Noblest Minds Fame Honor And The American Founding

Michael T. Gilmore

Noblest Minds Fame Honor And The American Founding:

The Noblest Minds Peter McNamara, 1999 What made the founding generation of American statesmen so outstanding To answer this question The Noblest Minds brings together a distinguished group of historians and political scientists to evaluate a neglected but compelling theory advanced nearly four decades ago by Douglass Adair **Liberalism with Honor** Sharon R. Krause, 2002-04-15 Why do men and women sometimes risk everything to defend their liberties What motivates principled opposition to the abuse of power In Liberalism with Honor Sharon Krause explores honor as a motive for risky and difficult forms of political action She shows the sense of honor to be an important source of such action and a spring of individual agency more generally Krause traces the genealogy of honor including its ties to conscientious objection and civil disobedience beginning in old regime France and culminating in the American civil rights movement She examines the dangers intrinsic to honor and the tensions between honor and modern democracy but demonstrates that the sense of honor has supported political agency in the United States from the founders to democratic reformers such as Elizabeth Cady Stanton and Martin Luther King Jr Honor continues to hold interest and importance today because it combines self concern and personal ambition with principled higher purposes and so challenges the disabling dichotomy between self interest and self sacrifice that currently pervades both political theory and American public life **A Dangerous Passion** Haig Patapan, 2021-05-01 A Dangerous Passion argues that leadership and honor are mutually constitutive and that this dynamic relationship fundamentally shapes the character of political practice Haig Patapan shows how our contemporary blindness to this leadership honor dynamic and neglect of the significance of honor and shame in modern politics have caused us to fundamentally misunderstand the nature of leadership We have lost sight of how honor shapes the ambitions and aspirations of those who seek political office and the opportunities and limits it imposes on leaders when engaging with their followers What has been obscured are the two faces of honor how it is the dangerous passion that fuels the ambitions of the glory seekers to pursue tyranny and empire as well as being the source of good leadership that is founded on noble ambition and sacrifice for the common good Patapan examines classical magnanimity Machiavellian glory and Hobbesian dispersed leadership views that continue to be debated and then offers insights from these debates to illuminate a series of contemporary political challenges for leaders including the politics of fame identity and nationalism Dreams of a More Perfect Union Rogan Kersh, 2013-06-04 In a brilliantly conceived and elegantly written book Rogan Kersh investigates the idea of national union in the United States For much of the period between the colonial era and the late nineteenth century he shows union was the principal rhetorical means by which Americans expressed shared ideals and a common identity without invoking strong nationalism or centralized governance Through his exploration of how Americans once succeeded in uniting a diverse and fragmented citizenry Kersh revives a long forgotten source of U S national identity Why and how did Americans perceive themselves as one people from the early history of the republic How did African Americans and others at

the margins of U S civic culture apply this concept of union Why did the term disappear from vernacular after the 1880s In his search for answers Kersh employs a wide range of methods including political theory analysis of writings by James Madison Frederick Douglass and Abraham Lincoln and empirical analysis drawing on his own extensive database of American newspapers The author s findings are persuasive and often surprising One intriguing development for instance was a strong resurgence of union feelings among Southerners including prominent former secessionists after the Civil War With its fascinating and novel approach *Dreams of a More Perfect Union* offers valuable insights about American political history especially the rise of nationalism and federalism Equally important the author s close retracing of the religious institutional and other themes coloring the development of unionist thought unveils new knowledge about the origination and transmittal of ideas in a polity *Military Honour and the Conduct of War* Paul Robinson,2006-07-28 This book analyses the influences of ideas of honour on the causes conduct and endings of wars from Ancient Greece through to the present day war in Iraq

