Non Market Socialism In The Nineteenth And Twentieth Centuries:

Non-Market Socialism in the Nineteenth and Twentieth Centuries Maximilien Rubel, John Crump, 1987-08-07 Everyone knows that in socialism private companies are replaced by state enterprises which employ wage workers in order to produce profits which accrue to the state Not so say the authors of this book In the nineteenth century socialists as different as Marx and Kropotkin were agreed that socialism means a marketless moneyless wageless classless stateless world society Subsequently this vision of non market socialism has been developed by currents such as the Anarcho Communists Impossibilists Council Communists Bordigists and Situationists By tracing this development this book challenges the assumptions of both supporters and opponents of what is conventionally regarded as socialism *Hatta Shūzō and Pure Anarchism in Interwar Japan* John Crump, 1993 This is a pioneering study of Japanese pure anarchism between the wars focused on its principal theoretician Hatta Shuzo **Rupturing the Dialectic** Harry Cleaver, 2017-04-17 A central figure for anti authoritarian Marxists and radicals who see the working class as an autonomous force capable of acting independently and not simply reacting to the depredations of capitalism Harry Cleaver brings this vision up to date interpreting capitalism s latest crises and demonstrating how ordinary people can and do rupture the smooth functioning of the system that exploits them **Kropotkin** Brian Morris, 2018-06-01 The nineteenth century witnessed the growth of anarchist literature which advocated a society based on voluntary cooperation without government authority Although his classical writings on mutual aid and the philosophy of anarchism are still published today Peter Kropotkin remains a neglected figure A talented geographer and a revolutionary socialist Kropotkin was one of the most important theoreticians of the anarchist movement In *Kropotkin The Politics of Community* Brian Morris reaffirms with an attitude of critical sympathy the contemporary relevance of Kropotkin as a political and moral philosopher and as a pioneering social ecologist Well researched and wide ranging this volume not only presents an important contribution to the history of anarchism both as a political tradition and as a social movement but also offers insightful reflections on contemporary debates in political theory and ecological thought After a short biographical note the book analyzes in four parts Kropotkin s writings on anarchist communism agrarian socialism and integral education modern science and evolutionary theory the French Revolution and the modern state and possessive individualism terror and war Standing as a comprehensive and engaging introduction to anarchism social ecology and the philosophy of evolutionary holism Kropotkin is written in a straightforward manner that will appeal to those interested in social anarchism and in alternatives to neoliberal doctrines **Political and Historical Encyclopedia of Women** Christine Fauré, 2004-06-02 The original French edition of this encyclopedia the *Encyclopédie politique et historique des femmes* Second Edition has been lauded by French reviewers and now Routledge is pleased to publish this acclaimed resource in an English language edition From the Salic Law in medieval France to the American Revolution to today s women s representation in American and European politics this valuable resource discusses

women's participation in Western political and historical transformation The 40 authoritative in depth articles written by an international team of scholars examine women's activism in areas such as voting emancipation equality and democracy providing students and general readers with an indispensable resource Hannah Arendt and Participatory Democracy Shmuel Lederman, 2019-03-13 This book centers on a relatively neglected theme in the scholarly literature on Hannah Arendt's political thought her support for a new form of government in which citizen councils would replace contemporary representative democracy and allow citizens to participate directly in decision making in the public sphere The main argument of the book is that the council system or more broadly the vision of participatory democracy was far more important to Arendt than is commonly understood Seeking to demonstrate the close links between the council system Arendt advocated and other major themes in her work the book focuses particularly on her critique of the nation state and her call for a new international order in which human dignity and the right to have rights will be guaranteed her conception of the political and the conditions that can make this experience possible the relationship between philosophy and politics and the challenge of political judgement in the modern world **Life Without Money** Anitra Nelson, Frans Timmerman, 2011-11-07 The money based global economy is failing The credit crunch undermined capitalism's ability to ensure rising incomes and prosperity while market led attempts to combat climate change are fought tooth and nail by business as environmental crises continue We urgently need to combat those who say there is no alternative to the current system but what would an alternative look like The contributors to Life Without Money argue that it is time radical non market models were taken seriously The book brings together diverse voices presenting strong arguments against our money based system's ability to improve lives and prevent environmental disaster Crucially it provides a direct strategy for undercutting capitalism by refusing to deal in money and offers money free models of governance and collective sufficiency Life Without Money is written by high profile activist scholars including Harry Cleaver Ariel Salleh and John O'Neill making it an excellent text for political economy and environmental courses as well as an inspiring manifesto for those who want to take action

