Pui-lan,2021-12-07 *Postcolonial Politics and Theology* seeks to reform and reimagine the field of political theology uprooting it from the colonial soil using the comparative lenses of postcolonial politics and theology to bring attention to the realities of the Global South Kwok Pui lan traces the history of the political impacts of Western theological development especially developments in the U S context and the need to shift these interlocking fields toward non Western traditions in theory and practice A special focus of the book is on the changing sociopolitical realities of American Empire and Sino American competition illustrated in Donald Trump s slogan of Make America Great Again and Xi Jinping s hope for a China Dream The shifting of U S and Asian relationships highlights the need to move our theological and political categories away from a vision of strongman domination and toward a postmodern postcolonial and transnational world especially exemplified in the Asia Pacific context Throughout Kwok overturns the idea of centering one cultural framework and marginalizing others in favor of living into a multiplicity of deeply contextual theologies She explores how these theologies are being developed in global postcolonial contexts through struggles for democracy and civil disobedience in Hong Kong by efforts to reclaim selfhood and sexual identity from exploitative colonial desire through the work of interreligious solidarity and peacebuilding and in the practice of earth care in the face of ecological crisis *Striving in the Path of God* Asma Afsaruddin,2013-05-07 In popular

and academic literature jihad is predominantly assumed to refer exclusively to armed combat and martyrdom in the Islamic context is understood to be invariably of the military kind This perspective derived mainly from legal texts has led to discussions of jihad and martyrdom as concepts with fixed universal meanings divorced from the socio political circumstances in which they have been deployed through the centuries Asma Afsaruddin studies in a more holistic manner the range of significations that can be ascribed to the term jihad from the earliest period to the present and historically contextualizes the competing discourses that developed over time Many assumptions about the military jihad and martyrdom in Islam are thereby challenged and deconstructed A comprehensive interrogation of varied sources reveals early and multiple competing definitions of a word that in combination with the phrase fi sabil Allah translates literally to striving in the

path of God Contemporary radical Islamists have appropriated this language to exhort their cadres to armed political opposition which they legitimize under the rubric of jihad Afsaruddin shows that the multivalent connotations of jihad and shahid recovered from the formative period lead us to question the assertions of those who maintain that belligerent and militant interpretations preserve the earliest and only authentic understanding of these two key terms Retrieval of these multiple perspectives has important implications for our world today in which the concepts of jihad and martyrdom are still being fiercely debated
