**Making Pagans** John Kuhn,2024-12-10 How early modern theatrical practice helped construct the category of pagan as a tool of European self definition and colonial ambition In Making Pagans John Kuhn argues that drama played a powerful role in the articulation of religious difference in the seventeenth century Tracing connections between the history of stagecraft and ethnological disciplines such as ethnography antiquarianism and early comparative religious writing Kuhn shows how early modern repertory systems that leaned heavily on thrift and reuse produced an enduring theatrical vocabulary for understanding religious difference through the representation of paganism a key term in the new taxonomy of world religions emerging at this time and a frequent subject and motif in English drama of the era Combining properties such as triumphal chariots trick altars and moving statues with music special effects and other elements the spectacular set pieces that were mostly developed for plays set in antiquity depicting England s pre Christian past were frequently repurposed in new plays in representations of Native Americans and Africans in colonial contact zones Kuhn argues that the recycling of these set pieces encouraged audiences to process new cultural sites through the lens of old performance tropes and helped produce fictitious quasi ethnographic knowledge for spectators generating the idea of a homogeneous trans historical trans geographical paganism Examining the common scenes of pagan ritual that filled England s seventeenth century stages magical

conjurations oracular prophecies barbaric triumphal parades and group suicides Kuhn traces these tropes across dozens of plays from a range of authors including Ben Jonson Christopher Marlowe John Dryden and Philip Massinger Drawing together theater history Atlantic studies and the history of comparative religion Making Pagans reconceptualizes the material and iterative practices of the theater as central to the construction of radical religious difference in early modernity and of the category of paganism as a tool of European self definition and colonial ambition     **Olympians of the Sawdust Circle**
