Looking At Russia:

Russia's French Connection Adam Coker, 2020-05-28 While it is generally acknowledged that Russia's culture has been influenced by France the present study goes beyond the Francophile preferences of the noble elite and examines Russian society more broadly exploring those elements of French cultural influence that are still relevant today This is done through an historical analysis of French loanwords in the Russian language from the time of Peter the Great to the present The result of this lexical analysis and subsequent study of eighteenth and nineteenth century archival periodical and memoir material is to empirically link Russia's present culture to two major Franco-Russian events the wave of immigration to Russia following the French Revolution and Russia's war with Napoleon This is primarily a book for those interested in European history particularly imperial Russia the French Revolution and the Napoleonic Wars The study of Russian officer memoirs includes original campaign maps which may be of interest to military historians The analysis of periodical literature will likewise be a resource for those studying the history of printing publishing and journalism in Russia The book's interdisciplinary nature however broadens its relevance to linguists cultural historians and those in the emerging field of Immigration Studies

Understanding Russia Marlene Laruelle, Jean Radvanyi, 2018-08-16 This timely book provides a comprehensive overview of the geographical historical political cultural and geostrategic factors that drive Russia today Explaining Russia's perspective it offers a much needed analysis that will help readers understand how the country deals with its domestic issues and how these influence Russian foreign policy **The New York Times Index**, 1914 **Is Russia Fascist?** Marlene Laruelle, 2021-03-15 In *Is Russia Fascist* Marlene Laruelle argues that the charge of fascism has become a strategic narrative of the current world order Vladimir Putin's regime has increasingly been accused of embracing fascism supposedly evidenced by Russia's annexation of Crimea its historical revisionism attacks on liberal democratic values and its support for far right movements in Europe But at the same time Russia has branded itself as the world's preeminent antifascist power because of its sacrifices during the Second World War while it has also emphasized how opponents to the Soviet Union in Central and Eastern Europe collaborated with Nazi Germany Laruelle closely analyzes accusations of fascism toward Russia soberly assessing both their origins and their accuracy By labeling ideological opponents as fascist regardless of their actual values or actions geopolitical rivals are able to frame their own vision of the world and claim the moral high ground Through a detailed examination of the Russian domestic scene and the Kremlin's foreign policy rationales Laruelle disentangles the foundation for meaning and validity of accusations of fascism in and around Russia *Is Russia Fascist* shows that the efforts to label opponents as fascist is ultimately an attempt to determine the role of Russia in Europe's future **The Future of**

Maness,B. Valeriano,2015-07-13 Russia's place in the world as a powerful regional actor can no longer be denied the question that remains concerns what this means in terms of foreign policy and domestic stability for the actors involved in the situation as Russia comes to grips with its newfound sources of might *Shakespeare's Dramas* William Shakespeare,1924 **Catalogue of Official A.E.F. Photographs Taken by the Signal Corps, U.S.A.** United States. War Plans Division. War Department,1919 *Russia's Gamble* Vladimir Gel'man,2025-06-09 In February 2022 Russia launched a full scale military assault on Ukraine aimed at re establishing Russian control over the Ukrainian state economy and society similar in many ways to the Soviet period This goal however was not achieved and most likely will not be achieved in the future Rather the Russian special military operation has resulted in extraordinary disasters and losses for Russia for Ukraine and for the entire world This book examines the origins of the Russian assault on Ukraine and offers an explanation of why it has not achieved its aims Why did Russian elites and leaders propose prepare for and implement the assault on Ukraine in such a poorly prepared and heavily destructive way In seeking to answer these questions Gel man focuses on Russia's domestic agenda and its dynamics after the collapse of the Soviet Union The personalist nature of the Russian authoritarian political regime its vulnerability to bad governance major misperceptions by the Russian elites and leadership and reliance of the Kremlin upon previous experience of Russian impunity were all key factors that led to Russia's fateful decision to attack Ukraine and have continued to shape Russia's mistake ridden conduct of the war since then Gel man also considers what lessons can be learned from Russia's military assault for understanding the global agenda and for the study of domestic and international politics in the twenty first century This book written by a leading expert on Russian politics will be of great value to students and scholars in politics and to anyone interested in Russia and in the causes and consequences of the war against Ukraine **The Outline of Knowledge: Shakespeare's dramas. Famous orations** James Albert Richards,1924 The European Union and Russia Great Britain. Parliament. House of Lords. European Union Committee,2008 The relationship between the European Union and Russia has been going through a difficult phase with disputes over energy supplies foreign policy issues and tension between Russia and individual Member States The change of presidency in Russia provides an opportunity to take stock and to consider whether this deterioration can and should be reversed Russian politicians emphasise the importance of the relationship This report discusses how the relationship might be developed in practice The report examines Russia as a European country its recent history and the current economic situation in Russia It then considers the institutional framework for Russia EU relations including the Partnership and Co operation Agreement The Committee believes closer co operation should be fostered in several areas of common interest economic freedom security and justice research and education and culture Energy is an important subject there are concerns about whether Russia can supply sufficient gas and

oil to meet its current and foreseeable domestic demand and international commitments The security of energy supply to the EU is vital The Russian view of international security issues is also very different from that of the West and developments in the near neighbourhood of Russia are a very sensitive geopolitical area Russian support for Serbia is contrasted with their co operation on Iran The two sides work together usefully on the Middle East terrorism non proliferation and other issues The EU should continue and strengthen its efforts to reach common ground with the Russians on such international issues but should also speak out if the Russian government falls short of the standards it has formally accepted in a number of international agreements

Russia's Denial of Ukraine Nataliya Shpylova-Saeed, 2024-05-16 In 2022 Russia heightened its initial 2014 assault and launched its imperialist full scale war against Ukraine The Kremlin continued to perpetrate its denial of Ukrainians as a nation distinct from the Russians Russia's Denial of Ukraine Letters and Contested Memory explores the gradual and long lasting integration of contested memory in the cultural memory of Ukraine It emphasizes how narratives which formed the contested memory in the nineteenth century appeared to come to the fore with the onset of the Russo Ukrainian War At the same time it offers the theoretical premise for exploring contested memory social forgetting and remembering The ambivalent nature of contested memory manifests in weakening national aspirations and strengthening resilience and resistance against violence Contested memory nuances the discussion of undermining a metropolitan center and dismantling oppression Letters reveal public discourses shaped by cultural and political developments centering on the Ukrainians endeavors to remember themselves as a nation distinct from the Russians Epistolary expressions by Mykola Hohol Taras Shevchenko Lesia Ukrainka Ivan Franko and Volodymyr Vynnychenko illustrate the circulation of contested memory sponsored and supported in many ways by Russia Writers comment on their Ukrainianness and situate themselves in Ukraine's entangled past in which empires clash and fall apart
