**Nomads and Sedentary Societies in Medieval Eurasia** Peter B. Golden,1998 *Agricultural and Pastoral Societies in Ancient and Classical History* Michael Adas,2001 Introduces readers to the cross cultural study of ancient and classical civilizations The book is divided into two sections the first examining the ongoing interaction between ancient agrarian and nomadic societies and the second focusing on regional patterns in the dissemination of ideas The Empire of the Qara Khitai in Eurasian History Michal Biran,2005-09-15 The book considers the political institutional and cultural histories of the Qara Khitai **Nomads in the Middle East** , **Nomads in the Middle East** Beatrice Forbes Manz,2021-12-02 A history of pastoral nomads in the Islamic Middle East from the rise of Islam through the middle periods when Mongols and Turks ruled most of the region to the decline of nomadism in the twentieth century Offering a vivid insight into the impact of nomads on the politics culture and ideology of the region Beatrice Forbes Manz examines and challenges existing perceptions of these nomads including the popular cyclical model of nomad settled interaction developed by Ibn Khaldun Looking at both the Arab Bedouin and the nomads from the Eurasian steppe Manz demonstrates the significance of Bedouin and Turco Mongolian contributions to cultural production and political ideology in the Middle East and shows the central role played by pastoral nomads in war trade and state building throughout history Nomads provided horses and soldiers for war the livestock and guidance which made long distance trade possible and animal products to provision the region s growing cities **The History of Central Asia** Christoph Baumer,2016-05-30 Between the ninth and the fifteenth centuries Central Asia was a major political economic and cultural hub on the Eurasian continent In the first half of the thirteenth century it was also the pre eminent centre of power in the largest land based empire the world has ever seen This third volume of Christoph Baumer s extensively praised and lavishly illustrated new history of the region is above all a story of invasion when tumultuous and often brutal conquest profoundly shaped the later history of the globe The author explores the rise of Islam and the remarkable victories of the Arab armies which inspired by their vital austere and egalitarian desert faith established important new dynasties like the Seljuks Karakhanids and Ghaznavids A golden age of artistic literary and scientific innovation came to a sudden end when between 1219 and 1260 Genghiz Khan and his successors overran the Chorasman Abbasid lands Dr Baumer shows that the Mongol conquests while shattering to their enemies nevertheless resulted in much greater mercantile and cultural contact between Central Asia and Western Europe **Social and Cultural Change in Central Asia** Sevkett Akyildiz,Richard Carlson,2013-10-15 Focusing on Soviet culture and its social ramifications both during the Soviet period and in the post Soviet era this book addresses important themes associated with Sovietisation and socialisation in the Central Asian states of Kazakhstan Kyrgyzstan Tajikistan Turkmenistan and Uzbekistan The book contains contributions from scholars in a variety of disciplines and looks at topics that have been somewhat marginalised in contemporary studies of Central Asia including education anthropology music literature and poetry film history and state

identity construction and social transformation It examines how the Soviet legacy affected the development of the republics in Central Asia and how it continues to affect the society culture and polity of the region Although each state in Central Asia has increasingly developed its own way the book shows that the states have in varying degrees retained the influence of the Soviet past or else are busily establishing new political identities in reaction to their Soviet legacy and in doing so laying claim to re defining and reinventing pre Soviet and Soviet images and narratives Throwing new light and presenting alternate points of view on the question of the Soviet legacy in the Soviet Central Asian successor states the book is of interest to academics in the field of Russian and Central Asian Studies     Planetary Modernisms Susan Stanford

Friedman,2015-08-18 Drawing on a vast archive of world history anthropology geography cultural theory postcolonial studies gender studies literature and art Susan Stanford Friedman recasts modernity as a networked circulating and recurrent phenomenon producing multiple aesthetic innovations across millennia Considering cosmopolitan as well as nomadic and oceanic worlds she radically revises the scope of modernist critique and opens the practice to more integrated study Friedman moves from large scale instances of pre 1500 modernities such as Tang Dynasty China and the Mongol Empire to small scale instances of modernisms including the poetry of Du Fu and Kabir and Abbasid ceramic art She maps the interconnected modernisms of the long twentieth century pairing Joseph Conrad with Tayeb Salih E M Forster with Arundhati Roy Virginia Woolf with the Tagores and Aim C saire with Theresa Hak Kyung Cha She reads postcolonial works from Sudan and India and engages with the idea of N gritude Rejecting the modernist concepts of marginality othering and major minor Friedman instead favors rupture mobility speed networks and divergence elevating the agencies and creative capacities of all cultures not only in the past and present but also in the century to come     **National Identities in Soviet**

