Nonduality A Study In Comparative Philosophy:

Nonduality David Loy, 2012-06-29 Many Western philosophers are poorly informed about the issues involved in nonduality since this topic is usually associated with various kinds of absolute idealism in the West or mystical traditions in the East Increasingly however this topic is finding its way into Western philosophical debates In this scholarly but leisurely and very readable Spectrum Review analysis of the philosophies of nondualism of Hindu Vedanta Mahayana Buddhism and Taoism Loy extracts what he calls a core doctrine of nonduality of seer and seen from these three worldviews and then applies the doctrine in various ways including a critique of Derrida's deconstructionism *Nondualism* Jon Paul Sydnor, Anthony J. Watson, 2023-09-05 The time has come for nondualism As a fundamentally unifying concept nondualism may seem out of place in an age of rising nationalism and bitter deglobalization but our current debates over tribalism and universalism all grant nondualism an informative relevance Nondualism rejects both separation and identity thereby encouraging unity in difference Yet nondualism as a word occupies a large semantic field Nondual theists advocate the unity of humankind and God while nondual atheists advocate the inseparability of all persons without reference to a divinity Ecological nondualism asserts that we are in nature and nature is in us while monistic nondualists assert that only God exists and all difference is illusion Edited by Jon Paul Sydnor and Anthony Watson and guided by scholars from different religions and specializations Nondualism An Interreligious Exploration explores the semantic field that nondualism occupies The collection elicits the expansive potential of the concept clarifies agreement and disagreement and considers current applications In every case nondualism is universal in its relevance yet always distinctive in its contribution *Buddhist Thought and Applied Psychological Research* D.K. Nauriyal, Michael S. Drummond, Y.B. Lal, 2006-08-21 Written by leading scholars and including a foreword by the Dalai Lama this book explores the interface between Buddhist studies and the uses of Buddhist principles and practices in psychotherapy and consciousness studies The contributors present a compelling collection of articles that illustrate the potential of Buddhist informed social sciences in contemporary society including new insights into the nature of human consciousness The book examines the origins and expressions of Buddhist thought and how it is now being utilized by psychologists and social scientists and also discusses the basic tenets of Buddhism and contemporary Buddhist based empirical research in the psychological sciences Further emphasis is placed on current trends in the areas of clinical and cognitive psychology and on the Mahayana Buddhist understanding of consciousness with reference to certain developments in consciousness studies and physics A welcome addition to the current literature the works in this remarkable volume ably demonstrate how Buddhist principles can be used to develop a deeper understanding of the human condition and behaviours that lead to a balanced and fulfilling life *Buddhisms and Deconstructions* Jin Y. Park, 2006-03-10 *Buddhisms and Deconstructions* considers the connection between Buddhism and Derridean deconstruction focusing on the work of Robert Magliola Fourteen distinguished contributors discuss deconstruction and various Buddhisms

Indian Tibetan and Chinese Chan followed by an afterword in which Magliola responds directly to his critics

PSYCHOLOGY - Volume III Stefano Carta, 2009-11-29 Psychology theme in a set of three volumes is one of a number of many theme subjects covered by the Encyclopedia of Biological Physiological and Health Sciences a component of the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty such component Encyclopedias The three volume set is organized in seven main areas that try to cover essential information about such this wide and complex field of human knowledge from its neurobiological correlates to the study of how the human mind imagines and how it produces symbols that guide human behavior to the most advanced clinical interventions within the psychotherapeutic realm These three volumes are aimed at the following five major target audiences University and College Students Educators Professional Practitioners Research Personnel and Policy Analysts Managers and Decision Makers and NGOs Untying the Gordian Knot Timothy E. Eastman, 2020-12-10 In Untying the Gordian Knot Process Reality and Context Timothy E Eastman proposes a new creative synthesis the Logoi framework which is radically inclusive and incorporates both actuality and potentiality to show how the fundamental notions of process logic and relations woven with triads of input output context and quantum logical distinctions can resolve a baker's dozen of age old philosophic problems Further Eastman leverages a century of advances in quantum physics and the Relational Realism interpretation pioneered by Michael Epperson and Elias Zafiris and augmented by the independent research of Ruth Kastner and Hans Primas to resolve long standing issues in understanding quantum physics Adding to this Eastman makes use of advances in information and complex systems semiotics and process philosophy to show how multiple levels of context combined with relations including potential relations both local and global can provide a grounding for causation emergence and physical law Finally the Logoi framework goes beyond standard ways of knowing that of context independence science and context focus arts humanities to demonstrate the inevitable role of ultimate context meaning spiritual dimension as part of a transformative ecological vision which is urgently needed in these times of human and environmental crises **Swami Vivekananda's Vedāntic**

