New Crusades The New Holy Land:

The New Crusades, the New Holy Land David T. Morgan, 1996 Examines the conflict between modern day Southern Baptists and liberal Southern Baptists over control of the Southern Baptist Convention David Morgan captures the essence of the conflict between some modern day Southern Baptists who saw themselves as crusaders for truth as they sought to redeem a new holy land the Southern Baptist Convention from the control of other Southern Baptists they viewed as liberals To the so called liberals the crusaders were fundamentalists on a mission not to reclaim the SBC in the name of theological truth but to gain control and redirect its activities according to their narrow political social and theological perspectives The New Crusades provides a comprehensive history of the conflict taking the reader through the bitter and divisive struggles of the late 1980s that culminated in the 1991 emergence of a moderate faction within the SBC The fundamentalists had won

Politics and Religion in the White South Glenn Feldman,2005-09-30 Politics while always an integral part of the daily life in the South took on a new level of importance after the Civil War Today political strategists view the South as an essential region to cultivate if political hopefuls are to have a chance of winning elections at the national level Although operating within the context of a secular government American politics is decidedly marked by a Christian influence In the mostly Protestant South religion and politics have long been nearly inextricable Politics and Religion in the White South skillfully examines the powerful role that religious considerations and influence have played in American political discourse This collection of thirteen essays from prominent historians and political scientists explores the intersection in the South of religion politics race relations and southern culture from post Civil War America to the present when the Religious Right has exercised a profound impact on the course of politics in the region as well as the nation The authors examine issues such as religious attitudes about race on the Jim Crow South Billy Graham s influence on the civil rights movement political activism and the Southern Baptist Convention and Dorothy Tilly a white Methodist woman and her contributions as a civil rights reformer during the 1940s and 1950s The volume also considers the issue of whether southerners felt it was their sacred duty to prevent American society from moving away from its Christian origins toward a new secular identity and how this perceived God given responsibility was reflected in the work of southern political and church leaders By analyzing the vital relationship between religion and politics in the region where their connection is strongest and most evident Politics and Religion in the White South offers insight into the conservatism of the South and the role that religion has played in maintaining its social and cultural traditionalism

God's Own Party Daniel K. Williams,2012-07-12 In God s Own Party Daniel K Williams presents the first comprehensive history of the Christian Right uncovering how evangelicals came to see the Republican Party as the vehicle through which they could reclaim America as a Christian nation

Gloryland H. B. Cavalcanti,2007-10-30 Christian conservatism has changed drastically in the last 25 years From the working class faith of small autonomous rural churches or storefront sanctuaries to the megachurches of the suburbs and the halls of power Congress and the White House the faith is no longer at the margins of American religion Rather it is a dominant force in the American public square For the first time in its history Christian conservatism boasts an expanded network of born again clubs and services that closely follow secular trends in the American consumer market A veritable Christian suburbia has been created that parallels its secular counterpart This Christian conservative co optation of suburbia is unprecedented in the history of the movement Their embrace of modernity and middle class lifestyle is a stark contrast to Christian conservatives who avoided engaging with

modernity earlier in the 20th century How did conservative Christianity change and how is this change affecting its relationship with the larger society Influenced by middle class values power and education Christian conservatism has opted to engage with modern political life allying itself with the Republican Party and developing an extensive political agenda of its own This book documents the transformation of Christian conservatism into a middle class faith and argues that the changes experienced by Christian conservatism are part of a larger religious realignment in American Christianity

Conservative Christianity once home primarily to working class religious communities greatly benefited from the migration of conservative Christians from other denominations as a result of the 1960s Cultural Revolution The final goal of the movement is of course the creation of a biblically based society one whose laws are defined by a conservative reading of the Scriptures and whose public mores are more akin to its newly gained middle class status The push to restore a Christian America raises questions about the conservative Christian faith Cavalcanti answers those questions as he traces the growth of the movement and its goals

North American Foreign Missions, 1810-1914 Wilbert R. Shenk, 2004 The year 1810 marks the start of the North American foreign missions movement a movement begun with typical American enthusiasm and vigor but in need of practical grounding This volume explores important facets of the development of North American foreign missions paying particular attention to the role agencies like the American Board of Commissioners for Foreign Missions ABCFM played in shaping the theology theory and policy of evangelistic activities overseas Written by leading experts on missions and religious history this volume is distinguished by its focus on key events taking place at the home base rather than on happenings in the foreign mission field In doing so these insightful studies shed light on important yet neglected topics including the impact of debates about slavery on foreign missions the emergence of distinctive mission strategies for women the role of the social gospel as a missionary ideology and the contribution of foreign missions to the creation of a global evangelical network Contributors Alvyn Austin Ruth Compton Brouwer Wendy J Diechmann Edwards Janet F Fishburn Paul Harris David W Kling Charles A Maxfield III Susan Wilds McArver John F Piper Jr Dana L Robert Richard Lee Rogers Wilbert R Shenk Carol Ann Vaughn

This excellent volume will command widespread attention not only for its display of scholarly expertise but for the fresh and revealing light it throws on the principal landmarks and major themes in the history of missionary expansion overseas

