

The background of the book cover is a sepia-toned photograph. It depicts a large, stylized sculpture of a man's head, wearing a military-style cap, positioned in a barren, hilly landscape. A group of people, some appearing to be children, are gathered around the base of the sculpture. The overall mood is somber and historical.

A NEW INTERNATIONAL HISTORY OF THE SPANISH CIVIL WAR

Second Edition

Michael Alpert

New International History Of The Spanish Civil War

Michael Alpert

New International History Of The Spanish Civil War:

A New International History of the Spanish Civil War Michael Alpert, 1994-06-28 a lucid and scholarly account of an important and immensely complex subject Dr Alpert's command of a broad range of archival material printed documents and secondary works in six languages is extremely impressive P Preston London School of Economics and Political Science It is now twenty years since a study was dedicated to the international aspects of the Spanish Civil War and this new synthesis covering the whole of the era and setting it against major events of the late 1930s is well overdue Michael Alpert takes full advantage of newly accessible archival sources to disentangle the intricacies of this complex issue

A New International History of the Spanish Civil War M. Alpert, 2004-01-12 Michael Alpert's study of the Spanish Civil War is dedicated to the international aspects of the conflict and covers the whole era setting the action in Spain against major events throughout the world of the 1930s Since the first edition of this book new archival material has become available and this fully revised edition includes the latest research on the Spanish Civil War This contextual approach to the Spanish Civil War offers insights into the study of this conflict

The International Context of the Spanish Civil War Gaynor Johnson, 2009-03-26 This book which consists of essays by leading scholars in the field of twentieth century international history examines the wider context of one of the most bitter and bloody civil wars in European history the Spanish Civil War The chapters discuss all of the major debates that surround the ideological and political context of the war including the extent to which it could be regarded as a dress rehearsal for the Second World War The book also debates the nature of civil war in the twentieth century and as such will be of interest to military and international historians as well as to historians of the history of ideas

FDR and the Spanish Civil War Dominic Tierney, 2007-07-02 Provides new understanding of Franklin Roosevelt's involvement in the Spanish Civil War claiming that he was activist and pro Loyalist

The Routledge Companion to World History since 1914 Chris Cook, John Stevenson, 2006-01-27 The Routledge Companion to World History since 1914 is an outstanding compendium of facts and figures on World History Fully up to date reliable and clear this volume is the indispensable source of information on a thorough range of topics such as the Arab Israeli conflict anti semitism and the Holocaust all the world's major famines and natural disasters since 1914 whether all countries of the world have a king president prime minister or other governance GNP of the world's major states year by year biographies of key figures civil rights movements the Vietnam War the rise of terrorism globalization Thematically presented the book covers topics relevant from the First World War to the Iraq war of 2003 and from post colonial Africa to conflicts and movements in Southeast Asia With maps chronologies and full bibliography this user friendly reference work is the essential companion for students of history politics and international relations and for all those with an interest in world history

Franco and the Condor Legion Michael Alpert, 2019-06-27 The Spanish Civil War was fought on land and at sea but also in an age of great interest in air warfare and the rapid development of warplanes The war in Spain came a turning point in the development of military

aircraft and was the arena in which new techniques of air war were rehearsed including high speed dogfights attacks on ships bombing of civilian areas and tactical air ground cooperation At the heart of the air war were the Condor Legion a unit composed of military personnel from Hitler s Germany who fought for Franco s Nationalists in Spain In this book Michael Alpert provides the first study in English of the Spanish Civil War in the air He describes and analyses the intervention of German Italian and Soviet aircraft in the Spanish conflict as well as the supply of aircraft in general and the role of volunteer and mercenary airmen His book provides new perspectives on the air war in Spain the precedents set for World War II and the possible lessons learnt

Stalin's Agent Boris Volodarsky,2015 This is the true story behind General Alexander Orlov the man who never was now revealed in full for the first time Stalinist henchman Soviet spy celebrated defector to the West and central character in the greatest KGB deception ever

The Spanish Civil War, the Soviet Union, and Communism Stanley G. Payne,2008-10-01 In this compelling book Stanley G Payne offers the first comprehensive narrative of Soviet and Communist intervention in the revolution and civil war in Spain He documents in unprecedented detail Soviet strategies Comintern activities and the role of the Communist party in Spain from the early 1930s to the end of the civil war in 1939 Drawing on a very broad range of Soviet and Spanish primary sources including many only recently available Payne changes our understanding of Soviet and Communist intentions in Spain of Stalin s decision to intervene in the Spanish war of the widely accepted characterization of the conflict as the struggle of fascism against democracy and of the claim that Spain s war constituted the opening round of World War II The author arrives at a new view of the Spanish Civil War and concludes not only that the Democratic Republic had many undemocratic components but also that the position of the Communist party was by no means counterrevolutionary