F. A. Hayek and the Modern Economy S. Peart,D. Levy,2013-12-10 What is the role of human agency in Friedrich Hayek s thought This volume situates Hayek s writing as it relates to economic organization and activity particularly to assess what role Hayek assigns to leaders in determining economic progress Constitutional Government in the United States Woodrow Wilson,2017-07-28 One of the genuine classics of American political science literature *Constitutional Government in the United States* is also a subtle and influential criticism of the American founding fathers produced during the Progressive Era Wilson s interpretation of the Constitution shaped the thought of scholars and students of American politics His definition of constitutional government and the place of the United States in the development of constitutional theory continues to shape discourse today Wilson discusses the three branches of government in the United States the relation between the states and the federal government and party government in a manner quite distinct from the founding fathers *Constitutional Government* has its origins in a series of lectures Wilson delivered at Columbia University in 1907 It is carefully organized around three separate but mutually supporting arguments First is the idea that constitutional government evolves historically from primitive beginnings of the state toward a universal and ideal form Second this idea of historical evolution contains within it an analysis of how and where the Constitution fits into the evolutionary process as a whole Third the historical thesis itself provides a prescription for bringing American government and with it the Constitution into accord with his first principle of the ideal form of modern government In his new introduction Sidney A Pearson explores how with *Constitutional Government in the United States* Wilson helped create a new genre of political writing using the point of view of a literary politician He discusses Wilson s intention to replace the constitutional argument of the founders with one of his own based on the application of Darwinian metaphor in a political science framework And he examines the differences between the views launched by Wilson and those set forth by James Madison in *The Federalist* This is an essential work for all interested in the evolution of Amer *Surface and Depth* Michael T. Gilmore,2003-01-16 The idea of a common

American culture is in retreat arguments emphasizing difference have discredited the grand synthetic studies that marginalized groups and perspectives at odds with the master narrative This work is an attempt to revitalize an interpretive overview

Rediscovering Political Economy Joseph Postell,Bradley C. S. Watson,2011-01-01 In this volume Bradley C S Watson and Joseph Postell bring together some of America s most eminent thinkers on political economy in an attempt to reconnect the discipline of economics to larger discussions about the human good The book shows how political ideas and economic theories can and must inform each other and is essential reading for anyone interested in politics economics history and culture

Liberalism, Conservatism, and Hayek's Idea of Spontaneous Order P. McNamara,L. Hunt,2007-10-29 For Hayek spontaneous order the emergence of complex order as the unintended consequence of individual actions that have no such end in view is both the origin of the Great Society and its underlying principle These sometimes critical essays assess Hayek s position and argue that his work can inform contemporary social and political dilemmas

Leo Strauss and His Legacy John Albert Murley,2005-01-01 With over 10 000 entries identifying work of hundreds of Strauss s students and their students students this bibliography is the most indeed the only comprehensive guide to published writing in the tradition of Leo Strauss Murley includes Strauss s own complete bibliography and that of one of his most revered students George Anastaplo

Amateur Hour Lara Brown,2020-08-13 This book assesses the impact of presidential character on the popularity productivity and ethics of contemporary presidents Through comparative analyses author Lara Brown demonstrates that the character of a president s leadership does not change in office and that the success of future presidents can be evaluated before they step into the White House She traces the rise of amateur outsiders like Donald Trump and asserts the need for systemic reform and cultural reassessment of presidential character Intended for students and scholars of the presidency this book also holds appeal for general readers who seek understanding of past and future presidential elections

Modernity and Its Discontents Steven B. Smith,2016-08-09 Steven B Smith examines the concept of modernity not as the end product of historical developments but as a state of mind He explores modernism as a source of both pride and anxiety suggesting that its most distinctive characteristics are the self criticisms and doubts that accompany social and political progress Providing profiles of the modern project s most powerful defenders and critics from Machiavelli and Spinoza to Saul Bellow and Isaiah Berlin this provocative work of philosophy and political science offers a novel perspective on what it means to be modern and why discontent and sometimes radical rejection are its inevitable by products