**Historiography** Harun Yilmaz,2015-02-20 Under Stalin s totalitarian leadership of the USSR Soviet national identities with historical narratives were constructed These constructions envisaged how nationalities should see their imaginary common past and millions of people defined themselves according to them This book explains how and by whom these national histories were constructed and focuses on the crucial episode in the construction of national identities of Ukraine Azerbaijan and Kazakhstan from 1936 and 1945 A unique comparative study of three different case studies this book reveals different aims and methods of nation construction despite the existence of one party rule and a single overarching official ideology The study is based on work in the often overlooked archives in the Ukraine Azerbaijan and Kazakhstan By looking at different examples within the Soviet context the author contributes to and often challenges current scholarship on Soviet nationality policies and Stalinist nation building projects He also brings a new viewpoint to the debate on whether the Soviet period was a project of developmentalist modernization or merely a renewed Russian empire The book concludes that the local agents in the countries concerned had a sincere belief in socialism especially as a project of modernism and development and at the same time were strongly attached to their national identities Claiming that local communist party officials and historians

played a leading role in the construction of national narratives this book will be of interest to historians and political scientists interested in the history of the Soviet Union and contemporary Eastern Europe the Caucasus and Central Asia

*The Turks in World History* Carter V. Findley, 2005 Who are the Turks This study spans Central Asia the Middle East the Indian subcontinent Europe to explain the origins the history of the Turkish people up until the present day **Social Orders and Social Landscapes** Charles W. Hartley, Laura M. Popova, Adam T. Smith, 2021-02-10 Social Orders and Social Landscapes marks a new direction in research for Eurasian archaeology that focuses on how people lived in their local environment and interacted with their near and distant neighbours rather than on overarching comparisons of archaeological culture complexes Stemming from the 2005 University of Chicago Eurasian Archaeology Conference the papers collected here reflect this new research agenda though the way in which each author addressed the theme of the conference and thus the book was strikingly varied This diversity arises out of the field's intellectual flux driven by the principled engagement of the rich analytical traditions of the Soviet CIS Anglo American and European schools Despite the variability in approaches and subject matter several key themes emerged 1 the reinterpretation culture categories by examining particular aspects of social life 2 the role social memory plays in the production of landscape and place 3 the influence of the built environment on societies and 4 the ways in which economic considerations affect social orders and landscapes The result is a book that helps to re-image Eurasia as a complex landscape fragmented by historically contingent and shifting ecological and social boundaries rather than a bounded mosaic of culture areas or environmental zones Scholarly research on Eurasia was transformed by the collapse of the Soviet Union in 1991 Entire areas and fields of research became accessible to European and American scholars for the first time resulting in the emergence of new centers specializing in primary field investigations throughout the vast politically transformed landmass of Eurasia One such center is the University of Chicago that has recently sponsored two large international conferences on Eurasian archaeology Social Orders and Social Landscapes is the product of the second Chicago conference held in spring 2005 The editors of the volume should be proud of their efforts that have resulted in such a broad ranging and prompt publication The articles encompass a variety of disciplinary perspectives including archaeology history art history palynology and zooarchaeology extend chronologically from Neolithic and Bronze Age times to the formation of national identity in Turkey in the early 20th century and range geographically from Europe to China Several articles reconstruct basic subsistence activities others analyze distinctive settlement types and political and cultural frontiers including the assimilation and emergence of new self defined ethnic groups and the selective adoption of new systems of religious belief What unites this diverse collection is their consistent emphasis on the social construction of reality and the production of social landscapes and memories that altered perceptions of the physical world and mediated the practical activities that here have been convincingly reconstructed from the archaeological record In so doing rigid stereotypes are questioned and novel interpretations persuasively advanced Early Bronze Age pastoralism on the south

Russian steppes did not consist exclusively of herding animals nor was it combined as it was later in the Iron Age with the pursuit of agriculture rather D Anthony and D Brown suggest that at least in the Samara river valley the herding of animals occurred along side the intensive gathering of wild nutritionally rich plants The kalas of ancient Chorasmia are not cities nor even proto urban formations but rather are large heavily fortified enclosures meant to repel attacks of armed nomadic cavalry They represent a continuation of a distinct Central Asian settlement pattern that began in the Bronze Age and that formed the center of a landscape divided into contiguous self contained oases The Mongols not only herded livestock but also farmed fished hunted and traded throughout the vast area that they had conquered uniting most of Eurasia into a single economically integrated system New perspectives proliferate throughout this richly detailed and extremely broad ranging collected volume Phil Kohl Professor of Anthropology and the Kathryn W Davis Professor of Slavic Studies at Wellesley College Social Orders and Social Landscapes is a stimulating addition to the still small literature in English making the rich datasets from the archaeology of Eurasia widely accessible to Western scholars The authors of the eighteen chapters analyze data from China to the Mediterranean from the fourth millennium BCE through the fourteenth century CE with the tools of art and architectural history text analysis paleobotany and paleozoology and anthropological theory among others The product of a conference at the University of Chicago this book fulfils the goal of the graduate student organizers to apply interdisciplinary approaches to understanding the archaeology and history of the Eurasian landmass in local terms through a focus on how people lived in their local environments In the decade and a half since the end of the Soviet Union scholarly communication has broadened and the mutual influences have stimulated many new and thought provoking views on the Eurasian past This book is an exemplary product of the new scholarly discourse Karen S Rubinson Research Scholar Department of Anthropology Barnard College Columbia University

