Joan, Lady of Wales Danna R. Messer, 2020-09-30 The first account of the life of the illegitimate daughter of King John of England and wife of Llywelyn the Great of Gwynedd The history of women in medieval Wales before the English conquest of 1282 is one largely shrouded in mystery For the Age of Princes an era defined by ever increased threats of foreign hegemony internal dynastic strife and constant warfare the comings and goings of women are little noted in sources This misfortune touches even the most well known royal woman of the time Joan of England d. 1237 the wife of Llywelyn the Great of Gwynedd illegitimate daughter of King John and half sister to Henry III With evidence of her hand in thwarting a full scale English invasion of Wales to a notorious scandal that ended with the public execution of her supposed lover by her husband and her own imprisonment Joan's is a known but little told or understood story defined by family turmoil divided loyalties and political intrigue From the time her hand was promised in marriage as the result of the first Welsh-English alliance in 1201 to the end of her life Joan's place in the political wranglings between England and the Welsh kingdom of Gwynedd was a fundamental one As the first woman to be designated Lady of Wales her role as one a political diplomat in early thirteenth century Anglo-Welsh relations was instrumental This first ever account of Siwan as she was known to the Welsh interweaves the details of her life and relationships with a gendered re-assessment of Anglo-Welsh politics by highlighting her involvement in affairs discussing events in which she may well have been involved but have gone unrecorded and her overall deployment of royal female agency Praise for Joan Lady of Wales A seminal original and ground breaking work of simply outstanding scholarship Midwest Book Review

Love, Intimacy and Power Katie Barclay, 2013-07-19 Winner of the 2012 Senior Hume Brown Prize in Scottish History and the 2012 Women's History Network UK Book Prize Through an analysis of the correspondence of over one hundred couples from the Scottish elites across the seventeenth to nineteenth centuries this book explores how ideas around the nature of emotional intimacy love and friendship within marriage adapted to a modernising economy and society Patriarchy continued to be the central model for marriage across the period and as a result women found spaces to hold power within the family but could not translate it to power beyond the household Comparing the

Scottish experience to that across Europe and North America Barclay shows that throughout the eighteenth century far from being a side note in European history Scottish ideas about gender and marriage became culturally dominant Now available in paperback this book will be vital to those studying and teaching Scottish social history and those interested in the history of marriage and gender It will also appeal to feminists interested in the history of patriarchy An important and original study WHN Book Prize 2012 Judges **Gender, nation and conquest in the high Middle Ages** Susan M. Nicholson,2022-03-24 Queen Sybil of Jerusalem

queen in her own right was ruler of the kingdom of Jerusalem from 1186 to 1190 Her reign saw the loss of the city of Jerusalem to Saladin and the beginning of the Third Crusade Her reign began with her nobles divided and crisis looming by her death the military forces of Christian Europe were uniting with her and her husband intent on recovering what had been lost Sybil died before the bulk of the forces of the Third Crusade could arrive in the kingdom and Jerusalem was never recovered But although Sybil failed she went down fighting spiritually even if not physically This study traces Sybil's life from

her childhood as the daughter of the heir to the throne of Jerusalem to her death in the crusading force outside the city of Acre. It sets her career alongside that of other European queens and noblewomen of the twelfth century who wielded or attempted to wield power and ask how far the eventual survival of the kingdom of Jerusalem in 1187 was due to Sybil's leadership in 1187 and her determination never to give up. Royal Childhood and Child Kingship Emily Joan Ward, 2022-08-04 Refining adult focused perspectives on medieval rulership Emily Joan Ward exposes the problematic nature of working from the assumption that kingship equated to adult power. Children's participation and political assent could be important facets of the day to day activities of rule as this study shows through an examination of royal charters oaths to young boys cross kingdom diplomacy and coronation. The first comparative and thematic study of child rulership in this period Ward analyses eight case studies across northwestern Europe from c 1050 to c 1250. The book stresses innovations and adaptations in royal government questions the exaggeration of political disorder under a boy king and suggests a ruler's childhood posed far less of a challenge than their adolescence and youth. Uniting social cultural and political historical methodologies Ward unveils how wider societal changes between the eleventh and thirteenth centuries altered children's lived experiences of royal rule and modified how people thought about child kingship. *Bulletin bibliographique de la Société internationale arthurienne* International Arthurian Society, 2005 The Care of Nuns Katie Ann-Marie Bugyis, 2019-04-01 In her ground breaking new study Katie Bugyis offers a new history of communities of Benedictine nuns in England from 900 to 1225. By applying innovative paleographical codicological and textual analyses to their surviving liturgical books Bugyis recovers a treasure trove of unexamined evidence for understanding these women's lives and the liturgical and pastoral ministries they performed. She examines the duties and responsibilities of their chief monastic officers abbesses prioresses cantors and sacristans highlighting three of the ministries vital to their practice liturgically reading the gospel hearing confessions and offering intercessory prayers for others. Where previous scholarship has argued that the various reforms of the central Middle Ages effectively relegated nuns to complete dependency on the sacramental ministrations of priests Bugyis shows that in fact these women continued to exercise primary control over their spiritual care. Essential to this argument is the discovery that the production of the liturgical books used in these communities was carried out by female scribes copyists correctors and creators of texts attesting to the agency and creativity that nuns exercised in the care they extended to themselves and those who sought their hospitality counsel instruction healing forgiveness and intercession.
