The Psychology of Totalitarianism Mattias Desmet, 2022-06-23 This is an amazing book Desmet is one of the true geniuses I've spoken to This book has really changed my view on a lot Tucker Carlson Desmet is waking a lot of people up to the dangerous place we are now with a brilliant distillation of how we ended up here Robert F Kennedy Jr The world continues to exist in the grips of mass formation a dangerous collective type of hypnosis as we bear witness to loneliness free floating anxiety and fear giving way to censorship loss of privacy and surrendered freedoms It is all spurred by a singular focused crisis narrative that forbids dissident views and relies on destructive groupthink Desmet's work on mass formation theory was brought to the world's attention on The Joe Rogan Experience and in major alternative news outlets around the globe Read this book now in paperback ebook and audiobook to get beyond the sound bites Totalitarianism is not a coincidence and does not form in a vacuum It arises from a collective psychosis that has followed a predictable script throughout history its formation gaining strength and speed with each generation from the Jacobins to the Nazis and Stalinists as technology advances Governments mass media and other mechanized forces use fear loneliness and isolation to demoralize populations and exert control persuading large groups of people to act against their own interests always with destructive results In *The Psychology of Totalitarianism* world renowned Professor of Clinical Psychology Mattias Desmet deconstructs the societal conditions that allow this collective psychosis to take hold By looking at our current situation and identifying the phenomenon of mass formation a type of collective hypnosis he clearly illustrates how close we are to surrendering to totalitarian regimes With detailed analyses examples and results from years of research Desmet lays out the steps that lead toward mass formation including An overall sense of loneliness and lack of social connections and bonds A lack of meaning unsatisfying bullshit jobs that don't offer purpose Free floating anxiety and discontent that arise from loneliness and lack of meaning Manifestation of frustration and aggression from anxiety Emergence of a consistent narrative from government officials mass media etc that exploits and channels frustration and anxiety In addition to clear psychological analysis and building on Hannah Arendt's essential work on totalitarianism *The Origins of Totalitarianism* Desmet offers a sharp critique of the cultural groupthink that exists throughout society He cautions against the dangers of our current cultural landscape media consumption and reliance on manipulative technologies and then offers simple solutions both individual and collective to prevent the willing sacrifice of our freedoms We can honor the right to freedom of expression and the right to self determination without feeling threatened by each other Desmet writes But there is a point where we must stop losing ourselves in the crowd to experience meaning and connection That is the point where the winter of totalitarianism gives way to a spring of life One of the most important books I've ever read Ivor Cummins The Fat Emperor Podcast [Eline Vere](#) Louis Couperus, 1940 **De Engelsche Taalmeester** Charles Hains Gunn, 1864 *The Mars Diaries* David Levine, 2010-07-21 In January of 2010 six extraordinary individuals served as Crew 88 of the Mars Desert Research Station