Critiques of Everyday Life Michael Gardiner, 2002-01-04 Recent years have witnessed a burgeoning interest in the study of everyday life within the social sciences and humanities In Critiques of Everyday Life Michael Gardiner proposes that there exists a counter tradition within everyday life theorising This counter tradition has sought not merely to describe lived experience but to transform it by elevating our understanding of the everyday to the status of a critical knowledge In his analysis Gardiner engages with the work of a number of significant theorists and approaches that have been marginalized by mainstream academe including The French tradition of everyday life theorising from the surrealists to Henri Lefebvre and from the Situationist International to Michel de Certeau Agnes Heller and the relationship between the everyday rationality and ethics Carnival prosaics and intersubjectivity in the work of Mikhail Bakhtin Dorothy E Smith's feminist perspective on everyday life Critiques of Everyday Life demonstrates the importance of an alternative multidisciplinary everyday life

paradigm and offers a myriad of new possibilities for critical social and cultural theorising and empirical research *The Council Communist Reader* Paul Mattick, Otto Rühle, Karl Korsch, Herman Gorter, Franz Pfemert, Anton Pannekoek, 2021-05-24

Workers councils does not designate a fixed form of organization elaborated once and for all and for which all that remains is to perfect its details it concerns a principle that of workers self management of the enterprise and of production The realization of this principle can never occur through a theoretical discussion concerning the best means of execution It is a question of the practical struggle against the apparatus of capitalist domination Anton Pannekoek The Council Communist Reader is a collection of selected writings from a few council communists Council Communism emerged in Holland and Germany in the 1920 s as an alternative to Bolshevik and Marxist Leninist thought up to the Third International Council Communist theory was derived from workers experiences in the German Revolution of 1918 the early years of the Weimar Republic and the study of the early council movements in Russia in 1905 and 1917 They sought not to impose a kind of organization upon the workers movement but instead to uplift the form of councils as spontaneous and self emancipatory for the working class This was a throughline for the council communists to connect back to Marx s understanding of proletarian revolution in maintaining the emancipation of the working class is the task of the workers themselves Council communism was not to be a new ideology for the working class but to take a critique of state socialism back to the roots of self emancipation towards theoretical coherence which can combat all forms that hinder emancipation and move this theoretical coherence into practice From this and their understanding revolutionary consciousness develops as a result of crisis revolution is not a choice but a necessity The works included in this book have been chosen to reflect the developments of Council Communism over decades this is not an exhaustive encyclopedic collection of all councilist texts but a collection of key texts This book in the Radical Reprint series from Pattern Books is made to be accessible and as close to manufacturing cost as possible

Guy Debord, the Situationist International, and the Revolutionary Spirit James Trier, 2019-07-15

Winner of the 2020 Choice Outstanding Academic Title Award Guy Debord the Situationist International and the Revolutionary Spirit presents a history of the two avant garde groups that French filmmaker and subversive strategist Guy Debord founded and led the Lettrist International 1952 1957 and the Situationist International 1957 1972 Debord is popularly known for his classic book *The Society of the Spectacle* 1967 but his masterwork is the Situationist International SI which he fashioned into an international revolutionary avant garde group that orchestrated student protests at the University of Strasbourg in 1966 contributed to student unrest at the University of Nanterre in 1967 1968 and played an important role in the occupations movement that brought French society to a standstill in May of 1968 The book begins with a brief history of the Lettrist International that explores the group s conceptualization and practice of the critical anti art practice of *dérive* as well as the subversive spatial practices of the *dérive* psychogeography and unitary urbanism These practices which became central to the Situationist International anticipated many contemporary cultural practices including culture

