Nomadismi Contemporanei:

Un quartiere multiculturale Fiorella Giacalone, Lucio Pala, 2005 **The Tension Between Group Rights and Human Rights** Koen De Feyter, George Pavlakos, 2008-07-31 The discussion of group rights while always a part of the human rights discourse has been gaining importance in the past decade This discussion which remains fundamental to a full realisation by the international community of its international human rights goals requires careful analysis and empirical research The present volume offers a great deal of material for both It makes a strong case in favour of a multidisciplinary approach to human rights and explores the origins and social anthropological and legal political dimensions of human rights and internationally recognised group rights It explores legal issues such as the reservations to international treaties and methodological questions including the question of deliberative processes which allow seemingly absolute requirements of human rights to be reconciled with culturally sensitive norms prevailing within various groups The discussion continues by looking at specific contexts including the situations of women school communities ethnic and linguistic minorities migrant communities and impoverished groups The final part of the volume examines the state of play of human rights and group rights in international law in international relations and in the context of internationally sponsored development policies Here the authors offer a meticulous and critical presentation of the legal regulation of human rights and group rights and point to numerous weaknesses which continue to exist and which call for additional work by legal thinkers and practitioners

Eastern Europe and the Challenges of Modernity, 1800-2000 Stefano Bianchini, 2015-03-02 This book presents a concise and comprehensive overview of the mainstream flows of ideas politics and itineraries towards modernity in Central and Eastern Europe and the Balkans over two centuries from the beginning of the nineteenth century to the end of the Gorbachev administration Unlike other books on the subject which view modernity based on the idea of Western European supremacy this book outlines the various different pathways of development and of growing industrialisation urbanisation and secularisation which took place across the region It provides rich insights on the complex networks whereby very varied ideas aspirations and policies interacted to bring about a varied pattern of progress and of integration and isolation with different areas moving in different ways and at different paces Overall the book presents something very different from the traditional picture of the two Europes Particular examples covered include agrarian reform movements in various phases different models of socialism and different models of socialist reform Migration and Religion in Europe Ester Gallo, 2016-04-22 Religious practices and their transformation are crucial elements of migrants identities and are increasingly politicized by national governments in the light of perceived threats to national identity As new immigrant flows shape religious pluralism in Europe longstanding relations between the State and Church are challenged together with majority faith traditions and societies ways of representing and perceiving themselves With attention to variations according to national setting this volume explores the process of reformulating religious identities and practices amongst South Asian

communities in European contexts Presenting a wide range of ethnographies including studies of Hinduism Sikhism Jainism and Islam amongst migrant communities in contexts as diverse as Norway Italy the UK France and Portugal Migration and Religion in Europe sheds light on the meaning of religious practices to diasporic communities It examines the manner in which such practices can be used by migrants and local societies to produce distance or proximity as well as their political significance in various host nations Offering insights into the affirmation of national identities and cultures and the implications of this for governance and political discourse within Europe this book will appeal to scholars with interests in anthropology religion and society migration transnationalism and gender Yet Another Europe after 1984 ,2012-01-01 Much of the debates in this book revolves around Milan Kundera and his 1984 essay The Tragedy of Central Europe Kundera wrote his polemical text when the world was pregnant with imminent social and political change yet that world was still far from realizing that we would enter the last decade of the twentieth century with the Soviet empire and its network of satellite states missing from the political map Kundera was challenged by Joseph Brodsky and Gy rgy Konr d for allegedly excluding Russia from the symbolic space of Europe something the great author deeply believes he never did To what extent was Kundera right in assuming that if to exist means to be present in the eyes of those we love then Central Europe does not exist anymore just as Western Europe as we knew it has stopped existing What were the mental cultural and intellectual realities that lay beneath or behind his beautiful and graceful metaphors Are we justified in rehabilitating political optimism at the beginning of the twenty first century Are we able to reconcile the divided memories of Eastern or Central Europe and Western Europe regarding what happened to the world in 1968 And where is Central Europe now *Modernism* Astradur Eysteinnsson,Vivian Liska,2007-10-04 The two volume work *Modernism* has been awarded the prestigious 2008 MSA Book Prize *Modernism* has constituted one of the most prominent fields of literary studies for decades While it was perhaps temporarily overshadowed by postmodernism recent years have seen a resurgence of interest in modernism on both sides of the Atlantic These volumes respond to a need for a collective and multifarious view of literary modernism in various genres locations and languages Asking and responding to a wealth of theoretical aesthetic and historical questions 65 scholars from several countries test the usefulness of the concept of modernism as they probe a variety of contexts from individual texts to national literatures from specific critical issues to broad cross cultural concerns While the chief emphasis of these volumes is on literary modernism literature is seen as entering into diverse cultural and social contexts These range from inter art conjunctions to philosophical environmental urban and political domains including issues of race and space gender and fashion popular culture and trauma science and exile all of which have an urgent bearing on the poetics of modernity

