Wells, 2022-11-03 Charles Wells wrote this book to provide the reader especially young people who were not yet born insight
into the deceptive tactics and political games used by White Southern politicians and business leaders to keep minority
communities economically depressed After the 1965 Civil Rights Voting Act was passed Black civil rights activists and
business leaders began a very aggressive campaign to improve conditions in minority communities As the tactics being used
by Black leaders around the country became more vocal and aggressive President Nixon knew that White Southern
politicians would resist any effort to provide economic aid to Black people and other minorities Nixon's program that he
called Black Capitalism was designed to provide tax breaks and incentives for rich White developers not economic justice
These developers used these incentives and tax breaks to build upscale projects that the residents could not afford Black
leaders complaints fell on deaf ears of the officials that Nixon put in charge of the programs such as Commerce Secretary
Stans who was against the program from the start The Black Capitalism program was doomed to failure for two main reasons
It was underfunded from the very beginning The Minority Enterprise Small Business Investment Corporation MESBIC phase
of the program was rack with fraud and poor selection of candidates for the program The MESBIC part of the program also
failed because of several factors The program was under capitalize many minority businesses avoided the program and some
White businesses set up phony minority forms to take advantage of the funding They would set up a company and make a
Black person CEO and if things went bad the Black person would be the one to go to jail It is the opinion of this author that
the program was designed to fail Nixon knew how to fool Black leaders while keeping White Southern support It is important
