look to become the world's first trillionaires. George introduces readers to remarkable moral miners: the women of Butte and Chuquibambilla, a World Court judge from Sri Lanka and the Rocket Boys of Coalwood, West Virginia, to name a few, and leads them to consider not only the morality of mining, what's good and not so good about resource extraction, but also the mining of morality, a venture that Socrates called the examined life.