Handbook of Political Theory Gerald F Gaus,Chandran Kukathas,2004-07-15 This volume combines remarkable coverage and distinguished contributors The inclusion of thematic conceptual and historical chapters will make it a valuable resource for scholars as well as students Professor George Klosko Department of Politics University of Virginia This major new Handbook provides a definitive state of the art review to political theory past and present It offers a complete guide to all the main areas and fields of political and philosophical inquiry today by the world s leading theorists The

Handbook is divided into five parts which together serve to illustrate the diversity of political theorizing the substantive theories that provide an overarching analysis of the nature or justification of the state and political life the political theories that have been either formulated or resurgent in recent years the current state of the central debates within contemporary political theory the history of western political thought and its interpretations traditions in political thought outside a western perspective The Handbook of Political Theory marks a benchmark publication at the cutting edge of its field It is essential reading for all students and academics of political theory and political philosophy around the world *Defining*

Statesmanship Clyde Ray, 2019-11-27 Statesmanship is a concept frequently invoked but seldom defined in contemporary political discourse In this book Clyde Ray examines ancient medieval and modern versions of the idea by considering a range of thinkers that have given thought to the concept From Plutarch to Saint Augustine to Jane Addams Ray provides fresh insight on the topic by identifying the core features of effective political leadership More than a historical analysis these case studies in statesmanship provide citizens today with a vocabulary for identifying and debating the characteristics of this time honored but often obscure term In a time when many citizens long for more dignified leadership *Defining Statesmanship* offers a timely reflection on this timeless political idea Leo Strauss Thomas L. Pangle, 2006-09-25 Leo Strauss's

controversial writings have long exercised a profound subterranean cultural influence Now their impact is emerging into broad daylight where they have been met with a flurry of poorly informed often wildly speculative and sometimes rather paranoid pronouncements This book written as a corrective is the first accurate non polemical comprehensive guide to Strauss's mature political philosophy and its intellectual influence Thomas L Pangle opens a pathway into Strauss's major works with one question How does Strauss's philosophic thinking contribute to our democracy's civic renewal and to our culture's deepening critical self understanding This book includes a synoptic critical survey of writings from scholars who have extended Strauss's influence into the more practical sub philosophic fields of social and political science and commentary Pangle shows how these analysts have in effect imported Straussian impulses into a new kind of political and social science Thomas Jefferson's Military Academy Robert M. S. McDonald, 2004 Although Jefferson feared the potential power of a standing army the contributors point out he also contended that whatever enables us to go to war secures our peace They take a broad view of Jeffersonian security policy exploring the ways in which West Point bolstered America's defenses against foreign aggression and domestic threats to the ideals of the American Revolution Thomas Jefferson's Military Academy should appeal to scholars and general readers interested in military history and the founding generation

BOOK JACKET **The Democratic Leader** John Kane, Haig Patapan, 2012-03-29 Democratic leadership is the most familiar form of leadership and yet the least well understood by people in democratic countries This book explores the tensions and dilemmas that beset such leadership in order to explain why democracies produce simultaneously the strongest and weakest of leaders *The Case for Greatness* Robert Faulkner, 2008-01-28 This is a spirited look at political ambition and particularly

its good version honourable ambition Robert Faulkner contends that too many modern accounts of leadership slight such things as a determination to excel good judgement and a sense of honour the very qualities that distinguish the truly great

The Marquis Laura Auricchio, 2015-08-18 Winner of the 2015 American Library in Paris Book Award The Marquis de Lafayette at age nineteen volunteered to fight under George Washington and became the French hero of the American Revolution In this major biography Laura Auricchio looks past the storybook hero and selfless champion of righteous causes who cast aside family and fortune to advance the transcendent aims of liberty and fully reveals a man driven by dreams of glory only to be felled by tragic human weaknesses Drawing on substantial new research conducted in libraries archives museums and private homes in France and the United States Auricchio gives us history on a grand scale revealing the man and his complex life while challenging and exploring the complicated myths that have surrounded his name for more than two centuries
