region are witnessing an upsurge of spirit possession cults and diverse forms of magical ritual This is found in many social strata including the urban poor rising middle classes and elite groups and across the different political systems of Myanmar Thailand Cambodia and Vietnam This volume reveals both the central historical place of spirit possession rituals in the Buddhist cultures of mainland Southeast Asia and their important contemporary roles to enhance prosperity and protection This book examines the increasing prominence of spirit mediumship and divination across the region by exploring the interplay of neoliberal capitalism visual media the network cultures of the Internet and the politics of cultural heritage and identity It advances beyond critiques of the secularization and disenchantment theses to explore the processes of modernity that are actively producing magical worldviews and stimulating the rise of spirit cults As such it not only challenges the assumptions of modernization theory but demonstrates that the cults in question are novel ritual forms that emerge out of inherently modern conditions
