Mainly Military But Not Entirely Mary Preston Gross,1985-01-01 **Soldiers, Cities, and Civilians in Roman Syria** Nigel Pollard,2000 A study of interaction between the Roman army and the civilian population in Syria and Mesopotamia in the first five centuries A D Balance of Payments Statistics Yearbook, 2007 International Monetary Fund. Statistics Dept.,2007-11-29 The BOPS Yearbook usually published in December contains balance of payments statistics for most of the world compiled in accordance with the IMF s Balance of Payments Manual Part 1 includes aggregate as well as detailed information in the form of analytical and standard component presentations for countries Part 2 provides tables of data featuring area and world totals of balance of payments components and aggregates Part 3 presents descriptions of methodologies compilation practices and data sources used by individual member countries in compiling their balance of payments and international investment position statistics **Stalin's Falcons** Dmitry Zubov,2024-05-31 In this stunning expos Dmitry Zubov reveals the dark truth of the terrible losses suffered by Soviet flyers the inferiority of the Russian aircraft on World War II s Eastern Front and the almost slave like conditions in which those aircraft were made The Soviet history of the Second World War written under the conditions of a totalitarian regime reflected all its features with the result that it includes solid sets of patriotic fables that have no connection with reality Many of the events of the war were distorted beyond recognition or even made up from beginning to end Archives containing original documents were available only to selected specially verified KGB historians who presented only the version of the war that was acceptable to the Soviet regime After the collapse of the Soviet Union the process of declassifying archives and gaining wide access to information gradually began to reveal the terrible truth of the crimes of the Soviet regime One of which of course was the incompetent leadership of the Red Army which led to massive loss of life across the military and civilians alike However the consequences of decades of Soviet propaganda had a strong impact on both Russian and world historical science Because of this not only Russian but unfortunately many European and American historians found themselves repeating the Soviet myths they had been fed The history of Soviet fighter aircraft did not escape this fate The tale of Stalin s so called Falcons who allegedly shot down dozens and even hundreds of Luftwaffe aircraft was persistently drummed into the heads of many generations of Russian people These heroes supposedly flew Soviet fighters whose technical characteristics were many times superior to their German counterparts with the result that Luftwaffe aces were reportedly afraid of meeting them in the air These primitive propaganda clich s became a model for describing the actions of Stalin s fighter aircraft In this stunning expos Stalin s Falcons reveals the stark and dark truth of the terrible losses suffered by Soviet flyers the inferiority of the Russian aircraft and the almost slave like conditions in which those aircraft were made *Sources of Financing the Stages of the Research, Development, and Innovation Cycle in the U.S.S.R.* Louvan E. Parliament. House of Commons,1895 **Ecological Security** Dennis Clark Pirages,Theresa Manley DeGeest,2003-07-28 Global environmental politics has emerged from its initial incarnation in the arena of low politics and is rapidly becoming a high politics concern Concern over water pollution air pollution deforestation and related basic environmental issues is giving way to a broader ecological security agenda In this pathbreaking book Dennis Clark Pirages and Theresa Manley DeGeest argue for dramatically broadening the context in which security priorities are established in an age of increasing globalization Addressing the very fundamental question of the sources of premature human deaths and associated insecurity both historically and in the contemporary world the authors observe that in the twentieth century starvation killed nearly as many people as did military conflict But disease was responsible for killing nearly fourteen times as many people as was warfare And in the contemporary world of the twenty first century environmental terrorism and biological warfare are blurring the traditional distinctions between natural disasters accidental deaths and military casualties Ecological Security moves the analysis of global environmental and resource issues to the next level by developing an eco evolutionary perspective for analyzing emerging problems associated with rapid globalization Preserving future ecological security will depend upon maintaining dynamic equilibriums among

human populations and between them and pathogenic microorganisms other species and the sustaining capabilities of nature This eco evolutionary framework is used to anticipate and analyze emerging demographic ecological and technological discontinuities and dilemmas associated with rapid globalization The authors conclude by stressing the need for new kinds of global public goods to mitigate the harshest impacts of these rapid and interrelated changes *Ethnic and Racial Minorities in the U.S. Military* Alexander M.
