Non-Governmental Organisations and the United Nations Human Rights System Fiona McGaughey, 2021-05-30 Non governmental Organisations NGOs have become important although sometimes overlooked actors in international human rights law Although NGOs are not generally provided for in the hard law of treaties they use the UN human rights system to hold Governments to account A key way in which they do so is using State reporting mechanisms initially the UN treaty bodies but more recently supplemented by the Human Rights Council s Universal Periodic Review In doing so NGOs provide information and contribute to developing recommendations NGOs also lobby for new treaties contribute to the drafting of these treaties and bring individual s complaints to the UN human rights bodies This book charts the historical development of the NGO role in the UN It examines the UN regulation of NGOs but the largely informal nature of the role and an exploration of the various types of NGOs including some less benign actors such as GONGOs Governmental NGOs It also draws on empirical data to illustrate NGO influence on UN human rights bodies and gives voice to stakeholders both inside and outside the UN The book concludes

that the current UN human rights system is heavily reliant on NGOs and that they play an essential fact finding role and contribute to global democratisation and governance Status of NGOs in International Humanitarian Law Claudie Barrat,2014-07-24 In Status of NGOs in International Humanitarian Law Claudie Barrat examines the legal framework applicable to NGOs in situations of armed conflict The author convincingly demonstrates contrary to convention that in addition to the ICRC the National Societies and the IFRC numerous other NGOs referenced in humanitarian law treaties have a legal status in IHL and therefore legitimate claim to employ IHL provisions to respond to current challenges On the basis of clear and thorough definitions of these entities Barrat argues that existing NGOs meeting stringent definition can benefit from customary rights and obligations in both international and non international armed conflict **The Normative**

Position of International Non-Governmental Organizations Under International Law Rephael Harel

Ben-Ari,2012-05-07 Exploring contemporary juridical theories regarding the normative position of INGOs vis vis the subjects of international law this book engages in a thorough contextual historical and interdisciplinary evaluation of the potential to generate solutions for the exercise of unregulated authority outside the state system *The Normative Position of International Non-Governmental Organizations under International Law* Rephael Harel Ben-Ari,2012-05-07 The activities of International Non Governmental Organizations give rise to multifaceted questions of legality and legitimacy The normative position of INGOs within the international community has proved to be acutely controversial demanding a fundamental reconsideration of the concepts of the nation state and of international organizations of all kinds There is manifestly a crying need for a comprehensive framework against which the capacity of international law to comprehend these complex issues can be measured This book explores contemporary approaches towards INGOs those based on criticism of the doctrine of international legal personality as well as those adopting a functional constitutional perspective It engages in a stimulating and thorough interdisciplinary evaluation of the theoretical and practical potential of these theories to generate solutions for the problems produced by the exercise of unregulated authority outside the state system The book investigates the main concepts put forward by international lawyers within postmodern discourse among them global civil society globalization and governance and examines their consistency with existing institutional arrangements and the century old attempts to standardize the status of INGOs **Control Over Compliance With International Law** William Elliott Butler,1991-08-22

Of all the Issues on the East West agenda none is more vital to the perestroika processes on the international plane than confidence on all sides that international legal obligations assumed will be wholly complied with Increasingly such confidence requires particular often intrusive machinery to ensure compliance to the satisfaction of the parties concerned The revolution under perestroika is that in East West relations the former protagonists now accept that machinery is required and the deliberations have moved onto the level of why how much and how it can best be accomplished The contributions to the present volume continuing and developing earlier Anglo Soviet symposia on public international law addresses the topic for

the first time in a framework that transcends arms control and disarmament Non-Governmental Interests in International Regional Organizations Elisa Tino, 2018-03-20 International organizations are typically intergovernmental in nature and endowed with a bipolar institutional structure where organs of States are usually juxtaposed with the Secretariat. On these premises, in *Non Governmental Interests in Regional Organizations: The Role of Parliamentary, Socio-Economic and Territorial Institutions*, Elisa Tino aims at analysing the unexplored phenomenon of institutional multipolarity of regional organizations, namely the trend to establish institutions representing non-governmental interests. Particularly illustrating their diffusion in various geographic areas, explaining rationales underlying their establishment and investigating their institutional aspects, Elisa Tino pinpoints the contribution of these institutions to the development of regional organizations both according to the functionalist approach and the constitutionalist one. Thus, she aims at providing food for thought in the study of international organizations.

Non-Governmental Organizations in World Politics Peter Willetts, 2010-12-15 Non-governmental organizations (NGOs) from Amnesty International and Oxfam to Greenpeace and Save the Children are now key players in global politics. This accessible and informative textbook provides a comprehensive overview of the significant role and increasing participation of NGOs in world politics. Peter Willetts examines the variety of different NGOs, their structure, membership and activities, and their complex relationship with social movements and civil society. He makes us aware that there are many more NGOs exercising influence in the United Nations system than the few famous ones. Conventional thinking is challenged in a radical manner on four questions: the extent of the engagement of NGOs in global policy-making; the status of NGOs within international law; the role of NGOs as crucial pioneers in the creation of the Internet; and the need to integrate NGOs within mainstream international relations theory. This is the definitive guide to this crucial area within international politics and should be required reading for students, NGO activists, and policy makers.

The Legal Status of International Non-Governmental Organizations Rephael Harel Ben-Ari, 2013-08-08 The discourse regarding the legal status of international non-governmental organizations (INGOs) is not new; in fact, it has already progressed throughout the last 100 years. However, most of the proposals to grant official status to INGOs or to otherwise regulate their cross-border activity are relatively unknown to international lawyers. A perusal of these initiatives against their unique historical background will prove highly significant in dissecting the complexities involved in formulating a comprehensive scheme for the regulation of INGOs. Innovatively, this work outlines and evaluates the sequence of attempts to propose a formal status for INGOs. It demonstrates how this historical contextual analysis provides an invaluable perspective that is essential for the informed review of contemporary schemes and theoretical trends relevant to the consideration of the status of INGOs. Unfortunately, most contemporary writers and activists who deal with the normative aspects of INGO activity neglect this crucial perspective.

Non-Governmental Organisations and the Law Domenico Carolei, 2023-05-11 This book examines accountability issues and the problems of regulating non-governmental organisations (NGOs) through self-regulation. It focuses

on methods of self regulation for NGOs in response to prominent scandals that revealed problems with their accountability notably the Mafia Capitale scandal in Italy and the Oxfam GB scandal in Haiti It also touches upon other accountability failures including the allegations against the WWF of facilitating human rights abuses of indigenous groups in Cameroon The work brings a legal approach to the topic of NGO self regulation and accountability contributing to the academic and policy debate in several ways It advances a brand new theoretical model to explain the reasons behind NGOs non compliance with self regulation examines the reasons for self regulation failures identifies new accountability routes and recommends proposals for sectoral reform The book will be of great interest to scholars researchers and PhD students who work in the area of NGO regulation and accountability from a legal perspective as well as to accountability and NGO scholars working in other disciplines It will also appeal to practitioners and policymakers who work on the development of NGO policies
