Parliament. House of Commons. Scottish Affairs Committee, 2013 The Scottish Affairs Committee calls for the repeal of the Bedroom Tax While this is being considered the Committee calls on the Government to suspend application of the Bedroom Tax for all those tenants to whom a reasonable alternative offer cannot be made There are not enough smaller houses available for tenants to transfer into The lack of any alternative offers means that tenants have no choice but to go into arrears if they simply cannot afford the extra costs Other amendments proposed for the operation of the tax include exemptions for those disabled people who require a room to store or use equipment or aids non application where it would be financially perverse to do so eg where removing fixed aids and adaptations and then reinstalling them in a smaller home would be more expensive than the savings over two years all children of secondary school age should be allowed a bedroom of their own to allow quiet study all disabled children of whatever age should have a bedroom of their own The Committee also calls for changes to the system of Discretionary Housing Payments which have been designed by the Government to mitigate the worst impacts of the Bedroom Tax There should be a standard nationwide entitlement system across the UK as a whole rather than the present postcode lottery The UK and Scottish Governments should make longer term commitments to the provision of DHP payments in order to allow local authorities to plan and structure their budgets *Time Briton* Hadden, Henry R. After the Music Stopped Alan S. Blinder,2013-01-24 The New York Times bestseller Blinder s book deserves its likely place near the top of reading lists about the crisis It is the best comprehensive history of the episode A riveting tale Financial Times One of our wisest and most clear eyed economic thinkers offers a masterful narrative of the crisis and its lessons Many fine books on the financial crisis were first drafts of history books written to fill the need for immediate understanding Alan S Blinder esteemed Princeton professor Wall Street Journal columnist and former vice chairman of the Federal Reserve Board held off taking the time to understand the crisis and to think his way through to a truly comprehensive and coherent narrative of how the worst economic crisis in postwar American history happened what the government did to fight it and what we can do from here mired as we still are in its wreckage With bracing clarity Blinder shows us how the U S financial system which had grown far too complex for its own good and too unregulated for the public good experienced a perfect storm beginning in 2007 Things started unraveling when the much chronicled housing bubble burst but the ensuing implosion of what Blinder calls the bond bubble was larger and more

devastating Some people think of the financial industry as a sideshow with little relevance to the real economy where the jobs factories and shops are But finance is more like the circulatory system of the economic body if the blood stops flowing the body goes into cardiac arrest When America's financial structure crumbled the damage proved to be not only deep but wide It took the crisis for the world to discover to its horror just how truly interconnected and fragile the global financial system is Some observers argue that large global forces were the major culprits of the crisis Blinder disagrees arguing that the problem started in the U S and was pushed abroad as complex opaque and overrated investment products were exported to a hungry world which was nearly poisoned by them The second part of the story explains how American and international government intervention kept us from a total meltdown Many of the U S government's actions particularly the Fed's were previously unimaginable And to an amazing and certainly misunderstood extent they worked The worst did not happen Blinder offers clear eyed answers to the questions still before us even if some of the choices ahead are as divisive as they are unavoidable After the Music Stopped is an essential history that we cannot afford to forget because one thing history teaches is that it will happen again

Voss, 2018-01-30 The police You know everything about them Or do you To a lot of people the world of police officers is a secretive and mysterious place They're either omnipresent or never around Saving lives or roughing people up Being jerks or buying groceries for a family caught shoplifting for food In reality all of the above are true But what's not known is why it's true Like any job there are things about policing the general public doesn't know or want to know about And given the age we live in the proliferation of police experts who don't know anything about policing has exploded So many experts with so little knowledge giving away so much bad advice This is a guide with real life humorous examples on how to successfully deal with police written by a nearly 30 year veteran police sergeant A guide to improving police community relations A guide to understanding why cops do what they do And most importantly a guide to avoiding ending your night wearing orange jammies Oh and don't forget wearing underwear that hundreds of other people have worn too Yes that's what really happens
