Smith,2013-11-05 Since the end of the Cold War there has been an increased interest in the Baltics The Baltic States brings together three titles Estonia Latvia and Lithuania to provide a comprehensive and analytical guide integrating history political science economic development and contemporary events into one account Since gaining their independence each country has developed at its own pace with its own agenda and facing its own obstacles The authors examine the tensions accompanying a post communist return to Europe after the long years of separation and how each country has responded to the demands of becoming a modern European state Estonia was the first of the former Soviet republics to enter membership negotiations with the European Union in 1988 and is a potential candidate for the next round of EU expansion in 2004 Lithuania and Latvia have also expressed their desire for future membership of NATO and the EU      **Latvia** Artis Pabriks,Aldis Purs,2013-03-07 The past one hundred years have been a very trying time for Latvia complete with success tragedy and still unrealized promise Within the course of a generation the country experienced revolutions wars and

independent statehood and then the slide into authoritarianism World War II brought new occupations The tragedies were staggering holocaust executions and an exodus of refugees Soviet consolidation bred deportations forced collectivization and partisan warfare Almost fifty years later Latvia regained its independence and emerged from decades of disastrous Soviet rule This book comprehensively surveys Latvia's recent past and prospects for the new millennium placing contemporary events in historical perspective The authors address the evolution of the country from the movement against Soviet rule to the dilemmas of contemporary politics party formation the problem of corruption the quest for the future and a regional and international role the struggle to develop a civil society the issue of ethnic relations and the recurring tendency towards statist solutions Proper attention is also given to economic developments *The Baltic Transformed* Walter C. Clemens, 2001

Why isn't the Baltic region like the Balkans Why have the Baltic republics not experienced ethnic cleansing border wars authoritarian rule and social chaos Instead peace democracy and market economies have taken root since the fall of communism Walter C. Clemens Jr here uses complexity theory which analyzes the role of self organization in complex adaptive systems to explain the Baltic miracle He argues that the theory is a vital tool for understanding the remarkable strides made by Estonia Latvia and Lithuania since 1991 in coping with the transition to partnership with the new Europe The Baltic peoples have adapted well to the demands of democracy a market economy and a constructive role in world affairs The achievements of Estonia Latvia and Lithuania in the past decade are the more amazing when considered against the hundreds of years they were dominated by Teutonic knights Hanseatic merchants Sweden Russia and the USSR Clemens uses this history as a springboard to analyze how Balts self organize today to meet the challenges of transition One of the first books to apply complexity theory to a major sphere of world politics *The Baltic Transformed* will provoke constructive debate with its ambitious and well grounded analysis of not only Baltic developments but European security more generally Despite its theoretical foundation the book is written in a clear and accessible style that will make it invaluable for courses on comparative politics political development international relations security or transition studies Latvians in Michigan

Silvija D. Meija, 2005-07-11 Latvians have contributed to the cultural mosaic and economy of Michigan far more than one might imagine There are three large Latvian communities in Michigan Kalamazoo Detroit and Grand Rapids with several smaller enclaves elsewhere in the state An underlying goal of Latvians who now live in Michigan as well as other parts of the United States and Canada is to maintain their language and culture More than five thousand Latvians came to Michigan after World War II found gainful employment purchased homes and became a part of the Michigan population Most sought to reeducate themselves and struggled to educate their children in Michigan's many colleges and universities Latvians in Michigan examines Latvia and its history and describes how World War II culminated in famine death and eventual flight from their homeland by many Latvian refugees After the war ended most Latvian emigrants eventually made their way to Sweden or Germany where they lived in displaced persons camps From there the emigrants were sponsored by individuals or

organizations and they moved once again to other parts of the world Many came to the United States where they established new roots and tried to perpetuate their cultural heritage while establishing new lives

**The Strategy of Nonviolent Defense** Robert J. Burrowes, 2015-10-26 Because of the way in which the history of nonviolence has been marginalized relatively few people have a sense of the rich history of nonviolent struggle or realize that it can be systematically planned and applied Nevertheless the historical record illustrates that nonviolent struggle is a powerful form of political action But can it be effective against military aggression The Strategy of Nonviolent Defense answers this question in the affirmative by first defining the notion of social cosmology the four mutually reinforcing features that determine the character of any society It then devotes attention to strategies for dealing with conflict in particular to developing a strategic theory and framework for planning a strategy of nonviolent defense In order to develop this theory Burrowes synthesizes insights drawn from the strategic theory of Carl von Clausewitz the nonviolence of Mahatma Gandhi and recent human needs and conflict theory

**Democratic Consolidation in Eastern Europe: Volume 1: Institutional**

**Engineering** Jan Zielonka, 2001-06-14 This is the first volume in a series of books on democratic consolidation in Eastern Europe. The series focuses on three major aspects of democratic consolidation in Eastern Europe: institutional engineering, transnational pressures, and civil society. This first volume analyses constraints on and opportunities of institutional engineering in Eastern Europe to what extent and how elites in Eastern Europe have been able to shape if not manipulate the politics of democratic consolidation through institutional means. The aim is to contrast a set of democracy theories with empirical evidence accumulated in Eastern Europe over the last ten years. The volume tries to avoid complex debates about definitions, methods, and the uses and misuses of comparative research. Instead, it tries to establish what has really happened in the region and which of the existing theories have proved helpful in explaining these developments. The volume starts with a presentation of conceptual and comparative frameworks followed by in-depth empirical analyses of the thirteen individual countries undergoing democratic consolidation. The first conceptual and comparative part contains three chapters. The first chapter explains what institutional engineering is about and describes our experiences with institutional engineering in former transitions to democracy. It also focuses on the import and export of institutional designs. The second chapter analyses the utility of constitutions in the process of democratic consolidation. The third chapter compares constitutional designs and problems of implementation in Southern and Eastern Europe. The empirical case studies deal with the following countries: Estonia, Latvia, Lithuania, Bulgaria, Romania, Ukraine, Russia, Belarus, the Czech Republic, Slovakia, Slovenia, Hungary, and Poland. And the conclusions evaluate the enormous impact of institutions on politics in Eastern Europe and show how central constitutional designs are to the institutional engineering in the societies undergoing transitions to democracy.

