Byzantine Materiality Evan Freeman, Roland Betancourt, 2024-06-04 This volume explores the power of matter and materials in the Eastern Roman Empire also known as Byzantium Recent attention to matter as dynamic and meaningful constitutes an emerging interdisciplinary field of inquiry known as materiality new materialism or the material turn Materials can be symbolic but matter can also act on human subjects This volume builds on these insights to consider the role of matter materials form and embodied experiences in Byzantium In many respects Byzantine materiality represents a continuation of its Greco Roman inheritance which was also shared by neighboring peoples such as the Umayyads and Abbasids But the Byzantines also developed their own unique perspectives on matter and form as with their parsing of the sacred materialities of icons the Eucharist and relics Chapters in this volume consider the cultural meanings and functions of materials such as gold and ivory the materiality of icons and relics experiences of objects as well as Byzantine philosophies of matter and form Materiality takes center stage in Byzantine constructions of power luxury belief and identity which will be of interest to scholars and students of Byzantium and the wider medieval world

Direct Speech in Nonnus' Dionysiaca Berenice Verhelst, 2016-11-01 Direct Speech in Nonnus Dionysiaca is the first more extensive study of the use and functions of direct speech in Nonnus Dionysiaca 5th century AD Its long soliloquies and scarcity of dialogues have often been pointed out as striking characteristics of Nonnus epic style but nonetheless this fascinating subject received relatively little attention Berenice Verhelst aims to reveal the poem's constant interplay between the epic tradition and the late antique literary context with its clear rhetorical stamp She focusses on the changed functions of direct speech and their implications for the presentation of the mythological story Organized around six case studies this book presents an in depth analysis of a representative part of the vast corpus of the Dionysiaca's 305 speeches The digital appendix to this book Database of Direct Speech in Greek Epic Poetry can be consulted online at www.dsgep.ugent.be

The Late Geometric and Early Archaic North-Eastern Aegean Petya Velichkova Ilieva, 2023-12-31 The book focuses on the archaeology of the Late Geometric and Early Archaic North Eastern Aegean through the emergence manufacture distribution and consumption of a regional pottery group known as G 2 3 Ware It offers the first comprehensive in depth study through combination of scientific fabric analysis and traditional morphological stylistic comparative and distribution analysis methods The large body of studied material allows for drawing conclusions on a broader geographical and historical scale in contrast to earlier studies focused on individual sites The manufacture distribution and consumption patterns are characterised by diversity which reflects a dynamic multiethnic communication network developed in the Northern Aegean basin in the late 8th and the 7th c BC The adoption of G 2 3 Ware by local Thracian coastal communities is discussed in the light of transfer of knowledge and social practices It is argued that the G 2 3 Ware potters were aware of earlier and contemporaneous ceramic developments in southern Greece and Anatolia and created a blend of pottery features specific for each one of these areas The study

deconstructs the forged link between G 2 3 Ware and the Greek colonisation in the area by linking it to a local pre colonial development

"Titian, Colonna and the Renaissance Science of Procreation " Anthony Colantuono, 2017-07-05 Titian Colonna and the Renaissance Science of Procreation demonstrates that two major monuments of Italian Renaissance culture Bellini s and Titian s famous series of mytho poetical paintings for the camerino of Duke Alfonso d Este of Ferrara and Francesco Colonna s Hypnerotomachia

