Garavaglia, Christian Lamouroux**

## **Main Concepts Of Russian Politics:**

**Main Concepts of Russian Politics** Oleg Kharkhordin, 2005 Main Concepts of Russian Politics addresses key concepts of political life in Russia Specific attention is given to how Russian terms relate to their English language equivalents

**Main Concepts of Russian Politics** Oleg Kharkhordin, 2005-05-23 Main Concepts of Russian Politics addresses key concepts of political life in Russia Specific attention is given to how Russian terms relate to their English language equivalents This book also discusses current problems within Russian politics with the help of conceptual apparatus taken from political theory classics Thus this book is a rapprochement of political theory and Russian studies It shows how familiar classics fare in an unfamiliar cultural context and how unfamiliar concerns of another culture can be made understandable with the help of these classic works *Routledge Handbook of Russian Politics and Society* Graeme Gill, James Young, 2013-03 There is an ever burgeoning number of books analyzing the Russian experience or aspects of it This Handbook is the first single volume which gives both a broad survey of the literature as well as highlighting the cutting edge research in the area Through both empirical data and theoretical investigation each chapter in the Routledge Handbook Russian of Politics and Society examines both the Russian experience and the existing literature points to research trends and identifies issues that remain to be resolved Offering focused studies of the key elements of Russian social and political life the book is organized into the following broad themes General introduction Political institutions Political Economy Society Foreign Policy Politically economically and socially Russia has one of the most interesting development trajectories of any major country This Handbook seeks to answer questions about democratic transition the relationship between the market and democracy stability and authoritarian politics the development of civil society the role of crime and corruption and the creation of a market economy Providing a comprehensive resource for scholars and policy makers alike this book is an important contribution to the study of Russian Studies Eastern European studies and International Relations

Communism and the Emergence of Democracy Harald Wydra, 2007-02-08 Before democracy becomes an institutionalised form of political authority the rupture with authoritarian forms of power causes deep uncertainty about power and outcomes This book connects the study of democratisation in eastern Europe and Russia to the emergence and crisis of communism Wydra argues that the communist past is not simply a legacy but needs to be seen as a social organism in gestation where critical events produce new expectations memories and symbols that influence meanings of democracy By examining a series of pivotal historical events he shows that democratisation is not just a matter of institutional design but rather a matter of consciousness and leadership under conditions of extreme and traumatic incivility Rather than adopting the opposition between non democratic and democratic Wydra argues that the communist experience must be central to the study of the emergence and nature of democracy in post communist countries **Political Ideologies in Contemporary Russia** Elena Chebankova, 2020-11-18 In the realm of political discourse there is a distinct gap in understanding between Russia and the

West To an outsider the ideas that animate the actions of Russia's ruling elite opposition and civil society from the motivations driving Russia's political actors to the class structure and international and domestic constraints that shape Russia's political thinking remain shrouded in mystery Contrary to the view that a bleak discursive uniformity reigns in Vladimir Putin's Russia *Political Ideologies in Contemporary Russia* shows that the country is engaging in serious theoretical debates across a wide spectrum of modern ideologies including liberalism nationalism feminism and multiculturalism Elena Chebankova argues that the nation is fragmented and the state seeks to balance the various ideological movements to ensure that none dominates She shows that each of the main ideological trends is far from uniform but the major opposition is between liberalism and traditionalism The pluralistic picture she describes contests many current portrayals of Russia as an authoritarian or even totalitarian state Offering an alternative to the Western lens through which to view global politics *Political Ideologies in Contemporary Russia* is a major contribution to our understanding of this world power

**Institutions, Ideas and Leadership in Russian Politics** Julie Newton, William Thompson, 2010-06-23 A stimulating and thought provoking collection that challenges some of the emerging conventional wisdom about contemporary Russia It examines the role of leadership institutions and ideas and the interactions among them in shaping Russia's post Soviet transformation

*Key Concepts in Politics and International Relations* Andrew Heywood, 2015-07-07 Concepts have a particular importance for students of politics and international relations Political argument often boils down to a struggle over the legitimate meaning of terms and enemies may argue fight and even go to war each claiming to be defending freedom upholding democracy or supporting justice The problem is that words such as freedom democracy and justice have different meanings to different people so that the concepts themselves come to seem problematic This book provides an accessible and comprehensive guide to the major concepts encountered in political analysis Each term is defined clearly and fully and its significance for political argument and practice is explored The text has been updated and expanded to take account of the increasing influence of globalization on politics and now features 70 additional concepts Renowned for its lively engaging style and user friendly approach the second edition is an invaluable companion to the study of politics and international relations

