Trust in Texts Susan Miller, 2008 *Trust in Texts: A Different History of Rhetoric* challenges the accepted idea of a singular rhetorical tradition poorly maintained from the Athenian Golden Age until the present. Author Susan Miller argues that oratorical rhetoric is but one among many codes that guide the production of texts and proposes that emotion and trust are central to the motives and effects of rhetoric. This groundbreaking volume makes a case for historical rhetoric as dispersed formal and informal lessons in persuasion that are codified as crafts that mediate between what is known and unknown in particular rhetorical situations. Traditional unified histories of rhetoric ignore the extensive historical interactions among discourses including medicine, drama, lyric poetry, philosophy, oratory, and literary fiction that have operated from antiquity across cultures that are historically and geographically joined. Drawing not just on traditional rhetorical works but also on texts from philosophy and literature, Miller expands the body of works to be considered in the study of rhetoric. As the first book-length study that calls into question the centrality of logos to rhetoric, *Trust in Texts* will change the way the history of rhetoric is viewed and taught and will be essential to scholars and students of communications, rhetoric, English classics, and literary studies.

The History and Theory of Rhetoric James A. Herrick, 2015-08-07 *The History and Theory of Rhetoric* offers discussion of the history of rhetorical studies in the Western tradition from ancient Greece to contemporary American and European theorists that is easily accessible to students. By tracing the historical progression of rhetoric from the Greek Sophists of the 5th Century B.C. all the way to contemporary studies such as the rhetoric of science and feminist rhetoric, this comprehensive text helps students understand how persuasive public discourse performs essential social functions and shapes our daily worlds. Students gain conceptual framework for evaluating and practicing persuasive writing and speaking in a wide range of settings and in both written and visual media. Known for its clear writing style and contemporary examples throughout, *The History and Theory of Rhetoric* emphasizes the relevance of rhetoric to today's students.

Rhetoric and the Familiar in Francis Bacon and John Donne Daniel Derrin, 2013-03-08 *Rhetoric and the Familiar* examines the writing and oratory of Francis Bacon and John Donne from the perspective of the faculty psychology they both inherited. Both writers inherited the resources of the classical rhetorical tradition through their university education. The book traces from within that tradition the sources of Bacon and Donne's ideas about the processes of mental image making, reasoning, and passionate feeling. It analyzes how knowledge about those mental processes underlies the rhetorical planning of texts by Bacon such as *New Atlantis*, *Essays*, or *Counsels*; *Novum Organum* and the parliamentary speeches; and of texts by Donne such as the *Verse Letters*, *Essays in Divinity*, *Holy Sonnets*, and the sermons. The book argues that their rhetorical practices reflect a common appropriation of ideas about mental process from faculty psychology and that they deploy it in divergent ways depending on their rhetorical contexts. It demonstrates the vital importance in early modern thinking about rhetoric of considering what familiar remembered material will occur to a given audience, how that differs

according to context and the problems the familiar entails The History and Theory of Rhetoric Luke Winslow, James A. Herrick, 2025-08-19 By tracing the traditional progression of rhetoric from the Greek Sophists to contemporary theorists this updated eighth edition gives students a conceptual framework for evaluating and practicing persuasive writing and speaking in a wide range of settings including written visual and digital media Through an expansive historical purview the book illustrates how persuasive public discourse performs essential social functions and shapes our societies drawing on the ideas of many of history's greatest thinkers and theorists This new edition includes an integrated exploration of non Western rhetorics an updated account of contemporary rhetoric and an enhanced analysis of rhetorical theory in a digital age Known for its clear writing style and contemporary examples throughout The History and Theory of Rhetoric emphasizes the relevance of rhetoric to today's students This revised edition serves as a core textbook for rhetoric courses in both English and communication programs covering both the historical tradition of rhetoric and contemporary rhetoric studies A suite of online resources including a detailed instructor's manual PowerPoint slides and videos from Dr Winslow can be found on the Instructor and Student Resources website at www.routledgelearning.com/historyofrhetoric

