Magic Murder And Madness In Victorian England The Trial Of William Dove:

Murder, Magic, Madness Davies Owen, 2014-05-22 In 1856 William Dove a young tenant farmer was tried and executed for the poisoning of his wife Harriet The trial might have been a straightforward case of homicide but because Dove became involved with Henry Harrison a Leeds wizard and demonstrated through his actions and words a strong belief in magic and the powers of the devil considerable effort was made to establish whether these beliefs were symptomatic of insanity It seems that Dove murdered his wife to hasten a prediction made by Harrison that he would remarry a more attractive and wealthy woman Dove employed Harrison to perform various acts of magic and also made his own written pact with the devil to improve his personal circumstances The book will study Dove s beliefs and Harrison s activities within the rural and urban communities in which they lived and examine how modern cultures attempted to explain this largely hidden mental world which was so sensationally exposed The Victorian period is often portrayed as an age of great social and educational progress This book shows how beliefs dismissed by some Victorians as medieval superstitions continued to influence the thoughts and actions of many people viz most famously Conan table tapper Doyle *Murder, Magic, Madness* Owen Davies, 2008 In 1856 William Dove a young tenant farmer was tried and executed for the poisoning of his wife Harriet The trial might have been a straightforward case of homicide but because Dove became involved with Henry Harrison a Leeds wizard and demonstrated through his actions and words a strong belief in magic and the powers of the devil considerable effort was made to establish whether these beliefs were symptomatic of insanity It seems that Dove murdered his wife to hasten a prediction made by Harrison that he would remarry a more attractive and wealthy woman Dove employed Harrison to perf Nineteenth-Century Female Poisoners V. Nagy, 2015-02-18 *Nineteenth Century Female Poisoners* investigates the Essex poisoning trials of 1846 to 1851 where three women were charged with using arsenic to kill children their husbands and brothers Using newspapers archival sources including petitions and witness depositions and records from parliamentary debates the focus is not on whether the women were guilty or innocent but rather on what English society during this period made of their trials and what stereotypes and stock stories were used to describe women who used arsenic to kill All three women were initially presented as bad women but as the book illustrates there was no clear consensus on what exactly constituted bad womanhood **The Magical Imagination** Karl Bell, 2012-02-23 *Innovative history of the popular magical imagination and ordinary people s experience of urbanization in nineteenth century England* *Troubled by Faith* Owen Davies, 2023-08-29 The nineteenth century was a time of extraordinary scientific innovation but with the rise of psychiatry faiths and popular beliefs were often seen as signs of a diseased mind By exploring the beliefs of asylum patients we see the nineteenth century in a new light with science faith and the supernatural deeply entangled in a fast changing world The birth of psychiatry in the early nineteenth century fundamentally changed how madness was categorised and understood A century on their conceptions of mental illness continue to influence our views today Beliefs and behaviour were divided up into the

pathological and the healthy The influence of religion and the supernatural became significant measures of insanity in individuals countries and cultures Psychiatrists not only thought they could transform society in the industrial age but also explain the many strange beliefs expressed in the distant past Troubled by Faith explores these ideas about the supernatural across society through the prism of medical history It is a story of how people continued to make sense of the world in supernatural terms and how belief came to be a medical issue This cannot be done without exploring the lives of those who found themselves in asylums because of their belief in ghosts witches angels devils and fairies or because they thought themselves in divine communication or were haunted by modern technology The beliefs expressed by asylum patients were not just an expression of their individual mental health but also provide a unique reflection of society at the time a world still steeped in the ideas and imagery of folklore and faith in a fast changing world

The Devil and the Victorians Sarah Bartels,2021-03-04 In recent decades there has been a growing recognition of the significance of the supernatural in a Victorian context Studies of nineteenth century spiritualism occultism magic and folklore have highlighted that Victorian England was ridden with spectres and learned magicians Despite this growing body of scholarship little historiographical work has addressed the Devil This book demonstrates the significance of the Devil in a Victorian context emphasising his pervasiveness and diversity Drawing on a rich array of primary material including theological and folkloric works fiction newspapers and periodicals and broadsides and other ephemera it uses the diabolic to explore the Victorians complex and ambivalent relationship with the supernatural Both the Devil and hell were theologically contested during the nineteenth century with an increasing number of both clergymen and laypeople being discomfited by the thought of eternal hellfire Nevertheless the Devil continued to play a role in the majority of English denominations as well as in folklore spiritualism occultism popular culture literature and theatre The Devil and the Victorians will appeal to readers interested in nineteenth century English cultural and religious history as well as the darker side of the supernatural

