The Literary Politics of Mitteleuropa Yvonne Zivkovic, 2021 Shows how postwar writers in Austria and Yugoslavia reimagined the concept of Mitteleuropa Central Europe as a cultural space between nostalgia and totalitarianism The German term Mitteleuropa or Central Europe was never just a geographical concept it connoted extending German influence to the east In the 1980s the eastern European dissident writers Gyrgy Konr d Czes aw Mi osz and Milan Kundera revived the concept to counter a perceived Cold War memory vacuum aligning themselves with the multiethnic and multilingual legacy of the Habsburg Empire Their observations gave rise to a protracted public debate that posited literature against politics This debate was both anticipated and expanded upon in postwar literary works by Ingeborg Bachmann Peter Handke and Christoph Ransmayr in Austria and Danilo Kis Aleksandar Tisma and Dubravka Ugresi in the former Yugoslavia all of whom questioned notions of geographic identity and national allegiance by imagining Mitteleuropa as a cultural space between nostalgia and totalitarianism Yvonne Zivkovic draws on space and memory studies to show how Mitteleuropa emerged as an alternate memory discourse that reveals deep ties between the Second Austrian Republic and the Socialist Federal Republic of Yugoslavia The writers discussed address the major themes of the 1980s debate traumatic memory geographic displacement and transnationalism but also share a literary aesthetics that privileges the intersections of prose fiction and the essay the literary fragment and intertextuality Zivkovic s book shows the persistence of Mitteleuropa as a literary network and as a cultural collective that examines civic values against public tendencies of memory manipulation uropa as a cultural space between nostalgia and totalitarianism Yvonne Zivkovic draws on space and memory studies to show how Mitteleuropa emerged as an alternate memory discourse that reveals deep ties between the Second Austrian Republic and the Socialist Federal Republic of Yugoslavia The writers discussed address the major themes of the 1980s debate traumatic memory geographic displacement and transnationalism but also share a literary aesthetics that privileges the intersections of prose fiction and the essay the literary fragment and intertextuality Zivkovic s book shows the persistence of Mitteleuropa as a literary network and as a cultural collective that examines civic values against public tendencies of memory manipulation uropa as a cultural space between nostalgia and totalitarianism Yvonne Zivkovic draws on space and memory studies to show how Mitteleuropa emerged as an alternate memory discourse that reveals deep ties between the Second

Austrians today often seem to believe that they have two histories One is their republican present the other the centuries that their forebears spent as part of the multi ethnic Habsburg Empire Contemporary Austria is a fixture among Europe s democracies Yet it did not achieve this state easily World War I the unification with Germany in 1938 and World War II were catastrophes for Austria In 1995 it became part of the European Union and its government culture and egalitarian economy are far cries from the monarchical and highly stratified society of the old Empire The second edition of the *Historical Dictionary of Austria* has been thoroughly updated and greatly expanded Through its chronology introductory essay appendix bibliography and hundreds of cross referenced dictionary entries greater attention has been given to foreign affairs economic institutions and policies social issues religion and politics

Steve Reece proposes that the author of Luke Acts was trained as a youth in the primary and secondary Greek educational curriculum typical of the Eastern Mediterranean during the Roman Imperial period where he gained familiarity with the Classical and Hellenistic authors whose works were the focus of study He makes a case for Luke s knowledge of these authors internally by spotlighting the density of allusions to them in the narrative of Luke Acts and externally by illustrating from contemporary literary papyrological and artistic evidence that the works of these authors were indeed widely known in the Eastern Mediterranean at the time of the composition of Luke Acts not only in the schools but also among the general public Reece begins with a thorough examination of the Greek educational system during the Hellenistic and Roman Imperial periods emphasizing that the educational curriculum was very homogeneous at least at the primary and secondary levels and that children growing up anywhere in the Eastern Mediterranean could expect to receive quite similar educations His close examination of the Greek text of Luke Acts has turned up echoes allusions and quotations of several of the very authors that were most prominently

featured in the school curriculum Homer Aesop Euripides Plato and Aratus This reinforces the view that Luke along with other writers of the New Testament lived in a cultural milieu that was influenced by Classical and Hellenistic Greek literature and that he was not averse to invoking that literature when it served his theological and literary purposes *Peter Handke*
