Riemschneider's very first and most recent critical essays the one a classic on Mulk Raj Anand the other a challenging and doubtless controversial thesis on postcolonial minority writing A select bibliography of Riemschneider's work books edited publications journal articles and book contributions reviews and broadcasts rounds off this substantial collection *Shifting Contexts* Marilyn Strathern, 2012-09-10 To suppose anthropological analysis can shift between global and local perspectives may well imply that the two co-exist as broader and narrower horizons or contexts of knowledge The proof for this can be found in ethnographic accounts where contrasts are repeatedly drawn between the encompassing realm and everyday life or in value systems which simultaneously trivialise and aggrandise or in shifts between what pertains to the general or to the particular *State*, 1987

The Rhodesian War Paul L. Moorcraft, Peter McLaughlin, 2008-09-22 A military history of the former British colony of Southern Rhodesia now Zimbabwe spanning from 1890 to the 1970s In this exciting book authors Paul Moorcraft and Peter McLaughlin examine the military history of Southern Rhodesia from the first resistance to colonial rule through the period of UDI by the Smith government to the Lancaster House agreement that transferred power They recount the Rhodesian security forces operations against the Black nationalist guerillas and the intensity of the fighting and courage of the participants will surprise and enthrall readers Atrocities were committed by both sides but equally the protagonists were playing for very high stakes But this is more than just a book on military operations The authors provide expert analysis of the historical situation and examine events up to the present day including Mugabe's operations against rival tribes and white farmers For a thorough work on its subject this book cannot be bettered It is essential reading for those wishing to learn more about a counter insurgency campaign The ingenuity of the Rhodesian military fighting against overwhelming odds and restricted by sanctions is impressive but the outcome culminating in the Lancaster House Agreement was inevitable Praise for The Rhodesian War An outstanding exception to most accounts of the Rhodesian civil war achieved impressive objectivity in concentrating on operational issues Anthony Verrier author of *The Road to Zimbabwe* The book is full of intrigue and plots South African intelligence wanted to assassinate Mugabe but there might also have been plans afoot to kill of Britain's Prince Charles during his visit to Harare Heidi Kingstone *The Star* South Africa

Transforming Settler States Ronald Weitzer, 2022-08-19 In the past two decades several settler regimes have collapsed and others seem increasingly vulnerable This study examines the rise and demise of two settler states with particular emphasis on the role of repressive institutions of law and order Drawing on field research in Northern Ireland and Zimbabwe Ronald Weitzer traces developments in internal security structures before and after major political transitions He concludes that thoroughgoing transformation of a repressive security apparatus seems to be an essential but often overlooked precondition for genuine democracy In an instructive comparative analysis Weitzer points out the divergent development of initially similar governmental systems For instance since independence in 1980 the government of Zimbabwe has retained and fortified basic features of the legal and organizational machinery of control inherited from the white Rhodesian state and has used this apparatus to neutralize obstacles to the installation of a one party state In contrast though liberalization is far from complete The British government has succeeded in reforming important features of the old security system since the abrupt termination of Protestant Unionist rule in Northern Ireland in 1972 The study makes a novel contribution to the scholarly literature on transitions from authoritarianism to democracy in its fresh emphasis on the pivotal role of police military and intelligence agencies in shaping political developments This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1990

South African Theatre as/and Intervention ,2021-11-22 One of the most striking features of cultural life in South Africa has been the extent to which one area of cultural practice theatre has more than any other testified to the present condition of the country now in transition between its colonial past and a decolonized future But in what sense and how far does the critical force of theatre in South Africa as a mode of intervention continue In the immediate post election moment theatre seemed to be pursuing an escapist nostalgic route relieved of its historical burden of protest and opposition But as the contributors to this volume show new voices have been emerging and a more complex politics of the theatre involving feminist and gay initiatives physical theatre festival theatre and theatre for education has become apparent Both new and familiar players in South African theatre studies from around the world here respond to or anticipate the altered conditions of the country while exploring the notion that theatre continues to intervene This broad focus enables a wide and stimulating range of approaches contributors examine strategies of intervention among audiences theatres established and fledgling writers canonical and new texts traditional and innovative critical perspectives The book concludes with four recent interviews with influential practitioners about the meaning and future of theatre in South Africa Athol Fugard Fatima Dike Reza de Wet and Janet Suzman

Shooting the Messenger Paul Moorcraft, 2011-10-31 Wars have dominated politics since history began In the modern era most of what the media reports on foreign conflicts comes from a small band of war correspondents As the furore over the Iraq Afghan and now the Libyan wars demonstrates Western governments and militaries often collude to keep their voters in the dark about the causes and the conduct of wars waged in their name In this entertaining and unspun account of modern war reporting the authors ask whether the media itself drives democracies to war Or does it serve to constrain evil ignorant and messianic leaders Are the heirs of William Howard Russell the first modern war reporter watchdogs or lapdogs In the age of Wikileaks

and corrupt media empires what is the political impact of war correspondents Are they the heroes or harlots of their profession