Cosmopolitanism Swami Medhananda, 2022 Swami Vivekananda the nineteenth century Hindu monk who introduced Vedanta to the West is undoubtedly one of modern India's most influential philosophers Unfortunately his philosophy has too often been interpreted through reductive hermeneutic lenses Typically scholars have viewed him either as a modern day exponent of Sankara's Advaita Vedanta or as a Neo Vedantin influenced more by Western ideas than indigenous Indian traditions In Swami Vivekananda's Vedāntic Cosmopolitanism Swami Medhananda rejects these prevailing approaches to offer a new interpretation of Vivekananda's philosophy highlighting its originality contemporary relevance and cross cultural significance Vivekananda the book argues is best understood as a cosmopolitan Vedantin who developed novel philosophical positions through creative dialectical engagement with both Indian and Western thinkers Inspired by his guru Sri Ramakrishna Vivekananda reconceived Advaita Vedanta as a nonsectarian life affirming philosophy that provides an

ontological basis for religious cosmopolitanism and a spiritual ethics of social service He defended the scientific credentials of religion while criticizing the climate of scientism beginning to develop in the late nineteenth century He was also one of the first philosophers to defend the evidential value of supersensuous perception on the basis of general epistemic principles Finally he adopted innovative cosmopolitan approaches to long standing philosophical problems Bringing him into dialogue with numerous philosophers past and present Medhananda demonstrates the sophistication and enduring value of Vivekananda's views on the limits of reason the dynamics of religious faith and the hard problem of consciousness

Mindfulness in the Marketplace Allan Hunt Badiner, 2005-08-10 Mindfulness in the Marketplace suggests a reorientation of consumers from passive purchasers to aware responsible citizens who see the dynamic connection between their purchases and their values The Middle Path of Buddhism is not to avoid all consumption but to consume mindfully in a manner that protects ourselves and all living systems This anthology outlines a path of compassionate resistance to global corporatization and offers a view of getting into right relationship with the Earth Includes the Dalai Lama Thich Nhat Hanh Stephen Batchelor and Joanna Macy

One Jerry Katz, 2007-01-30 This book compiles the most lively expressions of nonduality which is the understanding that existence is one undivided whole and that the daily distinctions we make within this unity are useful but not ultimately true The book conveys what nonduality itself is in a nonacademic style that draws heavily on modern popular writing on the subject Also included are spirited passages from major traditions Buddhism Taoism Hinduism Christianity Judaism and Islam

Derrida and Negative Theology Professor Harold Coward, Harold G. Coward, Toby Foshay, Jacques Derrida, 1992-01-01 This book explores the thought of Jacques Derrida as it relates to the tradition of apophatic thought negative theology and philosophy in both Western and Eastern traditions Following the Introduction by Toby Foshay two of Derrida's essays on negative theology Of an Apocalyptic Tone Newly Adopted in Philosophy and How to Avoid Speaking Denials are reprinted here These are followed by essays from a Western perspective by Mark C Taylor and Michel Despland and essays from an Eastern perspective by David Loy a Buddhist and Harold Coward a Hindu In the Conclusion Jacques Derrida responds to these discussions

Language and the Ineffable Louis S. Berger, 2011-01-20 One's conception of language is central in fields such as

linguistics but less obviously so in fields studying matters other than language In *Language and the Ineffable* Louis S Berger demonstrates the flaws of the received view of language and the difficulties they raise in multiple disciplines This breakthrough study sees past failures as inevitable since reformers retained key detrimental features of the received view Berger undertakes a new reform grounded in an unconventional model of individual human development A central radical and generative feature is the premise that the neonate's world is holistic boundary less unimaginable impossible to describe in other words ineffable completely distinct from what Berger calls adultocentrism The study is a wholly original approach to epistemology separate from the traditional interpretations offered by skepticism idealism and realism The work rejects both the independence of the world and the possibility of true judgment a startling shift in the traditional responses to the standard schema *Language and the Ineffable* evolves a unique conception of language that challenges and unsettles sacrosanct beliefs not only about language but other disciplines as well Berger demonstrates the framework's potential for elucidating a wide range of problems in such diverse fields as philosophy logic psychiatry general experimental psychology psychotherapy and arithmetic The reconceptualization marks a revolutionary turn in language studies that reaches across academic boundaries