Rhetoric, Science, and Magic in Seventeenth-century England Ryan J. Stark, 2009 Rhetoric operated at the crux of seventeenth century thought from arguments between scientists and magicians to anxieties over witchcraft and disputes about theology Writers on all sides of these crucial topics stressed rhetorical discernment because to the astute observer the shape of one's eloquence was perhaps the most reliable indicator of the heart's piety or alternatively of demonry To understand the period's tenor we must understand the period's rhetorical thinking which is the focus of this book Ryan J Stark presents a spiritually sensitive interdisciplinary and original discussion of early modern English rhetoric He shows specifically how experimental philosophers attempted to disenchant language While rationalists and skeptics delighted in this disenchantment mystics wizards and other practitioners of mysterious arts vehemently opposed the rhetorical precepts of modern science These writers used tropes not as plain instruments but rather as numinous devices capable of transforming reality On the contrary the new philosophers perceived all esoteric language as a threat to learning's advancement causing them to disavow both nefarious forms of occult spell casting and unfortunately edifying forms of wonderment and incantation This fundamental conflict between scientists and mystics over the nature of rhetoric is the most significant linguistic happening in seventeenth century England and as Stark argues it ought profoundly to inform how we discuss the rise of modern English writing ABOUT THE AUTHOR Ryan J Stark is assistant professor of English at Pennsylvania State University PRAISE FOR THE BOOK This extremely well written thoughtful book sets out to defend the new scientific writers members of the Royal Society inaugurated in 1662 to discuss and foster the study of the physical sciences from the charge that those who attack rhetoric Continued to use it Stark is eloquent in pursuing a thesis that attacks the eloquence that makes his own book so readable engaging and absorbing John Mulryan Cithara Stark investigates this mare's nest of models and influences to conclude that

The Practice of Rhetoric Debra Hawhee, Vessela Valiavitcharska, 2022-10-18 Rhetoric broadly conceived as the art of making things matter is both a practice and theory about that practice In recent decades scholars of rhetoric have turned to approaches that braid together poetics performance and philosophy into a practical art By practical art they mean methods tested in practice by trial and error with a goal of offering something useful and teachable This volume presents just such an account of rhetoric The account here does not turn away from theory but rather presumes and incorporates theoretical approaches offering a collection of principles assembled in the heat and trials of public practice The approaches ventured in this volume are inspired by the capacious conception of rhetoric put forth by historian of rhetoric Jeffrey Walker who is perhaps best known for stressing rhetoric's educational mission and its contributions to civic life The Practice of Rhetoric is organized into three sections designed to spotlight in turn the importance of poetics performance and philosophy in rhetorical practice The volume begins with poetics stressing the world making properties of that word in contexts ranging from mouse infested medieval fields to the threat of toxin ridden streams in the mid twentieth century Susan C Jarratt for instance probes the art of ekphrasis or vivid description and its capacity for rendering alternative futures Michele Kennerly explores a little studied linguistic predecessor to prose logos psilos or naked speech exposing the early rumblings of a separation between poetic and rhetorical texts even as it historicizes the idea of clothed or ornamented speech In an essay on the almost magical properties of writing Debra Hawhee considers the curious practice of people writing letters to animals in order to banish or punish them thereby casting the epistolary arts in a new light Part 2 moves to performance Vessela Valiavitcharska examines the intertwining of poetic rhythm and performance in Byzantine rhetorical education and how such practices underlie the very foundations of oratory Dale Martin Smith draws on the ancient stylistic theory of Dionysius of Halicarnassus along with the activist work of contemporary poets Amiri Baraka and Harmony Holiday to show how performance and persuasion unify rhetoric and poetics

Most treatments of philosophy and rhetoric begin within a philosophical framework and remain there focusing on old tools like stasis and disputation Essays in part 3 break out of that mold by focusing on the utility and teachability of rhetorical principles in education Jeanne Fahnestock and Marie Secor update stasis a classical framework that encourages aspiring rhetors to ask after the nature of things their facts and their qualities as a way of locating an argument's position Mark Garrett Longaker probes the medieval practice of disputation in order to marshal a new argument about why exactly John Locke detested rhetoric and the longstanding opposition between science and rhetoric as modes of proof that has lasting implications for the way argument works today Ranging across centuries and contexts the essays collected here demonstrate the continued need to attend carefully to the co operation of descriptive language and normative reality conceptual vocabulary and material practice public speech and moral self shaping The volume promises to rekindle long standing conversations about the public world making practice of rhetoric thereby enlivening anew its civic mission **Ancient**

