

A black metal spiral spring, also known as a coil spring, is shown against a white background. The spring is made of a dark, possibly black-painted, metal wire. It is tightly coiled in a regular, helical pattern, forming a long, cylindrical shape. The coils are closely spaced and uniform in size. The spring is oriented diagonally from the top-left towards the bottom-right of the frame. A faint, semi-transparent watermark with the text "A1tackles" is visible across the middle of the image, partially overlapping the spring.