jamming critical media literacy and critical public pedagogy This book follows up the edited book *D tournament* as Pedagogical Praxis Sense Publishers 2014 and together they offer readers particularly those in the field of Education an introduction to the history concepts and critical practices of a group whose revolutionary spirit permeates contemporary culture as can be seen in the political actions of Pussy Riot in Russia the yellow vest protesters in France the BlackLivesMatter movement and the striking teachers and student protesters on campuses throughout the U S See inside the book

Territorial Fragilities in Cyprus Alice Buoli, Oana Cristina Țiganea, 2023-09-25 In this book the authors present a combination of research by design place based and policy oriented approaches to the territorial fragilities of Nicosia Nicosia in Cyprus is a city divided Since 1974 a 180 km long Buffer Zone has separated the Turkish Republic of Northern Cyprus TRNC and the Republic of Cyprus RoC This open wound cuts through the city's historical center crossing the Venetian walls a key cultural heritage asset and impacting the city's spatial and cultural identity Outcomes of an inter doctoral research initiative this edited book documents the local realities of the divided city and tests scenarios and spatial patterns of intervention to cope with the partition through the enhancement of local cultural heritage The book targets an academic audience architects urban planners heritage preservation professionals and policymakers providing a transferable research method relevant to those approaching a complex fragile and contested border territory

A Critical Theory of Economic Compulsion Werner Bonefeld, 2023-03-20 This book explores a variety of interconnected themes central to contemporary Marxist theory and its further development as a critical social theory Championing the critique of political economy as a critical theory of society and rejecting Marxian economics as a contradiction in terms it argues instead that economic categories are perverted social categories before identifying the sheer unrest of life the struggle to make ends meet as the negative content of the reified system of economic objectivity With class struggle recognised as the negative category of the cold society of capitalist wealth which sees in humanity a living resource for economic progress the author contends that the critique of class society finds its rational solution in the society of human purposes that is the classless society of communist individuals A theoretically sophisticated engagement with Marxist thought A Critical Theory of Economic Compulsion will appeal to scholars of social and political theory with interests in critical theory and post capitalist imaginaries

Explorations in the Sociology of Consumption George Ritzer, 2001-06-04 In this book one of the leading social theorists and cultural commentators of modern times turns his gaze on consumption George Ritzer author of the famous McDonaldization Thesis demonstrates the irrational consequences of the rational desire to consume and commodify He examines how McDonaldization might be resisted and situates the reader in the new cultural spaces that are emerging in society shopping malls casino hotels Disneyfied theme parks and Las Vegas the new cathedrals of consumption as he calls them The book shows how new processes of consumption relate to globalization theory In illuminating discussions of the work of Thorstein Veblen and the French situationists Ritzer unearths the roots of problems of consumption in older

sociological traditions He indicates how transgression is bound up with consumption through an investigation of the obscene in popular and postmodern culture Radical Theories Darrow Schechter,1994 This book aims to reclaim and rediscover the range of radical democratic socialist alternatives to capitalism Schechter argues that whilst the collapse of the Soviet Union has seen the failure of one type of socialism it has presented the left with the chance to re evaluate the contribution of thinkers and movements obscured by the hegemony of Marxism Leninism **Guy Debord and the Situationist**

