Hiking Maine's 4,000-Footers Doug Dunlap, 2021-04-01 Including Tumbledown Saddleback the Bigelows and of course Katahdin Maine has 14 mountains over 4 000 feet in elevation For hikers it s a shared goal to summit all 14 of them Registered Maine Guide Doug Dunlap has done just that multiple times in fact and he shares his wisdom and experience in this guide Included are detailed directions to trail heads trail routes and difficulty levels what to expect as you hike and other useful information to help you bag them all and have a blast doing it Color maps and photos included [Guide to Narrow Gauge Modeling](#) Tony Koester, This book provides an entry point for any modeler interested in building a narrow gauge layout Narrow gauge railroads remain popular among railfans and modelers due to the spectacular mountain scenery in which many operated Although narrow gauge layouts have a passionate niche following there are very few books on this subject The book is an overview of prototype narrow gauge railroading as well as available models This is a one stop book for introducing modelers to the subject of narrow gauge railroading It explains why and where narrow gauge railroads were built how they operated what their equipment was like and why they were abandoned **Trains** ,1962 *Railfan & Railroad* ,1999 **Railroads** Paul B. Cors,1975 **Best Loop Hikes: New Hampshire's White Mountains to the Maine Coast** , **Missouri and Maine by RV** Jan Young,2009-11-27 I traveled extensively when I was working but like many road warriors never got to see anything but airports and conference rooms So after I retired my wife and I bought a motor home and began a series of extensive trips This book recounts our 2009 travels a short one month trip through central Missouri and a much longer trip through New York and New England and down the east coast to Washington DC with special emphasis on Maine It tells of the sights we saw and the surprises we found both positive and negative It includes several tales of the road and describes some mistakes we made and things we wish we had done better The book provides maps that show where we went and includes over 160 full color photos of our journey It discusses the preparations we made and discloses not only our budget for the trip but the amounts we actually spent And at the back it lists the places we went and the campgrounds we used together with available addresses phone numbers websites and geo coordinates *Adult Catalog: Subjects* Los Angeles County Public Library,1970 **The Publishers' Trade List Annual** ,1980 *More Classic American Railroads* Mike Schafer,2000 A groundbreaking new book that upends our understanding of ancient America Conventional history tells us humans migrated on foot across present day Alaska populating the Americas far later than other continents However emerging new evidence suggests seafarers reached the continents thousands of years earlier and developed far more sophisticated civilizations than previously imagined From distinguished historian BBC World Service Gavin Menzies the author of the blockbuster New York Times bestseller 1421 comes a revolutionary new account of how the first humans came to North and South America Menzies reveals that ancient peoples used the oceans natural currents and prevailing winds to make voyages across both the Atlantic and Pacific What s more we now must accept that they had time to develop

remarkably advanced cultures Armed with cutting edge DNA evidence newly unearthed artifacts and astonishing linguistic and archaeological discoveries Menzies shows humans have been making transoceanic voyages as far back as 100 000 years ago vastly predating the supposed overland migration to the Americas during the last Ice Age the ancient South American civilizations of the Olmec and Maya in Central and South America may have had direct origins and influences from Asia ancient maps held in the Library of Congress in Washington D C show there must have been sustained and dedicated voyages to the Western Hemisphere by Chinese explorers as early as 2200 B C huge Chinese settlements occupied and made exploratory journeys from Nova Scotia Japanese Korean and even earlier European voyages likewise predated the explorations currently recorded by history A maverick scholar Menzies has made a riveting new contribution to the story of humanity s earliest explorers revealing the truth behind one of history s most fascinating questions Who discovered America
