Love A Novel Of Romance With Attitude:

Love's Knowledge Martha C. Nussbaum, 1990 This volume brings together Nussbaum's published papers on the relationship between literature and philosophy especially moral philosophy The papers many of them previously inaccessible to non specialist readers deal with such fundamental issues as the relationship between style and content in the exploration of ethical issues the nature of ethical attention and ethical knowledge and their relationship to written forms and styles and the role of the emotions in deliberation and self knowledge Nussbaum investigates and defends a conception of ethical understanding which involves emotional as well as intellectual activity and which gives a certain type of priority to the perception of particular people and situations rather than to abstract rules She argues that this ethical conception cannot be completely and appropriately stated without turning to forms of writing usually considered literary rather than philosophical It is consequently necessary to broaden our conception of moral philosophy in order to include these forms Featuring two new essays and revised versions of several previously published essays this collection attempts to articulate the relationship within such a broader ethical inquiry between literary and more abstractly theoretical elements *Literary Activities and Attitudes in the Stanislavian Age in Poland (1764-1795)* Jan IJ. van der Meer, 2022-01-04 The present book for the first time links the thoughts of modern Western sociologists of literature with an overall description of the literary activities attitudes and views in late eighteenth century Poland Inspired by the studies of Bourdieu on literary fields and more particular S J Schmidt's study of the history of the rise and development of the social system literature in Germany in the eighteenth century cf Schmidt 1989 the author tries to establish whether Poland witnessed the rise of a more complex and relatively autonomous literary field or as Schmidt calls it a functionally differentiated literary system in the age of the reign of King Stanislaw August Poniatowski 1764 1795 Functionally differentiated literary systems systems in which an increased number of literary agents and institutions produce sell buy and criticize literary works according to capitalist principles are the literary systems of today As most scholars believe their origins are to be found in most European nations in the late seventeenth and eighteenth centuries Did such a modern literary system albeit with certain limitations rise in Poland in the years of the rule of Stanislaw A Poniatowski this is the question the author of the present volume will attempt to answer This volume is of interest to theoreticians and empirical researchers approaching literature from a sociological point of view historians and of course slavists interested in eighteenth century literary developments in Poland *The Chinese Vernacular Story* Patrick Hanan, 1981 **Carol Shields, Narrative Hunger, and the Possibilities of Fiction** Ted Farrell, 2003-01-01 Award winning Canadian writer Carol Shields has garnered praise from scholars and an international audience of readers Inspired by the quality and scope of Shields's work Carol Shields Narrative Hunger and the Possibilities of Fiction addresses her creative exploration of postmodernism As the first thorough examination of the Pulitzer Prize winning author this collection of essays establishes the groundwork for future studies of her oeuvre The collection begins with a significant new

essay from Shields herself *Narrative Hunger and the Overflowing Cupboard* perhaps her most substantial commentary upon her own aims as a writer In addition scholars from Canada England the United States and Australia explore the complexity of Shields s work and her contributions to the genre of the novel These lively essays reflect Shields s verve and her playful approach to today s sophisticated critical thinking Among the topics are Shields s use of biography and autobiography metafiction popular romance and symbolism While the essays foreground the unreliability of language and hence our inability to know one another or even ourselves the contributors argue that Shields has taken a step beyond postmodernism by suggesting that we can transcend the limitations of its epistemology Containing several essays on *Swann* and *The Stone Diaries* Shields s most popular works and the most extensive annotated bibliography available of works by and about Shields this collection will appeal widely to scholars students and readers of Carol Shields and Canadian fiction

Conflict and Colonialism in 21st Century Romantic Historical Fiction Hsu-Ming Teo,Paloma Fresno-Calleja,2024-06-13 This book explores how postmillennial Anglophone women writers use romantic narrativisations of history to explore revise repurpose and challenge the past in their novels exposing the extent to which past societies were damaging to women by instead imagining alternative histories The novelists discussed employ the generic conventions of romance to narrate their understanding of historical and contemporary injustice and to reflect upon women s achievements and the price they paid for autonomy and a life of public purpose The volume seeks firstly to discuss the work of revision or reparation being performed by romantic historical fiction and secondly to analyse how the past is being repurposed for use in the present It contends that the discourses and genre of romance work to provide a reparative reading of the past but there are limitations and entrenched problems in such readings

A. Garrido Ardila, 2017-12-02 Many critics regard Cervantes's Don Quixote as the most influential literary book on British literature Indeed the impact on British authors was immense as can be seen from 17th century plays by Fletcher Massinger and Beaumont through the great 18th century novels of Fielding Smollett Sterne and Lennox and on into more modern and contemporary novelists 20th century critics fascinated by Cervantes were moved to write what we now see as the classical works of Cervantes scholarship Through their previous publications the eminent contributors to this volume have helped to determine the reception of Cervantes in Britain Together they now offer a comprehensive and innovative picture of this topic discussing the English translations of Cervantes's works the literary genres which developed under his shadow and the best known authors who consciously emulated him Cervantes's influence upon British literature emerges as decidedly the deepest of any writer outside of English and very possibly of any writer since the Renaissance The Foundations of Equal Employment Opportunity, 1972 *Encyclopedia of the Novel* Paul Schellinger, 2014-04-08 The Encyclopedia of the Novel is the first reference book that focuses on the development of the novel throughout the world Entries on individual writers assess the place of that writer within the development of the novel form explaining why and in exactly what ways that writer is important Similarly an entry on an individual novel discusses the importance of that novel not only from analyzing the particular innovations that novel has introduced and the ways in which it has influenced the subsequent course of the genre A wide range of topic entries explore the history criticism theory production dissemination and reception of the novel A very important component of the Encyclopedia of the Novel is its long surveys of development of the novel in various regions of the world **The Ethics of Sex and Alzheimer's** John Portmann, 2013-07-18 A growing epidemic Alzheimer's punishes not only its victims but also those married to them This book analyzes how Alzheimer's is quietly transforming the way we think about love today Without meaning to become rebels many people who find themselves married to Alzheimer's deflate the predominant notion of a conventional marriage By falling in love again before their ill spouse dies those married to Alzheimer's come into conflict with central values of Western civilization personal sexual familial religious and political Those who wait sadly for a spouse's death must sometimes wonder if the show of fidelity is necessary and whom it helps Most books on Alzheimer's focus on those who have it as opposed to those who care for someone with it This book offers a powerful and searching meditation on the extent to which someone married to Alzheimer's should be expected to suffer loneliness The diagnosis of dementia should not amount to a prohibition of sexual activity for both spouses Portmann encourages readers to risk honesty in assessing the moral dilemma using high profile cases such as Nancy Reagan and Justice Sandra Day O'Connor