*Political Ideas And Institutions In Imperial Russia* Marc Raeff, 2019-07-09 Marc Raeff is one of the truly outstanding scholars of Russian history This volume offers a sampling of the best essays from his prolific forty year career they span the history of Russia from the late seventeenth to the late nineteenth century In these essays Raeff considers the problems of imperial Russian politics and administration analyzes Russia's intellectual and social history as it relates to the governance of the multiethnic empire and places the institutional and intellectual history of Russia in the context of other Western and Central European developments Raeff's essays offer a sketch of the generation that came of age in the era of the Napoleonic Wars and the ensuing attempts at constitutional reform the generation that laid the foundations of the modern Russian national consciousness He explores modernization reform and liberalism in the second

half of the nineteenth century the acquisition and incorporation of Russia's multiethnic population and the politics and administration of the reigns of Peter III and Catherine II. He examines how the Russian elites assimilated values from the Western and Central European Enlightenment and assesses the important intellectual and ideological effects the Enlightenment had on the nation. The volume concludes with a comparative look at the process of Westernization focusing on issues of literacy, state leadership and the role of the intelligentsia. Many of these seminal essays are long out of print and hard to find. This timely volume makes Marc Raeff's insights readily available as Russia reemerges as a nation state facing new challenges that are often deeply rooted in its past.

**World Order after Leninism** Vladimir Tismaneanu, Marc Morje Howard, Rudra Sil, 2016-06-01. *World Order after Leninism* examines the origins and evolution of world communism and explores how its legacies have shaped the post Cold War world order. The lessons of Leninism continue to exert a strong influence in contemporary foreign affairs most visibly in Poland and other post communist states of the former Soviet Union but also in China and other newly industrialized states balancing authoritarian impulses against the pressures of globalization, free markets and democratic possibilities. *World Order after Leninism* began as a conversation among former students of Ken Jowitt, professor of political science at the University of California at Berkeley from 1970-2002 and whose monumental career transformed the fields of political science, Russian studies and post communist studies. Using divergent case studies, the essays in this volume document the ways in which Jowitt's exceptionally original work on Leninism's evolution and consolidation remains highly relevant in analyzing contemporary post communist and post authoritarian political transformations.

*Culture, Political Economy and Civilisation in a Multipolar World Order* Ray Silvius, 2016-10-04. This book seeks to understand how Russia's multifaceted rejection of American unipolarity and de-territorialised neo-liberal capitalism has contributed to the gestation of the present multipolar moment in the global political economy. Analysing Western world order precepts via the actions of a powerful albeit precarious national political economy and state structure situated on the periphery of Western world order, Silvius explores the manner in which culture and ideas are mobilised for the purposes of national, regional and international political and economic projects in a post global age. The book explains and analyses the tensions of post-Soviet Russia's integration into and simultaneous partial rejection of the capitalist global political economy. Provides an overview of the social, political and historical origins of Russian samobytnost, uniqueness after the fall of the Soviet Union and demonstrates their significance to contemporary understandings of world order. Explores how structures of cultural difference and practices of cultural differentiation interact with the normative legacies of American hegemonic aspirations in contemporary world order structures. Evaluates how cultural and civilisational representations are mobilised for state projects and their corresponding regional and international dimensions within the global political economy. This book will be of great interest to students and scholars of Russian Foreign Policy, IPE and comparative political economy.

Political and Social Thought in Post-Communist Russia Axel Kaehne, 2007-11-13. This is the first comprehensive

study of Russian political and social thought in the post Communist era The book portrays and critically examines the conceptual and theoretical attempts by Russian scholars and political thinkers to make sense of the challenges of post communism and the trials of economic political and social transformation It brings together the various strands of political thought that have been formulated in the wake of the collapsed communist doctrine It engages constructively with the numerous attempts by Russian political theorists and social scientists to articulate a coherent model of liberal democracy in their country The book investigates critical as well as favourable voices in the Russian debate on liberal democracy a debate often marked by eclecticism and at times little conceptual discipline As such the book will be of great interest both to Russian specialists and to all those interested in political and social thought more widely

**Russian Notions of Power and State in a European Perspective, 1462-1725** Endre Sashalmi, 2022-10-25 Winner of the 2023 Marc Raeff Book Prize A 2023 REFORC Book Award Longlist Title This book highlights the main features and trends of Russian political thought in an era when sovereignty state and politics as understood in Western Christendom were non existent in Russia or were only beginning to be articulated It concentrates on enigmatic authors and sources that shaped official perception of rulership or marked certain changes of importance of this perception Special emphasis is given to those written and visual sources that point towards depersonalization and secularization of rulership in Russia A comparison with Western Christendom frames the argument throughout the book both in terms of ideas and the practical aspects of state building allowing the reader to ponder Russia s *differentia specifica*

*The Concept of Political Culture* Stephen Welch, 2016-07-27 erudite thought provoking and well written Archie Brown Professor of Politics Oxford University The return to prominence of the concept of political culture offers an opportunity to re evaluate its contribution to the social sciences This study casts a broader than usual net embracing not only political science with equal emphasis placed on the concept s use in communist studies but also sociology and history On this basis a distinctive theory of political culture and not merely another typology is developed Political culture instead of being a token in the sterile debate between interest and culture based explanation offers the means of transcending that debate