Borders, Migration and Globalization Anna Rita Calabrò,2021-12-10 The emergence of new and substantial human migration flows is one of the most important consequences of globalisation While ascribable to widely differing social and economic causes from the forced migration of refugees to upper middle class migration projects and the movement of highly

skilled workers what they have in common is the effect of contributing to a substantial global redefinition in terms of both identity and politics This book contains contributions from scholars in the fields of law social sciences the sciences and the liberal arts brought together to delineate the features of the migration phenomena that will accompany us over the coming decades The focus is on the multifaceted concept of border as representing a useful stratagem for dealing with a topic like migration that requires analysis from several perspectives The authors discuss the various factors and issues which must be understood in all their complexity so that they can be governed by all social stakeholders free of manipulation and false consciousness They bring an interdisciplinary and comparative perspective to the social phenomena such as human trafficking unaccompanied foreign minors or ethnic based niches in the job market The book will be a valuable guide for academics students and policy makers

Contemporary Nomadisms Matilde Callari Galli, 2007 One of the most powerful and widespread ideal and political reasons underlying the birth and building of the Nation state has been the concurrence of territory culture and people Lately however one can observe a complete overturning of the relation between territorial and social spaces New forms of international migrations new systems of communication new financial flows and new political entities constitute relations which by crossing over the old borders take on a territorial multipolarity as the area of their sociocultural practices Studying the new relations between culture and territory implies laying stress on the effects of processes of contemporary nomadisms at global local virtual and everyday life levels The volume contains a collection of essays that try to illustrate the trends of the ceaseless nomadisms spanning our world the distinctive modalities by which they fuel yet are also subjected to the complexity of contemporariness looking into an ethnography of the modern traffic of the incorporeal but also of identity experiences and of state and state like practices enfolding them *Genesis. pubblicato un volume tematico interamente in russo **Karim e gli altri** Giovanni Cordova, 2023-02-27 Gli anni successivi alle Primavere Arabe sono stati investiti in tutto il Nord Africa di grosse aspettative di mutamento politico e sociale in buona parte poi disattese Anche in Tunisia il percorso verso una democrazia libera dai fantasmi dell'autoritarismo sembra essersi inceppato senza aver varcato compiutamente la soglia inaugurale di un nuovo ordine delle cose Frutto di una ricerca etnografica condotta nell'area della Grande Tunisi tra giovani uomini riconducibili alle classi medie oggi in via di impoverimento questo volume intende perseguire un'esplorazione antropologicamente orientata del paesaggio giovanile della Tunisia contemporanea durante un tempo di incertezza politica sociale economica e identitaria la transizione democratica ancora incompiuta che sembra protrarsi indefinitamente diventando tutt'uno con la liminalità sociale vissuta da quote crescenti di gioventù in bilico tra desiderio di autonomia e protratta dipendenza immobilità e sogno dell'altrove aspirazioni di realizzazione personale e anomia quotidiana critica ordinaria al potere costituito e reviviscenze identitarie nel segno dell'Islam

Non più a sud di Lampedusa Laura Faranda, 2016-03-07 Il libro risultato di una ricerca che negli ultimi cinque anni ha visto gli autori impegnati a ricostruire i processi di mediazione culturale e la memoria che lega l'Italia e la Tunisia uno sguardo comparativo da ripercorrere nelle due traiettorie dal passato al presente da Nord verso Sud Affiora così una Tunisia che oggi come ieri continua ad accogliere nuovi migranti nuove solitudini anonime nuove forme di sofferenza sociale Ma affiorano anche le menzogne orchestrate e le false generosità di un'Italia presunto paese di accoglienza o di un'Europa indifferente alle implicazioni storico antropologiche che fanno del Mediterraneo un confine promiscuo

Il paese delle badanti Francesco Vietti, 2019-11-29T00:00:00+01:00 Quanti di noi affidano i propri anziani alle cure di un assistente familiare Questa ricerca etnografica scritta con lo stile narrativo e intimo di un diario di viaggio parte dall'osservazione quotidiana della relazione di cura tra una badante venuta dall'Est e i suoi nonni italiani per poi seguirne il ritorno nel paese d'origine la Moldavia piccola repubblica ex sovietica ai confini dell'Unione Europea Qui come in Romania o in Ucraina il mercato del lavoro e gli stessi rapporti familiari negli ultimi vent'anni sono stati ristrutturati insieme alle case di chi lavora all'estero La catena globale della cura coinvolge mariti figli parenti vicini di casa e amici in complesse dinamiche relazionali che mettono in discussione gli equilibri dei contesti rurali in cui vivono le famiglie delle donne che lavorano in Italia Esplorare tali mutamenti ci permette di comprendere la rilevanza di un processo che ha cambiato non solo la vita di tante famiglie italiane ma anche le società dell'Europa orientale post socialista Il volume viene proposto a dieci anni dalla prima edizione arricchito di una nuova postfazione dedicata ai figli delle badanti e al ruolo che i migranti moldavi giocano nel contesto del confronto geopolitico tra Europa e Russia

Identità e diritti delle donne Roberta Pace, 2010 The gender gap that traverses the planet is one of the most blatant democratic failures and it is no longer an additional or accessory issue but one that is crucial to the wellbeing of both men and women The strategies of intervention mapped out in international programmes gender mainstreaming and empowerment underscore the commitment and the responsibilities of educational processes The aim of

the book is to stimulate reflection on the role of education in the establishment of gender identities and in fostering the human rights of women in contemporary society With a view to an interdisciplinary feminist and feminine analysis which is essential to the development and interweaving of gender issues and points of educational interest the question is posed as to whether a new sensitivity and a more widespread gender culture could successfully trigger daily practices of gender oriented education