### **Cuisine and Empire** Rachel Laudan,2015-04-03

Rachel Laudan tells the remarkable story of the rise and fall of the world s great cuisines from the mastery of grain cooking some twenty thousand years ago to the present in this superbly researched book Probing beneath the apparent confusion of dozens of cuisines to reveal the underlying simplicity of the culinary family tree she shows how periodic seismic shifts in culinary philosophy beliefs about health the economy politics society and the gods prompted the construction of new cuisines a handful of which chosen as the cuisines of empires came to dominate the globe Cuisine and Empire shows how merchants missionaries and the military took cuisines over mountains oceans deserts and across political frontiers Laudan s innovative narrative treats cuisine like language clothing or architecture as something constructed by humans By emphasizing how cooking turns farm products into food and by taking the globe rather than the nation as the stage she challenges the agrarian romantic and nationalistic myths that underlie the contemporary food movement The Origins of Capitalism and the "Rise of the West" Eric Mielants,2008-03-15 In this study Eric Mielants provides a novel interdisciplinary interpretation of the origins of modernity and capitalism in particular He argues that contrary to popular thinking the Rise of the West should not

be analyzed in terms of the Industrial Revolution or the colonization of the New World but viewed from long term developments that occurred in the Middle Ages A fascinating overview of different civilizations in East Asia South Asia and Northwestern Africa is provided and systematically compared and contrasted with Western Europe This book addresses some of the major debates that have recently unfolded in world history comparative sociology political economy sociological theory and historical sociology Mielants indicates how many existing theories such as Marxism World Systems Theory and Smithian Modernization Theory have suffered from either Eurocentric or limited temporal and spatial analyses which prevents them from a complete understanding of why the origins of capitalism and citizenship emerged in Western Europe     The Hellenistic West Jonathan R. W. Prag, Josephine Crawley Quinn, 2013-10-24 Pathbreaking essays challenging the traditional focus on the eastern Mediterranean in the Hellenistic period and on Rome in the West     *Escape from Rome* Walter Scheidel, 2021-03-16 The gripping story of how the end of the Roman Empire was the beginning of the modern world The fall of the Roman Empire has long been considered one of the greatest disasters in history But in this groundbreaking book Walter Scheidel argues that Rome's dramatic collapse was actually the best thing that ever happened clearing the path for Europe's economic rise and the creation of the modern age Ranging across the entire premodern world *Escape from Rome* offers new answers to some of the biggest questions in history Why did the Roman Empire appear Why did nothing like it ever return to Europe And above all why did Europeans come to dominate the world In an absorbing narrative that begins with ancient Rome but stretches far beyond it from Byzantium to China and from Genghis Khan to Napoleon Scheidel shows how the demise of Rome and the enduring failure of empire building on European soil launched an economic transformation that changed the continent and ultimately the world     Polymaths of Islam James Pickett, 2020-09-15 Polymaths of Islam analyzes the social and intellectual power of religious leaders who created a shared culture that integrated Central Asia Iran and India from the mid eighteenth century through the early twentieth James Pickett demonstrates that Islamic scholars were simultaneously mystics and administrators judges and occultists physicians and poets This integrated understanding of the world of Islamic scholarship unlocks a different way of thinking about transregional exchange networks Pickett reveals a Persian language cultural sphere that transcended state boundaries and integrated a spectacularly vibrant Eurasia that is invisible from published sources alone Through a high cultural complex that he terms the Persian cosmopolis or Persianate sphere Pickett argues that an intersection of diverse disciplines shaped geographical trajectories across and between political states In *Polymaths of Islam* he paints a comprehensive colorful and often contradictory portrait of mosque and state in the age of empire     *Encyclopedia of World Trade: From Ancient Times to the Present* Cynthia Clark Northrup, Jerry H. Bentley, Alfred E. Eckes, Jr, Patrick Manning, Kenneth Pomeranz, Steven Topik, 2015-04-10 Written for high school or beginning undergraduate students this four volume reference valiantly attempts to provide a historical framework for the perhaps overly broad concept of world trade Entry topics were selected on trade organizations influential people commodities events

that affected trade trade routes navigation religion communic      **“The” Other Europe in the Middle Ages** Florin Curta, Roman Kovalev, 2008 Drawing on archaeological and narrative sources this collection of studies offers a fresh look at some of the most interesting aspects of the current research on the medieval nomads of Eastern Europe      *Masters of the Steppe: The Impact of the Scythians and Later Nomad Societies of Eurasia* Svetlana Pankova, St John Simpson, 2021-01-21 This book presents 45 papers presented at a major international conference held at the British Museum during the 2017 BP exhibition Scythians warriors of ancient Siberia Papers include new archaeological discoveries results of scientific research and studies of museum collections most presented in English for the first time      **The Garden of the Eight Paradises** Stephen Frederic Dale, 2004-01-01 A critical biography of Zah r al Din Muhammad B bur the founder in 1526 of the Timurid Mughal Empire of India offering