Poliphili were conceived as mnemonic or pedagogical devices aimed at educating the reader beholder in the medical science of reproductive physiology and the maintenance of sexual health It is further argued that the learned courtier Mario Equicola who conceived the pictorial program of Duke Alfonso s camerino had read Colonna s text and was extensively inspired by its prior literary argument The study is organized in two parts intimately interrelated The first part is a study of Alfonso d Este s camerino with a general introduction individual chapters on each of Bellini s and Titian s four pictorial bacchanals and a conclusion proposing a new and more accurate reconstruction of the layout of the room also including a completely new way of interpreting the ensemble The second part of the study concerns Colonna s Hypnerotomachia Poliphili again beginning with its own introductory essay and advancing a completely new interpretation of the text The brief conclusion brings the insights of the two sections together clarifying the historical relationship between the pictorial and literary works and explaining their larger cultural significance Emphasizing Equicola s use of the Hypnerotomachia as a model for pictorial invention the author reveals how Titian s remarkably sensuous paintings and Colonna s erotically charged romance are related by their common reference to the neo Aristotelian medical theory of the libidinal seasons and by corollary themes of marriage and sexual consummation This peculiar intersection of cultural themes came to prominence in the context of a courtly world in which medical science was increasingly brought to bear on the problem of dy Indo-European and Indo-Europeans George Cardona, Henry M. McManamon, 2021-03-01 In a novel study of the impact of classical culture John McManamon demonstrates that Renaissance scholars rediscovered the importance of swimming to the ancient Greeks and Romans and conceptualized the teaching of swimming as an art The ancients had a proverb that described a truly ignorant person as knowing neither letters nor swimming McManamon traces the ancient textual and iconographic evidence for an art of swimming demonstrates its importance in warfare and highlights the activities of free divers who exploited the skill of swimming to earn a living Renaissance theorists of a humanist education first advocated a rebirth for swim training Erasmus included the classical proverb in his Adages and two sixteenth century scholars wrote treatises in dialogue form on methods for teaching young people how to swim **The Voice of Misery** Gert-Jan van der Heiden, 2020-01-01 From analytic epistemology to gender theory testimony is a major topic in philosophy today Yet one distinctive approach to testimony has not been fully appreciated the recent history of contemporary continental philosophy offers a rich source for another approach to testimony In this book Gert-Jan van der Heiden argues that a continental philosophy of testimony can be developed that is guided by those forms of bearing witness that attest to limit experiences of human existence in which the human is rendered mute speechless or robbed of a common understanding In the first part Van der Heiden explores this sense of testimony in a reading of several literary texts ranging from Plato's literary inventions to those of Kierkegaard Melville Soucy and Mortier In the second part based on the orientation offered by the literary experiments Van der Heiden offers a more systematic account of testimony in which he distinguishes and analyzes four basic elements of testimony In the third part he shows what this analysis implies for the question of the truth and the truthfulness of testimony In his discussion with philosophers such as Heidegger Derrida Lyotard Agamben Foucault Ricoeur and Badiou Van der Heiden also provides

an overview of how the problem of testimony emerges in a number of thinkers pivotal to twentieth and twenty first century thought *The Mythology of Plants* Annette Giesecke,2014-04-01 This engaging book focuses on the perennially fascinating topic of plants in Greek and Roman myth The author an authority on the gardens art and literature of the classical world introduces the book s main themes with a discussion of gods and heroes in ancient Greek and Roman gardens The following chapters recount the everyday uses and broader cultural meaning of plants with particularly strong mythological associations These include common garden plants such as narcissus and hyacinth pomegranate and apple which were potent symbols of fertility and sources of precious incense including frankincense and myrrh Following the sweeping botanical commentary are the myths themselves told in the original voice of Ovid classical antiquity s most colorful mythographer The volume s interdisciplinary approach will appeal to a wide audience ranging from readers interested in archaeology classical literature and ancient history to garden enthusiasts With an original translation of selections from Ovid s *Metamorphoses* an extensive bibliography a useful glossary of names and places and a rich selection of images including exquisite botanical illustrations this book is unparalleled in scope and realization

Rethinking the Qur'ān in Late Antiquity Juan Cole,2025-03-03 How the Qur n reflects on and responds to the regional cultural religious and political currents swirling in Western Arabia and neighboring areas during the great war 603 630 between the Roman and Sasanian empires The book approaches the Qur n through six case studies The first two consider the era 200 800 CE which classicist Peter Brown dubbed late antiquity The second two contextualize quranic stories and tropes in the era of Herakleios and Khosrow II The final pair consider issues in how the Qur n was constituted both physically and stylistically and also sets these processes in their late antique context The book treats the constitution of the quranic text first physically and then rhetorically The use in the Qur n of the technique of narrative apostrophe is for the first time subjected to a concerted analysis These themes are all united by a concern to understand better issues in why the Qur n makes certain narrative choices how the narrative changes over time and how it articulates with other texts and perspectives

Identities, Ethnicities and Gender in Antiquity Jacqueline Fabre-Serris,Alison Keith,Florence Klein,2021-04-06 The question of identity arises for any individual or ethnic group when they come into contact with a stranger or another people Such contact results in the self conscious identification of ways of life customs traditions and other forms of society as one s own specific cultural features and the construction of others as characteristic of peoples from more or less distant lands described as very different Since all societies are structured by the division between the sexes in every field of public and private activity the modern concept of gender is a key comparator to be considered when investigating how the concepts of identity and ethnicity are articulated in the evaluation of the norms and values of other cultures The object of this book is to analyze at the beginning Western culture various examples of the ways the Greeks and Romans deployed these three parameters in the definition of their identity both cultural and gendered by reference to their neighbours and foreign nations at different times in their history This study also aims to enrich

contemporary debates by showing that we have yet to learn from the ancients discussions of social and cultural issues that are still relevant today
