Game Love Jessica Enevold, Esther MacCallum-Stewart, 2015-01-09 What does love have to do with gaming As games have grown in complexity they have increasingly included narratives that seek to engage players with love in a variety of ways While media attention often focuses on violent emotions and behavior in gaming love has always been central to the experience We love to play games we have titles that we love and sometimes we love too much or love terrible games for their shortcomings Love in gaming is rather like love in life often complicated and frustrating but also exciting and gratifying This collection of fresh essays explores the meaning and role of love in gaming describing a number of ways from coding to cosplay in which love can be expressed in for and around games Investigating how gaming involves love is also key to understanding the growing importance of games and gamers as cultural markers **Ethics in the Arthurian Legend**

Melissa Ridley Elmes, Evelyn Meyer, 2023 An interdisciplinary and trans historical investigation of the representation of ethics in Arthurian Literature From its earliest days the Arthurian legend has been preoccupied with questions of good kingship the behaviours of a ruling class and their effects on communities societies and nations both locally and in imperial and colonizing contexts Ethical considerations inform and are informed by local anxieties tied to questions of power and identity especially where leadership service and governance are concerned they provide a framework for understanding how the texts operate as didactic and critical tools of these subjects This book brings together chapters drawing on English Welsh German Dutch French and Norse iterations of the Arthurian legend and bridging premodern and modern temporalities to investigate the representation of ethics in Arthurian literature across interdisciplinary and transhistorical lines They engage a variety of methodologies including gender critical race theory philology literature and the law translation theory game studies comparative critical and close reading and modern editorial and authorial practices Texts interrogated range from Culhwch and Olwen to Parzival Roman van Walewein Tristrams Saga Sir Gawain and the Green Knight and Malory's Morte Darthur As a whole the approaches and findings in this volume attest to the continued value and importance of the Arthurian legend and its scholarship as a vibrant field through which to locate and understand the many ways in which medieval literature continues to inform modern sensibilities and institutions particularly where the matter of ethics is concerned *Role-play as a Heritage Practice* Michal Mochocki, 2021-03-28 Role play as a Heritage Practice is the first book to examine physically performed role enactments such as live action role play LARP tabletop role playing games TRPG and hobbyist historical reenactment RH from a combined game studies and heritage studies perspective Demonstrating that non digital role plays such as TRPG and LARP share many features with RH the book contends that all three may be considered as heritage practices Studying these role plays as three distinct genres of playful participatory and performative forms of engagement

with cultural heritage Mochocki demonstrates how an exploration of the affordances of each genre can be valuable Showing that a player's engagement with history or heritage material is always multi-layered the book clarifies that the layers may be conceptualised simultaneously as types of heritage authenticity and as types of in-game immersion It is also made clear that RH TRPG and LARP share commonalities with a multitude of other media including video games historical fiction and film Existing within and contributing to the fiction and non-fiction mediasphere these role enactments are shaped by the same large-scale narratives and discourses that persons families communities and nations use to build memory and identity Role play as a Heritage Practice will be of great interest to academics and students engaged in the study of heritage memory nostalgia role playing historical games performance fans and transmedia narratology
