Gendered Inequalities in Asia Helle Rydstrom,2010 Global processes with flows in money commodities and people have made it increasingly varied and blurred what it means to be a female or male in Asia today Socio economic and cultural patterns in Asia intersect with one another and in doing so they translate into power relations that create both possibilities and constraints for women and men By focusing on unequal access to political and religious power occupation and health facilities as well as different options when it comes to family life and sexuality the recognition of women and men is explored in this volume as manifestations of ideas about femininity and masculinity *East*
