Maintaining Long Distance Cross Reside:

Maintaining Long-Distance and Cross-Residential Relationships Laura Stafford, 2004-12-13 This thought provoking volume offers an innovative and intriguing approach to the study of long distance relationships Author Laura Stafford examines romantic long distance relationships and then expands the conception of long distance relationships to include other relational types She summarizes literature across the social sciences on various types of long distance relationships and extracts themes and patterns across the relational types In so doing she reconsiders approaches to and offers an expanded vision of relational maintenance By expanding her scope beyond romantic relationships Stafford includes those that span residences and relational types such as noncustodial parent child and geographically and residentially separated adult children and parents She contends that face to face interaction is not necessary to maintain healthy relationships and questions the assumption that maintaining rather than terminating a particular relationship is always best for the involved parties With its interdisciplinary approach to challenging commonly held assumptions about communication and close relationships *Maintaining Long Distance and Cross Residential Relationships* will be engaging reading for scholars in communication psychology sociology mass communication and family studies It is also appropriate for special topics graduate courses on long distance relationships and human communication and will serve as a unique supplemental text for upper level undergraduate and graduate students in interpersonal relational and family communication and family studies

examines the prevalence of this lifestyle the demographics of people who live apart their reasons for doing so and how these individuals manage finances care during illness and many other aspects of family life She focuses in particular detail on three key demographics women gay men and the elderly and how individuals from these groups engage in LAT behavior She finds that while these living arrangements are more common than previously believed there are virtually no legal protections for the people involved Bowman concludes by proposing a number of legal reforms to support the caregiving functions LAT partners perform for each other Living Apart Together makes an important case for formal recognition of this growing but largely overlooked family structure

Living Together Across Borders Lynnette Arnold, 2024 In *Living Together Across Borders* author Lynnette Arnold tells the stories of extended families living stretched between a rural Salvadoran village and the urban locations in the United States where their migrant relatives live In this multi sited ethnography Arnold examines seemingly mundane conversational practices such as sending greetings negotiating remittances and reminiscing together that are central to family life across borders Arnold underscores the consequentiality of these linguistic practices by tracing how they are shaped by and re shape gendered and generational norms of family care as well as how they are tied to Salvadoran histories of migration violence and poverty which are powerfully influenced by U S economic and foreign policy

This book demonstrates that these communicative practices bring inequities between the global North and South into family life by continually reproducing distinctions between relatives in El Salvador and those living in the United States Conversely she examines seemingly mundane interactions including greetings remittance negotiations and reminiscing together Although these relational moments of cross border connection are fleeting their impacts endure laying the foundation for the ongoing material and economic provisioning necessary to family survival Through cross border conversations families nurture intergenerational relations that sustain the family and convivencia living together over the years despite ongoing separation
