English Heart, Hindi Heartland Rashmi Sadana, 2012-02-02 English Heart Hindi Heartland examines Delhi's postcolonial literary world its institutions prizes publishers writers and translators and the cultural geographies of key neighborhoods in light of colonial histories and the globalization of English Rashmi Sadana places internationally recognized authors such as Salman Rushdie Anita Desai Vikram Seth and Aravind Adiga in the context of debates within India about the politics of language and alongside other writers including K

Satchidanandan Shashi Deshpande and Geetanjali Shree Sadana undertakes an ethnographic study of literary culture that probes the connections between place language and text in order to show what language comes to stand for in people's lives. In so doing she unmasks a social discourse rife with questions of authenticity and cultural politics of inclusion and exclusion. *English Heart Hindi Heartland* illustrates how the notion of what is considered to be culturally and linguistically authentic not only obscures larger questions relating to caste, religious and gender identities but that the authenticity discourse itself is continually in flux. In order to mediate and extract cultural capital from India's complex linguistic hierarchies, literary practitioners strategically deploy a fluid set of cultural and political distinctions that Sadana calls literary nationality. Sadana argues that English and the way it is positioned among the other Indian languages does not represent a fixed pole but rather serves to change political and literary alliances among classes and castes often in surprising ways.

Studies in Chinese Phonology Jialing Wang, Norval Smith, 2013-02-06. No detailed description available for *Studies in Chinese Phonology*.

The History of Literature in Song, Liao, Jin and Xixia of Dynasty Li Shi. The book is the volume of *The History of Literature in Song, Liao, Jin and Xixia of Dynasty* among a series of books of *Deep into China Histories*. The earliest known written records of the history of China date from as early as 1250 BC from the Shang dynasty c. 1600-1046 BC and the *Bamboo Annals* 296 BC describe a Xia dynasty c. 2070-1600 BC before the Shang but no writing is known from the period. The Shang ruled in the Yellow River valley which is commonly held to be the cradle of Chinese civilization. However, Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River. These Yellow River and Yangtze civilizations arose millennia before the Shang. With thousands of years of continuous history, China is one of the world's oldest civilizations and is regarded as one of the cradles of civilization. The Zhou dynasty 1046-256 BC supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule. The central Zhou government began to weaken due to external and internal pressures in the 8th century BC and the country eventually splintered into smaller states during the Spring and Autumn period. These states became independent and warred with one another in the following Warring States period. Much of traditional Chinese culture, literature and philosophy first developed during those troubled times. In 221 BC, Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi or emperor of the Qin, marking the beginning of imperial China. However, the oppressive government fell soon after his death and was supplanted by the longer-lived Han dynasty 206 BC-220 AD. Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly. In the 21 centuries from 206 BC until AD 1912, routine administrative tasks were handled by a special elite of scholar-officials. Young men well-versed in calligraphy, history, literature and philosophy were carefully selected through difficult government examinations. China's last dynasty was the Qing 1644-1912, which was replaced by the Republic of China in 1912 and in the mainland by the People's Republic of China in 1949. Chinese history has alternated between periods of political unity and peace and periods of war and failed statehood; the most recent

being the Chinese Civil War 1927 1949 China was occasionally dominated by steppe peoples most of whom were eventually assimilated into the Han Chinese culture and population Between eras of multiple kingdoms and warlordism Chinese dynasties have ruled parts or all of China in some eras control stretched as far as Xinjiang and Tibet as at present Traditional culture and influences from other parts of Asia and the Western world carried by waves of immigration cultural assimilation expansion and foreign contact form the basis of the modern culture of China Under Fire Elizabeth Goodenough, Andrea Immel, 2008 An eclectic multidisciplinary collection that explores the representation of war and its aftereffects in children's books and documentary film Brings together internationally known contributors to examine the ongoing influence of violence and war on children's literature by studying the childhood experiences of authors writing for children the children represented in war stories and the experiences of children who make up the stories readership From publisher description
