*Grandparents/Grandchildren* Arthur Kornhaber, Kenneth L. Woodward, 2019-11-20 In this book Kornhaber and Woodward explore the vital connections which link generations to each other and expose a new social contract that destroys the emotional bonds between grandparents and grandchildren This is the first book which reviews in a

careful ethnographic manner the relationship of grandchildren to grandparents and the place of love at one end and abandonment at the other by grandparents The authors probe the deep unexplored emotional histories of hundreds of grandparents how they feel about themselves their grandchildren and their loss of function within today's nuclear family With sharp increases in the number of broken families and working mothers grandparents are more vital than ever and also more available than ever This basic research document shows how grandparents recover their natural role as elders of the family and of society The author's basic premise is that to exist is to be connected and that no matter how grandparents act they affect the emotional well being of their grandchildren for better or for worse simply because they exist In an age when mounting economic and social pressures make it increasingly easier to split a family than to sustain one the authors alert us to a forgotten source of family strength the power of grandparents to enrich the lives as a whole The case studies reported in this volume represent a first effort in an area left unexplored by developmental researchers There are lessons here for social scientists but even more for our alienated society Urie Bronfenbrenner Cornell University

**Gray Panthers** Roger Sanjek, 2012-02-28 In 1970 a sixty five year old Philadelphian named Maggie Kuhn began vocally opposing the notion of mandatory retirement Taking inspiration from the civil rights and anti Vietnam War movements Kuhn and her cohorts created an activist organization that quickly gained momentum as the Gray Panthers After receiving national publicity for her efforts she even appeared on the Tonight Show with Johnny Carson she gained thousands of supporters young and old Their cause expanded to include universal health care nursing home reform affordable and accessible housing defense of Social Security and elimination of nuclear weapons Gray Panthers traces the roots of Maggie Kuhn's social justice agenda to her years as a YWCA and Presbyterian Church staff member It tells the nearly forty year story of the intergenerational grassroots movement that Kuhn founded and its scores of local groups During the 1980s more than one hundred chapters were tackling local and national issues By the 1990s the ranks of older members were thinning and most young members had departed many to pursue careers in public service But despite its challenges including Kuhn's death in 1995 the movement continues today Roger Sanjek examines Gray Panther activism over four decades Here the inner workings and dynamics of the movement emerge the development of network leadership local projects and tactics conflict with the national office and the intergenerational political ties that made the group unique among contemporary activist groups Part ethnography part history part memoir Gray Panthers draws on archives and interviews as well as the author's thirty years of personal involvement With the impending retirement of the baby boomers Sanjek's book will surely inform the debates and discussions to follow on retirement health care and many other aspects of aging in a society that has long valued youth above all

Autonomy and Long-term Care George J. Agich, 1993 The realities and misconceptions of long term care and the challenges it presents for the ethics of autonomy are analyzed in this perceptive

work While defending the concept of autonomy the author argues that the standard view of autonomy as non interference and independence has only a limited applicability for long term care He explains that autonomy should be understood as a comprehensiveness that defines the overall course of a person s life rather than as a way of responding to an isolated situation Agich distinguishes actual and ideal autonomy and argues that actual autonomy is better revealed in the everyday experiences of long term care than in dramatic conflict ridden paradigm situations such as decisions to institutionalize to initiate aggressive treatments or to withhold or to withdraw life sustaining treatments Through a phenomenological analysis of long term care he develops an ethical framework for it by showing how autonomy is actually manifest in certain structural features of the social world of long term care Throughout this timely work the rich sociological and anthropological literature on aging and long term care is referenced and the practical ethical questions of promoting and enhancing the exercise of autonomy are addressed *Littell's Living Age* Eliakim Littell,Robert S.
