The Science and Practice of Stuttering Treatment

Suzana Jelcic Jaksic,Mark Onslow,2012-06-07 The Science and Practice of Stuttering Treatment A Symposium is a comprehensive resource for practitioners and researchers that spans the scientific basis and clinical management of stutters in people of all ages from preschoolers to adults Written by an international team of clinical and research leaders in the field of speech and language pathology as well as scientists from the fields of epidemiology and neurology the book offers a truly comprehensive coverage of contemporary stuttering management Each chapter provides information on the Theoretical Basis of the Treatment Outline of the Treatment Scientific Evidence for the Treatment Advantages and Disadvantages of the Treatment Planned Future Empirical Development and conclude with an in depth critical review This book is a must have resource for speech and language pathologists researchers and educators worldwide FEATURES Offers a rigorous critical review of each treatment Written by leading international experts in the field Completely up to date with the latest clinical and scientific research This book is the output from the Research Symposium held in Croatia in 2010 This text is unusual in that it not only reflects the content of the Symposium presentations but also reports the discussion that the presentations generated The

discussions that ensued were recorded and transcribed The consistent organisation of each paper in the collection allows the reader to quickly access the critical information and to make direct comparisons across therapies and provides the reader with a comprehensive overview of a variety of speech restructuring programs The advantages disadvantages and the discussion sections in each chapter help the reader with appraisal of the material presented and to make some judgements about generality and value The reader feels exposed to the atmosphere and dynamics of the Symposium in a way that is rarely captured outside the conference auditorium A review from Sharon Millard PhD MRCSLT Research Lead and Expert Speech and Language Therapist The Michael Palin Centre Whittington Health London UK *Theoretical Linguistics and Disordered Language (RLE Linguistics B: Grammar)* Martin Ball,2014-01-10 The rapid increase of interest in disordered speech and language among linguists over the past decade or so has resulted in many books of practical help to speech pathologists in terms of assessment and remediation Little however has appeared to examine the theoretical implications of the interaction between these two fields This book aims to fill this gap by showing how speech pathology can inform linguistic theory and vice versa **Practitioner's Guide to Evidence-Based Psychotherapy** Jane E. Fisher,William O'Donohue,2006-11-24 This book is to help clinical psychologists clinical social workers psychiatrists and counselors achieve the maximum in service to their clients Designed to bring ready answers from scientific data to real life practice The guide is an accessible authoritative reference for today s clinician There are solid guidelines for what to rule out what works what doesn t work and what can be improved for a wide range of mental health problems It is organized alphabetically for quick reference and distills vast amounts of proven knowledge and strategies into a user friendly hands on reference

Stuttering Joseph S. Kalinowski,Tim Saltuklaroglu,2005-11 This textbook presents a new paradigm for understanding the nature and treatment of stuttering based on recent discoveries in neuroscience The authors illustrate how visible stuttering manifestations are actually a solution to a central problem acting as a compensatory mechanism for a central involuntary block rather than a problem in themselves This book features methods that reduce stuttering by inhibiting this central block through the use of sensory and motor tools notably mirror neurons and shows readers that stuttering is not a condition that can be effortlessly trained out of the system or eliminated via simple speech retraining *Current Catalog National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70* **A Handbook on Stuttering** Oliver Bloodstein,1995 A Handbook On Stuttering was written to guide the reader to the edge of our knowledge about stuttering and where the edge is not well defined to point out where the footing is insecure and where we stand on solid ground Dr Bloodstein continues to produce a manual that is at once thorough and enjoyable to read for both the fledgling clinician and the seasoned pro Knotted Tongues Benson Bobrick,2011-01-11 A former stutterer Benson Bobrick here offers his perspective on the condition as well as an interesting history of how physicians have treated it Stuttering or stammering the terms are interchangeable clinically occurs four times more frequently in males and ranges from mild

hesitation in speech to severe disability Hot irons were applied to stutterers lips in the Middle Ages and in the mid 19th century risky tongue operations were performed in failed attempts to effect a cure Bobrick discusses famous stutterers Charles Darwin Henry James Winston Churchill and Jimmy Stewart and he describes the adverse impact of their condition on their lives In this century psychological trauma has often been cited as the cause of stuttering but recent evidence points to a genetic disorder involving a disturbed auditory function Therapeutic practices differ but the author credits a voice feedback system with bringing his condition under control *Approaches to the Treatment of Stuttering* Peggy Dalton,2018-10-26 In the years prior to publication cures for stuttering seemed to appear constantly but many were of limited value were poorly evaluated and gave only a temporary alleviation that was not transferred to daily life More responsible clinicians produced publications expounding one particular approach to therapy but less was available giving a balanced overview which was of practical help to therapists Originally published in 1983 this book aimed to provide such an overview with a focus on practical intervention rather than on theory The need for careful assessment is particularly stressed and also the need for flexibility in the choice of treatment for any one client Changes in fluency are looked at in relation to the effects they might have on the person s life as a whole and factors involved in the maintenance of this change are discussed In addition adjuncts to speech therapy such as drugs hypnosis and various forms of masking are evaluated Issues of the training of therapists are raised and suggestions made as to the nature of the therapeutic relationship when working with people who stutter

Techniques of Stuttering Therapy Richard Ham,1986 **Journal of Speech-language Pathology and Audiology**,1989 *Linguistic Analysis*,1980 A research journal devoted to the publication of high quality articles in formal syntax semantics and phonology **Stuttering Intervention** David Allen Shapiro,1999 **Stuttering Therapy**,1983 This volume contains six papers presented by speech therapists at a conference dealing with principles and procedures that are crucial to transfer and maintenance of the modification of stuttering and the production of increased fluency E G Conture in The General Problem of Change addresses some of the general issues which affect the transfer of speech improvement skills learned during speech therapy to speech incidents outside of the therapeutic environment In Working with Children in the School Environment D E Williams considers ways to accomplish and some of the problems associated with transfer and maintenance in stuttering therapy for elementary school aged children The third paper Behavioral Transfer and Maintenance Programs for Adolescent and Adult Stutterers by E Boberg discusses the rationale and strategies used in transfer and maintenance programs for adults and adolescents An Alternative to Automatic Fluency by W H Perkins considers the question of automaticity of fluent speech and whether it can be achieved and maintained through speech therapy In Body Concept Self Concept and Balance E Versteegh Vermeij encourages the added dimension of body awareness individual needs and self concept development in speech therapy programs J G Sheehan Relapse and Recovery from Stuttering identifies sources and causes of relapse in stuttering and ways in which to make these factors work in favor of the stutterer A