International Tom McDonough,2004-02-27 Critical texts translations documents and photographs on the work of the Situationist International This volume is a revised and expanded version of a special issue of the journal October Winter 1997 that was devoted to the work of the Situationist International SI The first section of the issue contained previously unpublished critical texts and the second section contained translations of primary texts that had previously been unavailable in English The emphasis was on the SI s profound engagement with the art and cultural politics of their time 1957 1972 with a strong argument for their primarily political and activist stance by two former members of the group T J Clark and Donald Nicholson Smith Guy Debord and the Situationist International supplements both sections It reprints important hard to find essays by Giorgio Agamben Libero Andreotti Jonathan Crary Thomas Y Levin Greil Marcus and Tom McDonough and doubles the number of translations of primary texts which now encompass a broader and more representative range of the SI s writings on culture and language In a field still dominated by hagiography the critical texts were selected for their willingness to confront critically the history and legacy of the SI They examine the group within the broader framework of the historical and neo avant gardes and beyond that the postwar world in general The translations trace the SI s reflections on the legacy of the avant garde in art and architecture particularly on the linguistic and spatial significance of montage aesthetics Many of the translated works are by Guy Debord 1932 1994 the impresario of the SI especially known for his book The Society of the Spectacle **Market Socialism** David Schweickart,James Lawler,Hillel Ticktin,Bertell

Ollman,2016-04-22 First Published in 1998 Routledge is an imprint of Taylor Francis an informa company Critical Strategies for Social Research William K. Carroll,2004 Edited by Canadian sociologist William K Carroll this thought provoking volume is designed for research methods courses in sociology and social sciences Critical Strategies for Social Research explores ways in which several key research strategies bring an emancipatory dimension to social analysis The new approaches recognize that social analysis is a form of knowledge production that takes place in a human constructed world marked by injustice and persistent inequality Carroll considers five influential and productive strategies of inquiry Dialectical Social Analysis Institutional Ethnography Participatory Action Research Critical Discourse Analysis Social Inquiry as Communicative Reason *Ibss: Political Science: 1987* British Library of Political and Economic Science,1991 IBSS is the essential tool for librarians university departments research institutions and any public or private institutions whose work requires access to up to date and comprehensive knowledge of the social sciences **Communism in the 21st Century**

Shannon Kurt Brincat, 2013-12-12 A compelling three volume exploration of the philosophical social and political facets of the theory and practice of communism within the conditions of 21st century world politics and late capitalism The world has changed significantly and so has communism This groundbreaking three volume series comprises contributions from over 30 experts that thoroughly address the past present and future of communism The entries assess the modern re articulation of the notion of communism and its potential emergence against the backdrop of recent historical conditions and contemporary world politics taking into account the ongoing global financial crisis recent revolutions throughout the Middle East Occupy protest events and anti globalization movements The first volume reexamines Marx's ideas from many distinct viewpoints while the second volume considers the numerous challenges facing existing communist parties including those in China Cuba North Korea and Vietnam The last volume explores the future of communist thought and practice in the context of the modern world and the recurrent crises of capitalism

The Routledge Handbook on Ecosocialism Leigh Brownhill, Salvatore Engel-Di Mauro, Terran Giacomini, Ana Isla, Michael Löwy, Terisa E. Turner, 2021-12-27 Building on the classical works that have propelled and shaped ecosocialist thinking and action and more recent political developments on the ground the volume will provide a reference point for international work in the field both directly political and academic The Handbook acquaints readers with the varied roots of and sometimes conflicting approaches to ecosocialism It does not attempt any unification of ecosocialist currents Rather it aims to provide a resource that is as comprehensive as possible with respect not only to theorization and ideological framing but also and especially to existing projects practices and movements and giving a sense of the geographical reach that ecosocialism so far represents This includes scholarship that extends Marxist foundations and reflects on more recent political developments The theoretical and practice oriented moorings are buttressed by discussions on movements frameworks and prefigurative processes as well as on social struggles occurring within institutional settings Together the collection offers a reference point for international work in the field in social movements and in institutional transformations Providing detailed but accessible overviews of the complex varied dimensions of ecosocialism the Handbook is an essential up to date guide and reference not only for researchers but also for undergraduate and graduate students in geography environmental studies development studies sociology and political science as well as for policymakers and activists
