The Scythian Connection and the Shamanistic Crowns of Ancient Korea Shirley Fish, 2021-08-22 The Three Kingdoms

Period in Korean history consisted of the kingdoms of Silla Koguryo and Paekche It was only the Silla kingdom which seemed to have had a connection to the ancient nomadic Scythians These people seemed so different from the indigenous inhabitants who were already living in Korea during the 3th to 6th centuries CE It is the author's opinion is that they were the descendants of the Scythians who although they would not have called themselves Scythians they were none the less the remnant members of nomadic tribes that pushed eastward from Central Asia and Siberia to the Korean peninsula Once in Southern Korea they established the Silla kingdom where their time honored beliefs are depicted in their mound burials wooden burial chambers gold crowns horse riding and also in their Siberian shamanism This time period of the gold crowns and the people who produced the royal headgear was the Maripgan Period and as mentioned they were the descendants of Scythians who although in Central Asia and Siberia were known to have existed as far back as 10 000 years BC they were always on the move searching for new pasturelands for their herds or to avoid conflicts and war with their enemies The Silla crowns were created around the 5th to the 7th centuries in Kyongju the former capital of the Silla people When they were discovered in various archaeological mound sites they were found to be in a highly fragile state The crowns were each designated as national treasures by the Korean government and most weigh about one kilogram Some of the crowns came in two parts an inner gold cap which may have been covered in silk fabric and sat inside of the crown and the crown itself The crowns were totally shamanistic in their symbolism and represented the belief systems of the Scythians of Central Asia and Siberia which eventually made its way to Korea and the ancient Kingdom of Silla

**Fantastic Fauna from China to Crimea** Petya Andreeva, 2024-03-05 Numerous Iron Age nomadic alliances flourished along the 5000 mile Eurasian steppe route From Crimea to the Mongolian grassland nomadic image making was rooted in metonymically conveyed zoomorphic designs creating an alternative ecological reality The nomadic elite nucleus embraced this elaborate image system to construct collective memory in reluctant diverse political alliances organised around shared geopolitical goals rather than ethnic ties Largely known by the term e animal stylee this zoomorphic visual rhetoric became so ubiquitous across the Eurasian steppe network that it transcended border regions and reached the heartland of sedentary empires like China and Persia This book shows how a shared fluency in animal style design became a status defining symbol and a bonding agent in opportunistic nomadic alliances and was later adopted by their sedentary neighbours to showcase worldliness and control over the e Other In this study of enormous geographical scope the author

raises broader questions about the place of nomadic societies in the art historical canon **The Triumph of Modernism** Hilton Kramer, 2013-12-09 Widely acknowledged as the most authoritative art critic of his generation Hilton Kramer advanced his comments and judgments largely in the form of essays and short pieces Thus this first collection of his work to appear in twenty years is a signal event for the art world and for criticism generally The Triumph of Modernism not only traces the vicissitudes of the art scene but diagnoses the state of modernism and its vital legacy in the postmodern world Mr Kramer bracingly updates his incisive critique of the artists critics institutions and movements that have formed the basis for modern art Appearing for the first time in greatly expanded form is his consideration of the foundations of modern abstract painting and the future of abstraction The aesthetic intelligence that Mr Kramer brings to bear on certain tired assumptions about modernism many of them derived from methodologies and politics that have little to do with art helps rescue the artwork itself and its appreciation from the very institutions such as the art museum and the academy that purport to foster it Always clear eyed and vastly illuminating Hilton Kramer's art criticism remains among the very finest written in the past hundred years Readers of The Triumph of Modernism will be treated to an exhilarating experience History of Central Asia, The: 4-volume set Christoph Baumer, 2018-04-18 This set includes all four volumes of the critically acclaimed History of Central Asia series The epic plains and arid deserts of Central Asia have witnessed some of the greatest migrations as well as many of the most transformative developments in the history of civilization Christoph Baumer's ambitious four volume treatment of the region charts the 3000 year drama of Scythians and Sarmatians Soviets and transcontinental Silk Roads trade routes and the transmission of ideas across the steppes and the breathless and brutal conquests of Alexander the Great and Chinghiz Khan Masterfully interweaving the stories of individuals and peoples the author's engaging prose is richly augmented throughout by colour photographs taken on his own travels This set includes The Age of the Steppe Warriors Volume 1 The Age of the Silk Roads Volume 2 The Age of Islam and the Mongols Volume 3 and The Age of Decline and Revival Volume 4 **The Collapse of China's Later Han Dynasty, 25-220 CE** Wicky W. K. Tse, 2018-06-27 In the Later Han period the region covering the modern provinces of Gansu southern Ningxia eastern Qinghai northern Sichuan and western Shaanxi was a porous frontier zone between the Chinese regimes and their Central Asian neighbours not fully incorporated into the Chinese realm until the first century BCE Not surprisingly the region had a large concentration of men of martial background from which a regional culture characterized by warrior spirit and skills prevailed This military elite was generally honoured by the imperial centre but during the Later Han period the ascendancy of eastern based scholar officials and the consequent increased emphasis on civil values and demilitarization fundamentally transformed the attitude of the imperial state towards the northwestern frontiersmen leaving them struggling to achieve high political and social status From the ensuing tensions and resentment followed the capture of the imperial capital by a northwestern military force the deposing of the emperor and the installation of a new one which triggered the disintegration of the empire Based