Non-Greek Rhetorics Carol S. Lipson, Roberta A. Binkley, 2009-04-03 Ancient Non Greek Rhetorics contributes to the recovery and understanding of ancient rhetorics in non Western cultures and other cultures that developed independently of classical Greco Roman models Contributors analyze facets of the rhetorics as embedded within the particular cultures of ancient China Egypt Mesopotamia the ancient Near East more generally Israel Japan India and ancient Ireland

Anglo-American Feminist Challenges to the Rhetorical Traditions Krista Ratcliffe, 2016-06-01 Although women and men have different relationships to language and to each other traditional theories of rhetoric do not foreground such gender differences Krista Ratcliffe argues that because feminists generally have not conceptualized their language theories from the perspective of rhetoric and composition studies rhetoric and composition scholars must construct feminist theories of rhetoric by employing a variety of interwoven strategies recovering lost or marginalized texts rereading traditional rhetoric texts extrapolating rhetorical theories from such nonrhetoric texts as letters diaries essays cookbooks and other sources and constructing their own theories of rhetoric Focusing on the third option Ratcliffe explores ways in which the rhetorical theories of Virginia Woolf Mary Daly and Adrienne Rich may be extrapolated from their Anglo American feminist texts through examination of the interrelationship between what these authors write and how they write In other words she extrapolates feminist theories of rhetoric from interwoven claims and textual strategies By inviting Woolf Daly and Rich into the rhetorical traditions and by modeling the extrapolation strategy methodology on their writings Ratcliffe shows how feminist texts about women language and culture may be reread from the vantage point of rhetoric to construct feminist theories of rhetoric She also outlines the pedagogical implications of these three feminist theories of rhetoric thus contributing to ongoing discussions of feminist pedagogies Traditional rhetorical theories are gender blind ignoring the reality that women and men occupy different cultural spaces and that these spaces are further complicated by race and class Ratcliffe explains Arguing that issues such as who can talk where one can talk and how one can talk emerge in daily life but

are often disregarded in rhetorical theories Ratcliffe rereads Roland Barthes *The Old Rhetoric* to show the limitations of classical rhetorical theories for women and feminists Discovering spaces for feminist theories of rhetoric in the rhetorical traditions Ratcliffe invites readers not only to question how women have been located as a part of and apart from these traditions but also to explore the implications for rhetorical history theory and pedagogy

Robert Burton and the Transformative Powers of Melancholy Stephanie Shirilan, 2016-03-03 Few English books are as widely known underread and underappreciated as Robert Burton's *The Anatomy of Melancholy* Stephanie Shirilan laments that modern scholars often treat the *Anatomy* as an unmediated repository of early modern views on melancholy overlooking the fact that Burton is writing a cento an ancient form of satire that quotes and misquotes authoritative texts in often subversive ways and that his express intent in so doing is to offer his readers literary therapy for melancholy This book explores the ways in which the *Anatomy* dispenses both direct physic and more systemic medicine by encouraging readers to think of melancholy as a privileged mental and spiritual acuity that requires cultivation and management rather than cure Refuting the prevailing historiography of anxious early modern embodiment that cites Burton as a key witness Shirilan submits that the *Anatomy* rejects contemporary Neostoic and Puritan approaches to melancholy She reads Burton's erraticism opacity and theatricality as modes of resistance against demands for constancy transparency and plainness in the popular literature of spiritual and moral hygiene of his day She shows how Burton draws on rhetorical theological and philosophical traditions that privilege the transformative powers of the imagination in order to celebrate melancholic impressionability for its capacity to inspire and engender empathy charity and faith

Ambition, Rank, and Poetry in 1590s England John Huntington, 2001 *Ambition Rank and Poetry in 1590s England* focuses on the early work of George Chapman and on the writings of others who shared his social agenda and his nonprivileged status including Christopher Marlowe Ben Jonson and Edmund Spenser as well as neglected writers such as Matthew Roydon and Aemilia Lanyer Rather than placing poetry in the service of traditional social purposes pleasing a patron wooing a woman displaying one's courtly skill teaching morality these writers held up poetry as important for its own sake an idea taken for granted in much modern aesthetics Jacket