Faith and War David E. Settje, 2011 Throughout American history Christianity has shaped public opinion guided leaders in their decision making and stood at the center of countless issues To gain complete knowledge of an era historians must investigate the religious context of what transpired why it happened and how Yet too little is known about American Christianity's foreign policy opinions during the Cold and Vietnam Wars To gain a deeper understanding of this period 1964-75 David E Settje explores the diversity of American Christian responses to the Cold and Vietnam Wars to determine how Americans engaged in debates about foreign policy based on their theological convictions Settje uncovers how specific Christian theologies and histories influenced American

religious responses to international affairs which varied considerably. Scrutinizing such sources as the evangelical Christianity Today, the mainline Protestant Christian Century, a sampling of Catholic periodicals, the African Methodist Episcopal Church, the Southern Baptist Convention, and the United Church of Christ, Faith and War explores these entities' commingling of religion, politics, and foreign policy, illuminating the roles that Christianity attempted to play in both reflecting and shaping American foreign policy opinions during a decade in which global matters affected Americans daily and profoundly.

Sketches of Universal History, Sacred and Profane, from the Creation of the World to the Present Time Frederick Butler, 1823 **Sketches of Universal History, Sacred and Profane, from the Creation of the World, to the Year 1818 of the Christian Era** Frederick Butler, 1819 **First to the Party** Christopher Baylor, 2018

What determines the interests, ideologies, and alliances that make up political parties? In its entire history, the United States has had only a handful of party transformations. *First to the Party* concludes that groups like unions and churches, not voters or politicians, are the most consistent influences on party transformation.

The Future of Baptist Higher Education Donald D. Schmeltekopf, Dianna M. Vitanza, 2006

The Future of Baptist Higher Education investigates four key issues that inform Baptist efforts at higher education: the denominational conflict that has afflicted Baptists since the 1980s, the secularization of higher education in America, the dominance of the market-driven tendencies in American higher education today, and the meaning of Christian higher education, but more specifically the meaning of Baptist higher education. This volume clearly illustrates that the meaning of Baptist and Christian higher education, as with the Christian life itself, is far more complex than any one imperial interpretation.

Preaching the Crusades Christoph T. Maier, 1994

This study describes the way in which the Franciscan and Dominican orders became involved in preaching the cross and examines their contribution to the crusading movement of the thirteenth century.

The Evangelicals Robert Krapohl, Charles H. Lippy, 1999-04-30

The different facets of American religious life are more thoroughly understood with an awareness of the Evangelical heritage that intersects the different denominational boundaries. Since Evangelicalism is not confined to one religious denomination or group, it has associations with a number of American religious movements such as Fundamentalism, Pentecostalism, the Charismatic Movement, and Revivalism. This study, modeled after the popular *Greenwood Denominations in America* series, analyzes the people, institutions, and the religious culture of modern American Evangelicals. Divided into three sections, the book presents a history of American Evangelicalism, discusses themes and issues in modern American Evangelicalism, and provides a biographical dictionary of modern American Evangelical leaders. The combination of critical narrative and reference will appeal to religion scholars and American culture scholars alike. Separate bibliographies, unique to the history section and to the themes and issues section, provide valuable resources for further research. Equally helpful is the bibliographic material that completes each entry in the biographical dictionary section of the book. The three-part organization makes this an accessible research tool, clearly organized for easy cross-referencing.

America's Religions

Peter W. Williams, 2008 A panoramic introduction to religion in America newly revised and updated **Sketches of Universal History** Frederick Butler, 1821 *James Robinson Graves* James A. Patterson, 2012-02-01 James Robinson Graves 1820 1893 is known for firmly believing that Baptists of his day needed clearly distinct markers in order to preserve a meaningful denominational identity The founder of Landmarkism his theology emphasized church succession an unbroken trail of authentic congregations dating back to the New Testament the local church rather than the idea of a universal Body of Christ and strict baptism guidelines In this first biography of Graves in more than eighty years author James A Patterson portrays the man as bold and brash A native of Vermont who moved south to Nashville in 1845 the self educated preacher and budding journalist would become a combative defender of the Baptist cause engaging in public controversy with Methodists Restorationists and even fellow Baptists Ultimately Graves sought to influence the direction of the Southern Baptist Convention in its formative period and was the primary shaper of the Tennessee Tradition now considered a key strand of Southern Baptist life and identity By focusing on Graves s understanding of essential Baptist boundary markers this book assesses the strengths and weaknesses of the Landmark legacy It concludes with an epilogue that discusses the enduring influence of his ideas in the decades after his death **Authority Vested** Mary Todd, 2000 Like other major Protestant denominations in the United States the 2.6 million member Luther Church Missouri Synod LCMS founded in 1847 has struggled with issues of relevance and identity in society at large In this book Mary Todd chronicles the history of this struggle for identity in the LCMS critically examining the central often contentious issue of authority in relation to Scripture ministry and the role of women in the church In recounting the history of the denomination Todd uses the ministry of women as a case study to show how the LCMS has continually redefined its concept of authority in order to maintain its own historic identity Based on oral histories and solid archival research *Authority Vested* not only explores the internal life of a significant denomination but also offers critical insights for other churches seeking to maintain their Christian distinctives in religiously pluralistic America
