Bowring,2019-08-22 Why is love taken for granted as a part of human experience And why is sexual or romantic love in particular so important to us This book aims to find out tracing the intellectual history of sexual love from the ancient Greeks to the modern day Erotic Love in Sociology Philosophy and Literature shows how discourses of love have intersected with social and cultural trends as well as with personal events and experiences Beginning with the queering of love in Greek antiquity it looks at how sexual love has been sung about fictionalized and theorized as a cornerstone of the formation of Western culture From the courtly love of twelfth century troubadours and the rise of affective individualism in the eighteenth century to the way the novel helped catalyze and crystallize the hopes and contradictions of love and marriage these are decisive episodes in the history of romantic love Lastly the book deals with how sociologists and feminist theorists have made sense of the liberalization of sexuality over the last fifty years especially given the post romantic pragmatism of commercialized dating practices Arguing against the over rationalism of intimate life Erotic Love in Sociology Philosophy and Literature recognizes the need to liberate love from patriarchal racist and homophobic prejudices and highlights the value of literary and sociological traditions to emphasize how they dignify the rhapsodies and the sufferings of love **Always**

Patrick White and God Michael Giffin,2017-05-11 The novels of Australia s Nobel Laureate Patrick White 1912 1990

are a persistent commentary on Nietzsche's proclamation of God's death. As White knew the proclamation was not about God's existence but about classical views of God, it presented him with the impossible task of using language to describe what language cannot describe. This has always been one of the more misunderstood aspects of his literary vision. Because the announcement is often interpreted in antithetical ways—atheistic, theistic, secular, religious, humanistic, and fatalistic—critics should gain a better understanding of what White was trying to achieve by comparing him with his post-war contemporaries from England, Scotland, and Canada: Iris Murdoch, William Golding, Muriel Spark, and Robertson Davies. After and because of the war, these authors all commented on the consequences of God's death. Along with White, they worked with a shared pattern of tropes to explore the light and dark aspects of western consciousness and the civilization it has produced. Where did the pattern come from? Was it metaphysical or metapsychological? These questions are complex, as the pattern came from many sources simultaneously and synergistically, but this book tackles these questions by describing that pattern. *Opera at Home* Gramophone Company, 1925
