Noh Or Accomplishment 1st Edition:

'Noh' Or Accomplishment Ernest Fenollosa, Ezra Pound, 1916 **Readings in the Cantos** Richard Parker, 2022-07-01
The three volumes of *Readings in the Cantos* bring together in a ground breaking format a number of critical readings by world renowned scholars of the central modernist long poem *The Cantos* of Ezra Pound Each contributor approaches either a single Canto or a defined small group of Cantos in isolation providing a clear informative and interpretive reading that includes an up to date assessment of sources and an idea of recent critical approaches Together the contributors offer a remarkably diverse reading of *The Cantos* that at the same time demonstrates the coherence of Pound's text *Yeats and American Poetry* Terence Diggory, 2014-07-14 This work is designed to show a double influence first that of American poets especially Whitman on W B Yeats and second of Yeats on a wide range of American poets who began their careers during the first decades of the century Originally published in 1983 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **American Book Prices Current**, 2000 **A Catalogue of the Imagist Poets** Wallace Martin, Ian Fletcher, 1981 **Sale Catalogues** American Art Association, Anderson Galleries (Firm), inc American art association Aderson galleries, 1921 **The Critical Thought of W. B. Yeats** Wit Pietrzak, 2017-08-29 This book focuses on W B Yeats's critical writings an aspect of his oeuvre which has been given limited treatment so far It traces his critical work from his earliest articles through to his occult treatises and all the way to his last pamphlets in which he sought to delineate the idea of a literary culture a community of people willing to credit poetry with the central role in imagining and organising social praxis throughout society The chapters of this study investigate the contexts in which Yeats's thought developed his many disputes over the shape of Irish cultural politics the future of poetry and the place literature occupies in the world What transpires is an image of Yeats who is strung between the impulses of faith in the existence of a supernatural order and ironic scepticism as to the possibility of ever capturing that order in language This study is distinguished by its grounding of Yeats's critical agenda in a broader context through textual analysis In addition it organises and systematises his conceptions of poetry and its social role through its approach to his criticism as a fully fledged area of his artistic practice The monograph has been written within the framework of the project financed by The National Science Centre Cracow Poland pursuant to the decision number DEC 2013 09 D HS2 02782