Anti-Leftist Politics in Modern World History Philip B. Minehan,2021-11-04 Systemic and political hostility against the left real and contrived has been a key yet under recognized aspect of the history of the modern world for the past two hundred years By the 1820s the new exploitative and destabilizing character of capitalist industrial production and its accompanying market liberalizations began creating necessities among the working classes and their allies for the new self protective politics of socialism But it is evident that for the new economic system to sustain itself such oppositional politics that it necessitated had to be undermined if not destroyed by whatever means necessary Through the imperialism of the later 19th century and with significant variations this complex and often highly destructive dialectical syndrome expanded worldwide Liberals conservatives extreme nationalists fascists racists and others have all repeatedly come aggressively and violently into play against socialist oppositions In this book Philip Minehan traces the patterns of such hostility and presents numerous crucial examples of it from Britain France Germany and the United States the British in India European fascism the United States and Britain as they operated in China and Indochina from Kenya Algeria and Iran and from Central and South America during the Cold War In the final chapters Minehan addresses the post Cold War US led triumphalist wars in the Middle East the ensuing refugee crises neo fascism and anti

environmentalist politics to show the ways that the syndrome within which anti leftist antagonism emerges in its neoliberal phase since the 1970s remains as self destructive and dangerous as ever **Americans in a World at War** Brooke L. Blower,2023 Americans in a World at War tells the panoramic and often surprising story of seven worldly Americans their personal histories their politics and the paths that led them to board a Pan American Airways seaplane bound for Lisbon in February 1943 When the Yankee Clipper crashed in the Tagus River it took numerous lives but left a paper trail that leads to a richer deeper understanding of Americans diverse global commitments during the first half of the twentieth century as well as how the Second World War would transform those engagements *Scots and the Spanish Civil War* Raeburn Fraser Raeburn,2020-09-25 Few causes before or since have inspired such passion determination and sacrifice than the Spanish Civil War 1936 9 This book explores the many ways in which Scots responded to the war in Spain covering the activists and humanitarians who raised funds and awareness at home as well as the hundreds of Scots who journeyed to Spain to fight as part of the International Brigades Their stories reflect much larger narratives of the rise of European fascism the networks and cultures of international communism and the wider modern phenomenon of transnational foreign fighters Scots and the Spanish Civil War is a groundbreaking study of Scottish involvement in one of the 20th century s most famous and divisive conflicts drawing on newly declassified government documents and international archives in Spain and beyond As well as shedding new light on Scottish politics in the 1930s Fraser Raeburn argues that this case study part of the largest wave of foreign war volunteering in the 20th century can help us understand other such mobilisations past and present **The Roots and Consequences of Civil Wars and Revolutions** Spencer C. Tucker,2017-02-16 This book treats 30 important civil wars and revolutions across the world including Africa Asia the Americas Europe and the Middle East covering a broad swath of recorded history from ancient times to the present Human history as a whole results from social changes technological advances and evolutions in thinking and religion all of which often lead to wars and conflicts Behind each major war are myriad interrelated causes This book examines 30 of the most significant civil wars and revolutions in recorded history from ancient times to the modern era identifying the origins consequences and subtle impacts of many of these conflicts that are still being felt today A comprehensive overview essay as well as explanations of the causes and consequences of each conflict give readers the context needed to understand the importance of these seminal events Additional learning tools include a detailed timeline that sets all of the key events in the conflict in the proper context maps of several of the key battles that help readers visualize the strategies of both sides and a lengthy bibliography that offers a wealth of options to students looking to investigate any of the conflicts further **Anti-Colonialism and the Crises of Interwar Fascism** Michael Ortiz,2023-01-12 What is fascism Is it an anomaly in the history of modern Europe Or its culmination In Anti Colonialism and the Crises of Interwar Fascism Michael Ortiz makes the case that fascism should be understood in part as an imperial phenomenon He contends that the Age of Appeasement 1935 1939 was not a titanic clash

between rival socio political systems fascism and democracy but rather an imperial contest between satisfied and unsatisfied empires Historians have long debated the extent to which Western imperialisms served as ideological and intellectual precursors to European fascisms To date this scholarship has largely employed an inside out methodology that examines the imperial discourses that pushed fascist regimes outward into Africa Asia and the Americas While effective such approaches tend to ignore the ways in which these places and their inhabitants understood European fascisms Addressing this imbalance Anti Colonialism adopts an outside in approach that analyses fascist expansion from the perspective of Indian anti colonialists such as Jawaharlal Nehru Subhas Bose and Mohandas Gandhi Seen from India the crises of Interwar fascism the Second Italo Ethiopian War Spanish Civil War Second Sino Japanese War Munich Agreement and the outbreak of the Second World War were yet another eruption of imperial expansion analogous although not identical to the Scramble for Africa and the Treaty of Versailles Whether fascist democratic or imperialist Europe s great powers collectively negotiated the fate of smaller nations

