*Painting the Inhabited Landscape* Margaretta M. Lovell, 2023-03-27 The impulse in much nineteenth century American painting and culture was to describe nature as a wilderness on which the young nation might freely inscribe its future the United States as a virgin land that is unploughed unfenced and unpainted Insofar as it exhibited evidence of a past its traces pointed to a geologic or cosmic past not a human one The work of the New England artist Fitz H Lane however was decidedly different In this important study Margaretta Markle Lovell singles out the more modestly scaled explicitly inhabited landscapes of Fitz H Lane and investigates the patrons who supported his career with an eye to understanding how New Englanders thought about their land their economy their history and their links with widely disparate global communities Lane s works depict nature as productive and allied in partnership with humans to create a sustainable balanced political economy What emerges from this close look at Lane s New England is a picture not of a virgin wilderness but of a land deeply resonant with its former uses and a human history that incorporates rather than excludes Native Americans as shapers of land and as agents in that history Calling attention to unexplored dimensions of nineteenth century painting *Painting the Inhabited Landscape* is a major intervention in the scholarship on American art of the period examining how that body of work commented on American culture and informs our understanding of canon formation

Carpenter, 1994 ILLUSTRATED BOOK OF ESSAYS ON THE LIFE AND COLLECTIONS OF JAMES BOWDOIN III      The Law Journal , 1899      Catalogue of the Public Library of Cincinnati Public Library (Cincinnati)., 1871      American Women Modernists Robert Henri, Marian Wardle, Sarah Burns, Brigham Young University. Museum of Art, 2005 The seven essays included in this volume move beyond the famed Ashcan School to recover the lesser known work of Robert Henri's women students The contributors who include well known scholars of art history American studies and cultural studies demonstrate how these women participated in the modernizing of women's roles during this era      *Nation to Nation* Suzan Shown Harjo, 2014-09-30 Nation to Nation explores the promises diplomacy and betrayals involved in treaties and treaty making between the United States government and Native Nations One side sought to own the riches of North America and the other struggled to hold on to traditional homelands and ways of life The book reveals how the ideas of honor fair dealings good faith rule of law and peaceful relations between nations have been tested and challenged in historical and modern times The book consistently demonstrates how and why centuries old treaties remain living relevant documents for both Natives and non Natives in the 21st century
