Louis Sullivan His Life And Work:

Louis Sullivan Robert C. Twombly,1986 Describes the life and accomplishments of the founding father of American architecture **Louis Sullivan; his life and work** R. Twombly,1986 **The Public Papers** Louis Sullivan,1988-04-14

This volume brings together for the first time all the papers Louis Sullivan intended for a public audience from his first interview in 1882 to his last essay in 1924 Organized chronologically these speeches interviews essays letters to editors and committee reports enable readers to trace Sullivan s development from a brash young assistant to Dankmar Adler to an architectural elder statesman Robert Twombly an authority on Sullivan s work and life has introduced each document with a headnote explaining its significance locating it in time and place and examining its immediate context He has also provided a general introduction that analyzes Sullivan s writing style and objectives his major philosophical themes and the sources of his ideas With the help of headnotes and introduction readers will get a thorough sense of Sullivan s concerns discover how his ideas evolved and changed and appreciate the circumstances under which new interests emerged This collection is a handy introduction to the full range of Sullivan s thinking the book with which readers interested in the architect s writings should begin As a companion volume to Robert Twombly s biography of Sullivan it gives a comprehensive picture of one of America s most important architects and cultural figures **LOUIS SULLIVAN AND HIS MENTOR, JOHN HERMAN**

EDELMANN, ARCHITECT Charles E. Gregersen Aia Ncarb,2013 Although the world famous architect Louis Sullivan praised John Edelmann at length as a friend philosopher gifted draftsman and above all as his benefactor in his The Autobiography of an Idea he avoided any mention of having worked for two years as an apprentice in Edelmann s architectural office and the influence that experience obviously had on his future work This book corrects that deficiency in Sullivan s narrative Through a comparison of their buildings and ornamental designs the differences in the approaches of these two men to architectural planning and the debt Sullivan owed to Edelmann s unique ornamental style in the development of his own world renowned ornament is demonstrated Edelmann is also revealed as the young architect who not only took Sullivan on as an apprentice but in time introduced him to his future partner Dankmar Adler only to be betrayed in the end by Sullivan for having done so **Louis H. Sullivan and a 19th-Century Poetics of Naturalized Architecture**

LaurenS. Weingarden,2017-07-05 For most of the twentieth century modernist viewers dismissed the architectural ornament of Louis H Sullivan 1856 1924 and the majority of his theoretical writings as emotional outbursts of an outmoded romanticism In this study Lauren Weingarden reveals Sullivan s eloquent articulation of nineteenth century romantic practices literary linguistic aesthetic spiritual and nationalistic and thus rescues Sullivan and his legacy from the narrow role imposed on him as a pioneer of twentieth century modernism Using three interpretive models discourse theory poststructural semiotic analysis and a pragmatic concept of sign functions she restores the integrity of Sullivan s artistic choices and his historical position as a culminating figure within nineteenth century romanticism By giving equal weight to Louis Sullivan s

writings and designs Weingarden shows how he translated both Ruskin's tenets of Gothic naturalism and Whitman's poetry of the American landscape into elemental structural forms and organic ornamentation Viewed as a site where various romantic discourses converged Sullivan's oeuvre demands a cross disciplinary exploration of each discursive practice and its rules of accumulation exclusion reactivation The overarching theme of this study is the interrogation and restitution of those Foucauldian rules that enabled Sullivan to articulate architecture as a pictorial mode of landscape art which he considered co equal with the spiritual and didactic functions of landscape poetry Louis Henry Sullivan Mario Manieri-Elia, Louis H.

Sullivan, 1996 Louis Henry Sullivan traces his life and oeuvre It addresses his most famous buildings including the Auditorium Building in Chicago the Wainwright Building in Saint Louis the Guaranty Building in Buffalo and the National Farmers Bank in Owatonna Minnesota and reveals many of his lesser known projects to be underappreciated masterpieces For the first time Sullivan's work which has often been misappropriated is explored in its historical and theoretical context

Louis Sullivan Robert C. Twombly, Narciso G Menocal, Narciso G. Menocal, 2000-11-14 Louis Sullivan believed that art should reveal the creative method of nature The greatest artist was the poet whose understanding of nature spurred social change This volume is both a tribute to Sullivan's poetic genius and a catalogue of all his graphic work The authors discuss the social implications of Sullivan's theories of architecture with visual proof of his vision in illustrations of his work on paper and in three dimensions A translation of *Etude sur l'inspiration* Sullivan's seminal and heretofore unpublished credo in verse is further testimony to his vision Included is an illustrated catalogue of all extant Sullivan drawings some never before published **Louis Sullivan** Sherman Paul, 1962 Recounts his life and work and treats his writings **Louis Sullivan**

Hugh Morrison, 2001-07-31 The first definitive biography of the now famous architect Hugh Morrison's Louis Sullivan Prophet of Modern Architecture is still the best introduction to his work This reissue provides Morrison's original text and illustrations in a larger more modern format It also offers an assessment of Morrison's ground breaking research in Timothy J Samuelson's Introduction and most important an authoritative revision of the chronological List of Buildings including corrections of the data in light of six decades of research Working from Morrison's original notes Samuelson has restored a number of photographic images intended for the original edition and has replaced some photographs with alternate images that more accurately represent the buildings He has also added a selected bibliography of important works about Sullivan Page 4 of cover **Carson Pirie Scott** Joseph Siry, 1988-11-04 Long recognized as a Chicago landmark the Carson Pirie Scott Building also represents a milestone in the development of architecture The last large commercial structure designed by Louis Sullivan the Carson building reflected the culmination of the famed architect's career as a creator of tall steel buildings In this study Joseph Siry traces the origins of the building's design and analyzes its role in commercial urban and architectural history City of the Century Donald L. Miller, 1997-04-03 A chronicle of the coming of the Industrial Age to one American city traces the explosive entrepreneurial technological and artistic growth that converted Chicago from a

Davis II,2019-09-06 In the nineteenth century paradigm of architectural organicism the notion that buildings possessed character provided architects with a lens for relating the buildings they designed to the populations they served Advances in scientific race theory enabled designers to think of race and style as manifestations of natural law just as biological processes seemed to inherently regulate the racial characters that made humans a perfect fit for their geographical contexts architectural characters became a rational product of design Parallels between racial and architectural characters provided a rationalist model of design that fashioned some of the most influential national building styles of the past from the pioneering concepts of French structural rationalism and German tectonic theory to the nationalist associations of the Chicago Style the Prairie Style and the International Style In Building Character Charles Davis traces the racial charge of the architectural writings of five modern theorists Eugene Emmanuel Viollet le Duc Gottfried Semper Louis Sullivan Frank Lloyd Wright and William Lescaze to