The Spanish Civil War George R. Esenwein, 2005-11-16 This exciting collection of primary sources on the Spanish Civil War uses military and political documents media accounts and contemporary propaganda to create a representative and illuminating survey of this enormously complicated event more than sixty five years after it ended Structured chronologically from a full introduction which delineates the field this book ranges from the origins of the uprising against Franco through to its turbulent aftermath It clearly outlines key points in the conflict and highlights the little known roles of race and gender in determining the war s outcome The book also unearths many rare sources for the first time and reveals the variety of perspectives held by those immediately involved in the war This is an ideal resource for all students of history and military history

Transnational Soldiers N. Arielli, B. Collins, 2012-11-28 Warfare in the modern era has often been described in terms of national armies fighting national wars This volume challenges the view by examining transnational aspects of military mobilization from the eighteenth century to the present Truly global in scope it offers an alternative way of reading the military history of the last 250 years

Anglo-American Hispanists and the Spanish Civil War S. Faber, 2008-08-04 In this book Faber assesses the long term impact of the Spanish Civil War on Hispanic Studies as an academic field in the United States and Great Britain Combining institutional history with biography the book gives a compelling account of the dilemmas that the war posed for four Hispanists who turned their love of Spain into their life s work

Eyes of the World Marc Aronson, Marina Budhos, 2017-03-28 Packed with dramatic photos posters and maps this compelling book captures the fascinating story of photojournalism in modern times

Quest for Decisive Victory Robert M. Citino, 2002-06-17 Since the earliest days of warfare military operations have followed a predictable formula after a decisive battle an army must pursue the enemy and destroy its organization in order to achieve a victorious campaign But by the mid nineteenth century the emergence of massive armies and advanced weaponry and the concomitant decline in the effectiveness of cavalry had diminished the practicality of pursuit producing campaigns that bogged down short of decisive victory Great battles had

become curiously indecisive decisive campaigns virtually impossible At the beginning of the twentieth century the inability to achieve decisive victories in warfare had become the single greatest military problem facing modern armies Robert Citino now tells how European military leaders analyzed and eventually overcame this problem by restoring pursuit to its rightful place in combat and resurrecting the possibility of decisive warfare on the operational level *Quest for Decisive Victory* chronicles the evolution of European warfare during the first half of the twentieth century A study of war at the operational level it demonstrates the interplay and tension between technology and doctrine in warfare and reveals how problems surrounding mobility including such factors as supply lines command and control and prewar campaign planning forced armies to find new ways of fighting Citino focuses on key campaigns of both major and minor conflicts Minor wars before 1914 Boer Russo Japanese and the Balkan Wars of 1912 13 featured instructive examples of operational maneuver the First World War witnessed the collapse of operations and the rise of attrition warfare the Italo Ethiopian and Spanish Civil Wars held some promise for breaking out of stalemate by incorporating such innovations as air and tank warfare Ultimately it was Germany's opening blitzkrieg of World War II that resurrected the decisive campaign as an operational possibility By grafting new technologies tanks aircraft and radio onto a long tradition of maneuver warfare the Wehrmacht won decisive victories in the first year of the war and in the process transformed modern military doctrine Citino's study is important for shifting the focus from military theory and doctrine to detailed operational analyses of actual campaigns that formed the basis for the revival of military doctrine *Quest for Decisive Victory* gives scholars of military history a better grasp of that elusive concept and a more complete understanding of modern warfare *International History of the Twentieth Century and Beyond*

Antony Best, Jussi M. Hanhimäki, Joseph A. Maiolo, Kirsten E. Schulze, 2024-09-03 Now in its fourth edition this highly successful global history of the twentieth century is written by four prominent international historians for first year undergraduate level and upward Using their thematic and regional expertise the authors have produced an authoritative yet accessible and seamless account of the history of international relations in the last century covering events in Europe Asia the Middle East Africa and the Americas They focus on the history of relations between states and on the broad ideological economic and cultural forces that have influenced the evolution of international politics over the last 120 years The fourth edition is thoroughly updated to take account of the most recent research and global developments including new material on the impact of the Trump administration on international politics the rise of China under the leadership of Xi Jinping and the origins of the wars in Ukraine and Gaza The book is supported by a fully revised companion website including links to further resources and self testing material which can be found at www.routledgelearning.com/internationalhistory20c

Revolutionary Armies in the Modern Era S.P. Mackenzie, 2013-01-11 This presents a major re evaluation of the standard view of revolutionary armies the range of attitudes towards the role of heroic individuals the formation and leadership of armies and the differences and similarities between such armies Beginning with an exploration of the New Model Army of the

1640s a force whose name itself seems to denote its revolutionary credentials the author presents ten case studies from around the globe including the American War of Independence The French Revolution The Zulu Boer War the Waffen SS and the Viet Cong Through a detailed analysis of source material he examines the images connected with these armies both historical and recent and assesses these images in their socio political and nationalist contexts