Political Theory and Community Building in Post-Soviet Russia Oleg Kharkhordin, Risto Alapuro, 2011-03-07 This book revisits many aspects of current social science theories such as actor network theory and the French school of science and technology studies to test how the theories apply in a specific situation in this case after 1991 in the city of Cherepovets in Russia home of Russia s second biggest steel producer Severstal Using political philosophy to analyse the down to earth details of the real techno scientific problems facing the world the book examines the role of things and urban infrastructure in particular in political change It considers how the city s infrastructure including housing ICT networks the provision of public utilities of all kinds has been transformed in recent years examines the roles of different actors including the municipal authorities and explores citizens differing and sometimes contradictory images of their city It includes a great deal of new thinking on how communities are built how common action

is initiated to provide public goods and how the goods themselves physical things are a crucial driver of community action and community building arguably more so than more abstract social and human forces **Serve the Power(s), Serve the State** Michael J. Braddick, Juan Carlos Garavaglia, Christian Lamouroux, 2016-06-22 The companion volume to *Latin American Bureaucracy State and the State Building Process 1780 1860 2013* this book examines the organization and the consolidation of various groups including judicial officers and tax agents administrative clerks and soldiers and merchants and money lenders acting to create or reacting to ruin in the case of the collective resistance to taxes newly emergent forms of social and political power Chapters range across Latin America and the United States Spain Modern England Russia India and the Far East and the longue dur e of Eurasian history 12th 19th centuries They reveal that beyond the general impact of kinship networks different processes resulted in the consolidation of a new authority based on specialized knowledge and professionalization The importance attached to the role played by these new servants by imperial royal or feudal courts led to new forms of recruitment new procedures of evaluation and the regularization of daily work It also led to the establishment of new hierarchies and to the reinforcement of the identity of these various groups who were aggregating to defend shared interests develop alliances create methods of intervention and define fields of expertise In this respect the concept of State is revisited here as a diverse and locally varied process grounded on differing historical experiences but which produced similar public officers who saw themselves as powerful servants managing a part of the public authority **Politics and the Sacred** Harald Wydra, 2015-04-30 Argues that practices of the sacred have shaped the frames of modern secular politics

*Democracy and Myth in Russia and Eastern Europe* Alexander Wöll, Harald Wydra, 2007-10-18 This book explores democracy and democratization in Eastern Europe focusing on the influence of politically important literary and historical myths in pre communist and communist Eastern Europe and Russia **Politics Russia** Catherine Danks, 2014-01-14 Politics Russia provides the most comprehensive accessible and up to date introduction to all aspects of the political development of Russia in the post communist era Writing with the undergraduate student specifically in mind Danks fluent style and masterly grasp of complex material will make this an indispensable guide for many years to come Divided into five sections Politics Russia maps a clear path towards an understanding of Russia and its politics in the twenty first century In Part One the emergence of contemporary Russia is put into context by a consideration of the end of the USSR and the move towards democratization under Gorbachev Part Two provides a clear sighted and stimulating overview of the nature of the executive and the legislature in contemporary Russia Part Three examines civil society the role of the media and the representative process Part Four is focussed on the policy process from foreign and defence policies to the development of domestic social policies from the provision of healthcare to education Part Five the final provides an overall consideration the contemporary state of Russia examining the development from Yeltsin to Putin to Medvedev and considers the possible futures of the region The book is supported by a host of pedagogical features including Annotated further reading lists Definitions of key political

terms Short biographies of key figures      Russia as Civilization Kåre Johan Mjør, Sanna Turoma, 2020-05-18 Analyzing the use of civilization in Russian language political and media discourses intellectual and academic production and artistic practices this book discusses the rise of civilizational rhetoric in Russia and global politics Why does the concept of civilization play such a prevalent role in current Russian geopolitical and creative imaginations The contributors answer this question by exploring the extent to which discourse on civilization penetrates Russian identity formations in imperial and national configurations and at state and civil levels of society Although the chapters offer different interpretations and approaches the book shows that Russian civilizationism is a form of ideological production responding to the challenges of globalization The concept of civilization while increasingly popular as a conceptual tool in identity formation is also widely contested in Russia today This examination of contemporary Russian identities and self understanding will be of particular interest to students and scholars of Russian area studies and Slavic studies intellectual and cultural history nationalism and imperial histories international relations discourse analysis cultural studies media studies religion studies and gender studies

*Russia's New Authoritarianism* David G. Lewis, 2020-03-27 David G Lewis explores the transformation of Russian domestic politics and foreign policy under Vladimir Putin Using contemporary case studies including Russia's legal system the annexation of Crimea and Russian policy in Syria he critically examines Russia's new authoritarian political ideology
