Kapczynski,Caroline Kita,2022-02-07 Scholars of democracy long looked to the Federal Republic of Germany as a notable success story a model for how to transition from a violent authoritarian regime to a peaceable nation of rights Although this account has been contested since its inception the narrative has proved resilient and it is no surprise that the current moment of crisis that Western democracies are experiencing has provoked new interest in how democracies come to be The Arts of Democratization Styling Political Sensibilities in Postwar West Germany casts a fresh look at the early years of this fledgling democracy and draws attention to the broad range of ways democracy and the democratic subject were conceived and rendered at this time These essays highlight the contradictory and competing impulses that ran through the project to democratize postwar society and cast a critical eye toward the internal biases that shaped the model of Western democracy In so doing the contributions probe critical questions that we continue to grapple with today How did postwar thinkers understand what it meant to be democratic Did they conceive of democratic subjectivity in terms of acts of participation a set

of beliefs or principles or perhaps in terms of particular feelings or emotions How did the work to define democracy and its subjects deploy notions of nation race and gender or sexuality As this book demonstrates the case of West Germany offers compelling ways to think more broadly about the emergence of democracy The Arts of Democratization offers lessons that resonate with the current moment as we consider what interventions may be necessary to resuscitate democracy today

Yarrow tells the story of *Look* magazine one of the greatest mass circulation publications in American history and the very different United States in which it existed. The all-but-forgotten magazine had an extraordinary influence on mid-twentieth-century America not only by telling powerful thoughtful stories and printing outstanding photographs but also by helping to create a national conversation around a common set of ideas and ideals. Yarrow describes how the magazine covered the United States and the world telling stories of people and trends, injustices and triumphs and included essays by prominent Americans such as Martin Luther King Jr and Margaret Mead. It did not shy away from exposing the country's problems but it always believed that those problems could be solved. *Look* which was published from 1937 to 1971 and had about 35 million readers at its peak was an astute observer with a distinctive take on one of the greatest eras in U.S. history from winning World War II and building immense increasingly inclusive prosperity to celebrating grand achievements and advancing the rights of Black and female citizens. Because the magazine shaped Americans' beliefs while guiding the country through a period of profound social and cultural change this is also a story about how a long-gone form of journalism helped make America better and assured readers it could be better still.      **Writing the Radical Memoir** Paul Williams, Shelley Davidow,2023-05-18 For those that have mastered the basics of memoir and wish to probe this brand of creative nonfiction further *Writing the Radical Memoir* uses salient theories about memory and the self to challenge assumptions about how we remember and tell the truth of our lives when we write about it. Innovative in approach and making new critical ideas accessible each chapter maps out the key principles of such writers as Barthes, Lacan, Derrida, Lewis, Mehl, Madrona, Philippe Le Jeune and Joseph Campbell invokes literary examples to show how other writers have mastered the idea before reflecting on how you can practically apply the theory to your writing. With original exercises and prompts for further reading that bridge the gap between the theoretical and how it might be put into practice the book is attentive to the multiple facets of the genre of nonfiction writing generally covering such topics as The writer-reader contract How to embark on a thematic symbolic exploration of themes and incidents in your life How neuroscientific theory can inform our understanding of memory and recall and what happens to our memories when we remember them Character development and the ethics of writing about real people How constructing your identity in memoir offers a chance to push

back against traditional structures That memoir might not be preservation of your past but a process of self erasure How J M Coetzee s Autobiography trilogy challenges traditional biography By bringing together lived experience post structuralist and postmodernist theories praxis and artistic vision as a unique approach to writing memoir this book encourages you to think the self how it is portrayed created erased and made strange through the process of writing and remembering