Johnston,2008-10-24 Bringing together new research this book advances current theoretical understandings of punishment and control in society It provides a critical analysis of institutions punishment and the law and explores the delivery of punishment and experience of incarceration in Western societies from the early nineteenth century

Grimoires Owen Davies,2010 Grimoires are books of spells that were first recorded in the Ancient Middle East and which have developed and spread over the ensuing millennia *Building Magic* Owen Davies,Ceri Houlbrook,2021-09-10 This book redresses popular interpretations of concealed objects enigmatically discovered within the fabric of post medieval buildings A wide variety of objects have been found up chimneybreasts bricked up in walls and concealed within recesses old shoes mummified cats horse skulls pierced hearts to name only some The most common approach to these finds is to apply a one size fits all analysis and label them survivals and apotropaic evil averting devices This book reconsiders such interpretations exploring the invention and reinvention of traditions regarding building magic The title Building Magic

therefore refers to more than practices that alter the fabric of buildings but also to processes of building magic into our interpretations of the enigmatic material evidence and into our engagements with the buildings we inhabit and frequent

Responsibility and Psychopathy Luca Malatesti, John McMillan, 2010-08-19 The discussion of whether psychopaths are morally responsible for their behaviour has long taken place in philosophy In recent years this has moved into scientific and psychiatric investigation *Responsibility and Psychopathy* discusses this subject from both the philosophical and scientific disciplines as well as a legal perspective

The Wharnccliffe A-Z of Yorkshire Murder Stephen Wade, 2007-01-19 The history of the old county of Yorkshire has been concerned with the great and the good the ambitious and the downright unscrupulous Its broad acres has had more than its fair share of highprofile murders especially though not exclusively in its burgeoning urban centres Now there is a reference work to bring together most of the principal murders from the mid eighteenth century when Dick Turpin went to the York gallows through to the end of hanging in 1964 In a time span of two centuries Yorkshire has witnessed a range of tragic narratives including husbands killing their wives homicidal attacks in the night alleys and courts gangs at work looking for vulnerable victims on dark streets and country lanes Many of these tales are from the countryside too Revenge and jealousy on and around farms clashes between poachers and gamekeepers and shootings in rolling hills and valleys Other factors in the social scene are also recounted including legal and historical features definitions explanations even short accounts of lives of murderers and of course the enigmatic hangmen STEPHEN WADE specialises in writing criminal and military history He has authored several volumes in Wharncloffes Foul Deeds Series as well as Unsolved Yorkshire Murders He teaches courses in crime writing and crime history at the University of Hull and also works as a writer in prisons

Disordered Personalities and Crime David Jones, 2015-08-13 *Disordered Personalities and Crime* seeks to better understand how we respond to those individuals who have been labelled at various points in time as morally insane psychopathic or personality disordered Individuals whose behaviour is consistent with these diagnoses present challenges to both the criminal justice system and mental health systems because the people who come to have such diagnoses seem to have a rational and realistic understanding of the world around them but they can behave in ways that suggest they have little understanding of the meaning or consequences of their actions This book argues that an analysis of the history of these diagnoses will help to provide a better understanding of contemporary dilemmas These are categories that have been not only shaped by the needs of criminal justice and the claims of expertise by professionals but also the fears anxieties and demands of the wider public In this book David W Jones demonstrates us how important these diagnoses have been to the history of psychiatry in its claims for professional expertise and also sheds light on the evolution of the insanity defence and helps explain why it remains a problematic and controversial issue even today This book will be key reading for students researchers and academics who are interested in crime and its relationship to mental disorder and also for those interested in psychiatry and abnormal psychology
