Noble Spud:

The Noble Spud Judy Wells, Rick Johnson, 1985 *American Potato Journal* ,1928 Notes of a Potato Watcher James Lang, 2001 Native to the New World the potato was domesticated by Andean farmers probably in the Lake Titicaca basin almost as early as grain crops were cultivated in the Near East Full of essential vitamins and energy giving starch the potato has proved a valuable world resource Curious Spaniards took the potato back to Europe from whence it spread worldwide Today the largest potato producer is China with India not far behind To tell the potato s story Lang has done fieldwork in South America Asia and Africa Jacket **The Big Happy** David Chadwick, 2025-08-28 Fictional detective Miranda Miller is brought to life in the far future to catch Family Guy a sadistic serial killer who is terrorising the three federations ruling the planet Her investigation starts in Las Vegas England a facsimile of the American original but with a dismal climate It is part of PopRep a faddish culture that idolises Donald Trump as the father of populism While there Miller speaks IngoLingo a dumbed down street slang to blend in with the locals On leaving PopRep she is elated to speak ordinary English again Her joy ends though when she reaches Rio de Jerusalem capital of Trumpia a brutally misogynistic theocracy where the Donald is deified Despite Miller s expectations Trumpia and PopRep are constantly at war each accusing the other of misrepresenting the Orange One Finally Miller tracks Family Guy to Paris on Euphrates in Scientia a high minded liberal meritocracy where everyone has the vote but some more than others and oligarchs by a factor of fifty million Something else bothers Miller Why do radical leftists revere Adolf Hitler As she chases down her quarry Miller realises he is much closer to home and the seat of power than she could ever have imagined Tudor school-boy life: the dialogues of Juan Luis Vives Juan Luis Vives, 2019-12-11 In Tudor School Boy Life The Dialogues of Juan Luis Vives the esteemed Renaissance humanist Juan Luis Vives presents a fascinating exploration of the educational practices and moral philosophies of Tudor England Through a series of dialogues Vives artfully examines the intellectual and social dimensions of youthful education reflecting the broader humanist movement that emphasized learning as a vehicle for personal and societal betterment His literary style marked by clarity and wit invites readers into the bustling life of Tudor schools uncovering the relationship between pedagogy and character development while mingling literary tradition with the newly emerging ideas of a more empirical approach to education Juan Luis Vives a Spanish scholar deeply influenced by both classical and contemporary thinkers crafted this work during a time of significant educational reform His experiences as a student and educator shaped his critical perspective on the prevailing educational orthodoxies Vives was entrenched in humanist circles and sought not only to advocate for intellectual improvement but also to forge a more moral and socially responsible citizenry through education reflecting his own values as a thinker committed to the ideals of the Renaissance This book is a compelling read for educators historians and anyone interested in the roots of modern education Vives dialogues not only serve as a window into Tudor educational practices but also resonate with contemporary discussions about the values and methods of teaching Readers will find in this