*Ethnopolitics and the Transition to Democracy* Rasma Karklins, 1994-03 Woodrow Wilson Center Press      *The Military And Society In The Former Eastern Bloc* Constantine Danopoulos, Daniel Zirker, Constantine Danopoulos, 2019-09-30 In this book, an assortment of regional specialists in military relations are gathered together to comment on the current state of the military in various Eastern bloc states. The book focuses on the relationship between the military, politics, and society in these new and burgeoning democracies.      **Civil Resistance and Power Politics** Sir Adam Roberts, Timothy Garton Ash, 2011-09-29 This widely praised book identified peaceful struggle as a key phenomenon in international politics a year before the revolutions in Tunisia and Egypt confirmed its central argument. Civil resistance, non-violent action against such challenges as dictatorial rule, racial discrimination, and foreign military occupation, is a significant but inadequately understood feature of world politics. Especially through the peaceful revolutions of 1989 and the developments in the Arab world since December 2010, it has helped to shape the world we live in. *Civil Resistance and Power Politics* covers most of the leading cases, including the actions masterminded by Gandhi, the US civil rights struggle in the 1960s, the Islamic revolution in Iran in 1979, the people power revolt in the Philippines in the 1980s, the campaigns against apartheid in South Africa, the various movements contributing to the collapse of the Soviet Bloc in 1989-91, and in this century, the colour revolutions in

Georgia and Ukraine The chapters written by leading experts are richly descriptive and analytically rigorous This book addresses the complex interrelationship between civil resistance and other dimensions of power It explores the question of whether civil resistance should be seen as potentially replacing violence completely or as a phenomenon that operates in conjunction with and modification of power politics It looks at cases where campaigns were repressed including China in 1989 and Burma in 2007 It notes that in several instances including Northern Ireland Kosovo and Georgia civil resistance movements were followed by the outbreak of armed conflict It also includes a chapter with new material from Russian archives showing how the Soviet leadership responded to civil resistance and a comprehensive bibliographical essay Illustrated throughout with a remarkable selection of photographs this uniquely wide ranging and path breaking study is written in an accessible style and is intended for the general reader as well as for students of Modern History Politics Sociology and International Relations

**Unarmed Insurrections** Kurt Schock, In the last two decades of the twentieth century a wave of people power movements erupted throughout the nondemocratic world In South Africa the Philippines Nepal Thailand Burma Myanmar China and elsewhere mass protest demonstrations strikes boycotts civil disobedience and other nonviolent actions were brought to bear on a rigid political status quo Kurt Schock compares the successes of the antiapartheid movement in South Africa the people power movement in the Philippines the pro democracy movement in Nepal and the antimilitary movement in Thailand with the failures of the pro democracy movement in China and the anti regime challenge in Burma Schock develops a synthetic framework that allows him to identify which characteristics increase the resilience of a challenge to state repression and which aspects of a state s relations can be exploited by such a challenge By looking at how these methods of protest promoted regime change in some countries but not in others this book provides rare insight into the often overlooked and little understood power of nonviolent action

**Asia's Unknown Uprisings Volume 2** George Katsiaficas, 2013-04-01 Ten years in the making this magisterial work the second of a two volume study provides a unique perspective on uprisings in nine Asian nations in the past five decades While the 2011 Arab Spring is well known the wave of uprisings that swept Asia in the 1980s remain hardly visible Through a critique of Samuel Huntington s notion of a Third Wave of democratization the author relates Asian uprisings to predecessors in 1968 and shows their subsequent influence on uprisings in Eastern Europe at the end of the 1980s By empirically reconstructing the specific history of each Asian uprising significant insight into major constituencies of change and the trajectories of these societies becomes visible This book provides detailed histories of uprisings in nine places the Philippines Burma Tibet China Taiwan Bangladesh Nepal Thailand and Indonesia as well as introductory and concluding chapters that place them in a global context and analyze them in light of major sociological theories Profusely illustrated with photographs tables graphs and charts it is the definitive and defining work from the eminent participant observer scholar of social movements

*The Power of Song* Guntis Šmidchens, 2014-01-01 The Power of Song shows how the people of Estonia Latvia and Lithuania

**Why Civil Resistance Works** Erica Chenoweth, Maria J. Stephan, 2011 Though it defies consensus between 1900-2006 campaigns of nonviolent resistance were more than twice as effective as violent struggles This study combines statistical analysis with case studies to debunk the myth that violence occurs because of structural environmental factors is necessary to achieve certain political goals

**From Comrades to Citizens** G. Adler, J. Steinberg, 2015-12-22 In the 1980s South Africa's urban townships exploded into insurrection led by youth and residents organisations that collectively became known as the civics movement Ironically the movement has been unable to adapt to the role of a voluntary association in the liberal polity it helped create and has great difficulty defining any alternative role This volume charts the rise and fall of the movement in the transition to and consolidation of democracy in South Africa
